Ore-Gentlemen: Regiving to your personal favor of January 2 I beg to advise that I have read with much interest the New Year's Gregorian for 1900.

You are probably aware of the great interest I have a large portion of my life there and I have always been hoping that fortune would smile on me sufficiently to enable me to pass at least a portion of my life with you in the future.

I read your paper with much interest, and have he doubt but that the Pair will be a grand success, and The Oregonian has always been a grand newspaper.

Sincerely yours.

What One Firm Did. The following letter from the Portland branch of a great firm tells what one firm did through the medium of the New Year's fasue;

Year's Issue;

Editor Oregonian, City.—Dear Str: In common with other business firms in this city we mailed many copies to persons in the East, as the best means of keeping them advised of the wonderful progress of the "Oregon Country," as so fully set forth in your valuable New Year edition.

We are in receipt of a letter from our New Year they are "Copy of The Oregonian which you sent us was received Raturday, the 7th inst. It certainly is a very creditable is sue, and contains much valuable information regarding climate, business conditions and resources of the West.

The prospectus of the Lewis and Clark Exposition is also interesting. Would it be possible for you to approximate the cost of an exhibit." Again in a letter under date the 16th Inst. the treasurer writes: "The New Year edition of The Oregonian contained much detailed information regarding the Lewis and Clark Exposition. We note that you will investigate as to cost of having a booth and will be glad to share the expense providing the cost is reasonable."

P. W. Pummill, Philadelphia division passenger agent Northern Pacific Railroad, writes most interestingly:

Truthfully speaking, more words are inadequate to convey the feeling of enthusiasm I feit upon beholding Portland, Or., and its environments for the first time. I had never been West before, and hardly expected the glad hand of hospitality which greeted me. I arrived on what is known as Windows. arrived on what is known as a Winter's day in the East, but found on every hand flowers

has been accomplished by the Oregon Devel-opment League and the Portland Commercial Chub. This great Lewis and Clark Exposi-tion, which will be held at Portland com-mencing June 1, 1905, and the fulfillment of which, I understand is only one of your great understaining, I investigated thoroughly on my visit to the grounds, and I freely say no exposition ever held will be as interesting

to the public at large as this.

No exposition given in America, aside from the exhibits such as agricultural, foreign, liberal arm, forestry, mining, metallurgy, machinery, electricity, etc., ever had such natural attractions surrounding it, the Columbia River attractions surrounding it, the Columbia Rive and snow-capped ranges far exceeding in pan-

ramic beauty any scenery of the far-famed old country.

I made the trip over the Northern Pacific Railway in company with Mr. A. M. Cleiand, G. P. A., and upon my return to Philadelphia I wrote him a letter which contained my im-pressions, after I had left Eastern Washing-ton on my way to your city, from which i extract the following: "From east of the Cascade,

Dear Sir:

I have your favor of the 4th inst. advising that you would mail copy of the "NEW YEAR'S OREGONIAN' to me and I want to thank you for your kindness.

I have enjoyed looking over the paper and want to compliment you on the splendid issue you have gotten out, -it is certainly interesting and full of meat.

From all accounts you are going to have a splendid exposition and I believe one that will be of great benefit to Portland and that section, and I hope that the fondest expectations of the originators will be fully realized.

PENTIL AND D STREETS NORTHWEST.

The "Oregonian," of Portland, Ore. reads out an immense and artistic New Year number. This is not sur- Se prising, for it is a paper accustomed a C to doing large things well. There is no reason why it should not. For De many years it has been the one not- No; able journal of the Northwest, and has grown with and been an index to the prosperity of that section.

The issue possesses especial interest because of the complete prospectus 71 set forth of the Lewis and Clark Ex- Pist position which is to open next sumner. Work on this gigantic enterprise has gone on quietly for there was no roa desire to make it appear to compete mais any manner with the fair at St. Louis Now that the latter is over, It Oregon wants all the world to know we what has been done.

It has not been the purpose of pro mptors of the Lewis and Clark Ex- htposition to attempt the St. Louis actic of magnitude. The Northwest's show will be more compact and yet in its way, as complete. It will siinstrate the growth of a mighty quarter of this land, and be particularly instructive because the average citien living enet of the Rocky Mountains knows less about that quarter the than about Manchuria. There is common knowledge that it is on the map, but its climatic characteristics, resources, it's sornit splendor, its edprational status, its quick and cultiwated intelligence, its broad and nearty social life, its resistless spirit of enterprise, and its fervid American ish have yet to be revealed to him. He owes to himself that he go to bebold and to learn.

Portland is a fresh water port more than one hendred miles from the Pacific. It is a solid city, modern, growing, the commercial heart of Oregon. Further morth, are se-
