

GUESTS OF A KING

Ambassador and Mrs. Choate at Windsor Castle.

EDWARD SHOWS FRIENDSHIP

Congratulates Choate on Cementing Bond Between United States and Britain — Ambassador Will Return to America in May.

LONDON, Jan. 28.—Ambassador and Mrs. Choate have returned to their London residence after a visit to Windsor Castle, where they were the guests of King Edward and Queen Alexandra from Wednesday to Friday of this week.

Throughout the visit King Edward was especially cordial to Mr. Choate, and the Associated Press learns that His Majesty took occasion at the dinner to express his sincere regret that Mr. Choate would shortly retire as ambassador to the Court of St. James, and congratulated him on what he had accomplished during his term of office, especially crediting Mr. Choate with having completed the cordial relations between Great Britain and the United States.

Queen Alexandra personally accompanied Mrs. Choate over the Castle last Thursday. Thursday afternoon Mr. and Mrs. Choate accompanied Queen Alexandra in a motor car to Virginia Water, where they took lunch with King Edward's shooting party.

Mr. Choate, it is understood, will, at the request of President Roosevelt, remain in London for some time after his term actually expires, in order to wind up important pending matters in which he is concerned.

THE BEST FRIENDS OF PER-NA ARE THE MOTHERS AND CHILDREN

When Sickness Comes to the Little Ones

It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family.

The mothers look forward with dread to the torrid heat of Summer, thinking of their children and the many liabilities to disease that are before them.

Spring and Summer are sure to bring ailments, especially among the little folk.

It does not take a mother very long to discover that Per-na is the best friend she has in time of illness among the children.

The doctors may come and go with their different theories and constant change of remedies.

The doctors of years ago gave entirely different remedies than he does today.

Each year finds some change in his prescriptions and in the drugs he relies upon.

A Multitude of Mothers Have discovered that Per-na is the stand-by, and that in all the ailments of Spring and Summer to which the children are subjected, Per-na is the remedy that will most quickly relieve.

Whether it is Spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Per-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effect in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Per-na is not a narcotic. Per-na is not a stimulant. Per-na is a specific remedy for all catarrhal ailments of Winter and Summer, acute or chronic.

The Benefit Which the Children of the United States Have Received From Per-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Per-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children today to believe in Per-na from the start will, when they become heads of families, use Per-na with unquestioning faith.

Per-na protects the entire household.

As soon as the value of Per-na is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

No Doctor Required.

Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Per-na. It has done great work in my family, especially for my oldest boy. We had doctors with three or four different prescriptions and they did not seem to do him any good."

"We gave up hopes of cure, and so did they, but we pulled him through on Per-na."

"We had several doctors and they said they could do no more for him, so we tried Per-na as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

Per-na Contains No Narcotics.

One reason why Per-na has found permanent use in so many homes is that it contains no narcotics of any kind. Per-na is perfectly harmless.

It can be used any length of time without acquiring a drug habit. Per-na does not produce temporary results; it is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

There are a multitude of homes where Per-na has been used off and on for 39 years.

Such a thing could not be possible if Per-na contained any drugs of a narcotic nature.

WASHINGTON NEWSPAPER MEN ENTERTAIN STATESMEN.

They impeach Speaker Cannon on Eight Counts and Burlesque "Frenzied Finance."

WASHINGTON, Jan. 28.—The Gridiron Club celebrated its twentieth anniversary with a dinner at the new Willard tonight which was attended by 250 guests, including the President, the German ambassador, representatives of the courts, the House and the Senate and the Army and Navy, as well as men of prominence in the literary, scientific and business world.

While the anniversary was recognized in making Major John M. Carson president of the club and in the production of a souvenir which told the story of a score of years of successful dining, the dinner dealt with political events, which were treated with the usual levity and burlesque.

The presence of Mr. Roosevelt afforded an opportunity for many pointed allusions to doings of the Administration and views of the President, which were the subject of a "Frenzied Finance" by the manager of the club.
