

TO BREAK CONTROL

Britain Proposes Christian Governor for Macedonia.

NEW MOVE AGAINST RUSSIA

Italy Alone Agrees, Hoping to Weaken Austro-Russian Influence—Russia and Austria Bring New Pressure Upon Turkey.

LONDON, Feb. 4.—The Associated Press learns that Foreign Secretary Lansdowne has definitely proposed to the concert of Europe the appointment of a Christian Governor-General of Macedonia with powers and responsibilities similar to those of Prince George of Crete. Thus far the exact acknowledgments indicate little sympathy with the British proposition, with the exception of Italy, which approves of it, perhaps because she sees therein a chance to overthrow the predominant influence of Austria and Russia in the Balkans.

WILL INSIST ON REFORM.

Russia and Austria Threaten Vigorous Measures Against Turkey.

ST. PETERSBURG, Feb. 4.—The Russian and Austrian Ambassadors at Constantinople have received orders to make extremely energetic representations to the Sultan against any further delay in carrying out the reforms in Macedonia, and to threaten Turkey with the employment of the most vigorous measures. This step is being taken because of reports from Macedonia to the effect that the performance of the Murzesteg agreement made between Russia and Austria-Hungary is being opposed continually by the Turk's traditional policy of passive resistance, and that by non-accomplishment of the measures of reform the agitation has been increasing, and as a result Bulgaria and Serbia of Turkey is constantly growing, and the efforts made by the commissioners of gendarmerie sent to Macedonia to introduce order are frustrated at every step. The efforts of the powers to improve their facilities for observing and controlling the district under revolt meet with obstinate resistance, and the consequence is that the hopes of the powers to restore order in Macedonia by means of the reforms decreases day by day.

MILLIONS SUFFER EVERY WINTER FROM BRONCHITIS

La Grippe is Epidemic Catarrh. Pe-ru-na is a Well-Tried Specific For This Phase of Catarrh.

GRIPPE is acknowledged by all physicians to be the most difficult of diseases to treat. Nearly every physician has a different treatment. There has been no common agreement as to the best way of handling this scourge of the civilized world. In 1859 Dr. Hartman introduced Peruna as a catarrh remedy, and as soon as la grippe came to be recognized as epidemic catarrh, Peruna gradually came to be used as a la grippe remedy. From that time, the use of Peruna as a la grippe remedy has steadily grown. Now it is the recognized standard remedy of the world for la grippe. Not only is it prompt and efficient in its action in the acute stages of la grippe, but it is equally effective in the chronic stage, and in the case of a la grippe, no better remedy can be found. As a rule, la grippe leaves its victims in a very bad state of health. The nervous system is disturbed, and especially the digestive and nutritive organs are deranged. This condition has produced a host of chronic invalids in all sections of the globe. In no other class of cases has Peruna been able to accomplish more remarkable cures than in these cases. Peruna at once removes the catarrhal

condition of the mucous membranes, invigorates the digestive organs and gives tone to the nervous system. This makes Peruna an ideal remedy for the after-effects of la grippe and releases an untold multitude from the grasp of this inexorable enemy to the human family. Grew Worse in Spite of Doctor's Daily Visits—Able to Do Her Work Soon After Beginning Use of Pe-ru-na. Mrs. Jane Gift, Hebbardsville, Ohio, writes: "Six years ago I had la grippe very bad. The doctor came to see me every day, but I gradually grew worse. I told my husband I must get relief. "One day I accidentally saw a testimonial of a woman who had been cured of la grippe by your Peruna, which cured me entirely." La Grippe and Catarrh Combined. Mr. Samuel M. York, Union Grove, Wis., writes: "I could see improvement in a very short time and was soon able to do my work. I continued using it until I was entirely cured." La Grippe Causes Serious Derangement. Mr. John Miller, Lilly, Ohio, writes: "I was taken sick two years ago with la grippe, which finally ended in my being troubled with gall stones. "I was examined by a physician who said I had gall stones, but could not cure me. "I took several bottles of your Peruna, which cured me entirely." La Grippe Leaves Catarrh of the Throat. Miss Caroline Webber, 235 Troop Ave., Brooklyn, N. Y., writes: "After having the grip, I was much in need of a tonic. "I had a cough which it seemed almost impossible to get rid of. I took Peruna with excellent results." Recommends Pe-ru-na for La Grippe and Catarrh. Hon. J. P. Megrew, Supt. U. S. Capitol

PERUNA

The Grip Claims 100,000 Victims Each Year. Every Home Should be Provided With Pe-ru-na to Protect Its Members.

"Last Winter I was again attacked with la grippe. I had a terrible cough. "I asked my wife to get me a bottle of Peruna. I took it four times a day, according to directions. "The fifth day I took an ax on my shoulder and went out into the woods to chop wood. "I had another slight attack, but as I had Peruna in the house, it caused me but one trying night." Pe-ru-na Builds Health and Strength. Mrs. Nancy Power, 263 Yamhill st., Portland, Or., Vice President Social Economics Club, writes: "When I recovered from a severe attack of la grippe, I found that my strength did not return as quickly as I should wish, and on the advice of a friend I took Peruna to build up my health and strength. "I am pleased to state that it has made me feel very much better than I have felt for years." Saved From the After-Effects of La Grippe. Miss Nellie J. Brady, Hotel Irvington, Los Angeles, Cal., an enterprising solicitor and member of the Fraternal Union of America, writes: "I had the misfortune, in common with many other people, to contract la grippe the past Winter, and after trying numerous remedies, was induced to try Peruna, which I did, much to my satisfaction and relief. "Am pleased to say that the complaint was not only routed, but a continuance of the medicine fortunately saved me from the irritating and often fatal after-effects of the disease." Pe-ru-na Cures La Grippe and Cough. Mrs. Mary Frost, Monrovia, Kan., writes: "I had la grippe last Winter, with a severe cough, which I could not seem to get rid of. "I took Peruna. In a short time it had rid the system of all traces of la grippe and made me perfectly well and strong. "I also gave it to my daughter, who had la grippe, and almost coughed herself to death, and it had the same beneficial results in her case." Cured by Three Bottles of Pe-ru-na. Mr. Joakim Zimmerman, Collinsville, Ill., writes: "I have taken three bottles of Peruna and am now perfectly well. "I had la grippe in the winter of 1904, and it was very bad. "I had taken three bottles of Peruna, and I shall take them all." Keeps Pe-ru-na in the Home. Mr. E. Morrow, Supt. of State Road, Glenwood Springs, Colo., writes: "I had a severe attack of la grippe last Winter, and could find nothing which seemed to give me any appetite or strength, or build up my system in any way, until I got a bottle of Peruna. "I three days' use of it I became much improved, and I have since used it as usual. We keep Peruna as our family medicine." Address: Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, for free medical advice.

NO COMMISSION CAN DO IT

Northern Pacific Traffic Director Gives Reasons for Not Allowing Interstate Commission to Do So—Opposed to Rebates.

MISSOULA, Mont., Feb. 4.—Vice-President J. M. Hannard, of the Northern Pacific Railroad, who has been making a tour of the Western divisions, expressed himself today as opposed to giving the Interstate Commerce Commission power to regulate rates. He said: "Forgetting whatever interest I may have in the railroads, and looking at it from an impartial standpoint, it is hard for me to see how a commission at Washington, D. C., can justify name the rates in all parts of the country, thousands of miles away. Gather any number of men there at Washington from any walk in life, and they certainly cannot do better at making rates than the railroad men who have made it a special study, and for that matter, their life work. I have spent about 20 years in the railroad business, and I assure you that I do not want to be on a commission with such a job ahead of me."

A moment later the people at the table heard a shot, and rushing upstairs found Steel shot through the breast. He said he had fired the pistol himself, and offered no explanation.

OPPOSE ESCH-TOWNSEND BILL

Cassatt and Spencer Say It Does Not Protect Railroads. WASHINGTON, Feb. 4.—President Cassatt, of the Pennsylvania Railroad, and President Spencer, of the Southern Railway, called at the White House today at the invitation of President Roosevelt and discussed the proposed legislation looking to the regulation of freight rates. "I may be stated on authority that the two railroad presidents expressed a perfect willingness to co-operate in the matter of legislation that protects both sides, but they made known to the President that, in their opinion, the Townsend-Each bill, which will come up for consideration in the House on Tuesday next, furnishes practically no protection to the railroad interests. When asked if those interests intended

GUESSING ON DECISION.

Paris Speculates on Probable Result of North Sea Inquiry. PARIS, Feb. 4.—The close of the testimony before the international commission inquiring into the North Sea incident has been followed by a rather noticeable diminution of the confidence in British fisheries connected with the case and a corresponding elation on the part of the Russians. The French press, which is strongly pro-Russian, gives marked prominence to statements that the Russians have virtually won their case, the usually conservative Temps and Journal asserting positively that the majority of the court now favors the Russian theory that torpedo-boats attacked Vice-Admiral Rojestvensky's squadron. However, inquiry into well-informed circles does not show any real basis for these reports. On the contrary, intimations are made that the tendency within the court is rather in the opposite direction.

NERVOUS DYSPEPSIA A CURE FOR ALL

Not a Patent Cure-All, Nor a Modern Miracle, but Simply a Rational Cure for Dyspepsia. In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrums will cure dyspepsia and stomach troubles, and they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrums will cure dyspepsia and stomach troubles, and they never think of leaving out dyspepsia and stomach troubles.
