Springs Burned.

THREE ARE FOUND IN RUINS

Fire Breaks Out in Early Morning, and Fanned by High Wind Deyours Buildings Covering One Square Mile.

HOT SPRINGS, Ark., Feb. 25.-Fire swept the southern portion of this city early today, causing losses variously estimated at from \$1,000,000 to \$2,000,000, and three deaths. Three charred corpses were found in the ruins, but the identity of the victims has not been established. One of the bodies is supposed to be that of a famale guest of the Grand Central Hotel. The fire started at 5:29 this morning and in five hours burned over an area of one square mile. Block after block of busi-ness houses, hotels and other buildings wag swept away. The fire-swept area in-cludes every nouse on Chapel street, all of Market street from Central avenue west; Orange street to Grand avenue, and a pertion of Oak street. Among the build-ings destroyed are the Grand Central Hotel, the Lee House, Moody Hotel, Plateau Hotel, Columbia Hotel, the County Court-house, jail, First Methodist Church, the Jewish Synagogue and 25 residences and atores.

The fire started in the Grand Central Hotel, and its origin is uncertain. All of the guests had retired for the night, and only the night clerk and watchman were on duty when the flames were discovered. A strong north wind was blowing, and be-fore the fire department could reach the scene the flames spread rapidly to ad-joining buildings.

Water Supply Fails, Wind Rages.

The firemen and police worked valiant-ly, but their efforts could not check the fiames, and, to add to their difficulty, the water pressure gave out at 5 o'clock. Bucket brigades were then formed, clti-sens and visitors alike volunteering their services. Many lodging-houses and cheap restaurants were directly in the path of the fire, and the occupants were hurriedly apprimed of their danger. Many in their anxiety jumped from windows and sus-tained severe bruises and shocks.

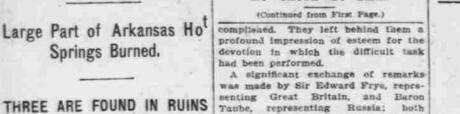

At daybreak the wind increased in force. The flux swept along Central avenue south, eating up building after building. On the west side of Central avenue a strip of woods covering about ten acres arrested the progress of the fire to the west. The Park Hotel, through a favorshift in the wind, escaped destruc-

Three Unknown Dead Found.

At 3 o'clock the fire had practically burned itself out, and the work of res-cuing was begun. In the rulns of the Grand Central Hotel a charred female body was found. The remains could not be identified, and as the hotel register and other records were burned, the name may never be known. In a lodging-house two unknown male corposes were discovtwo unknown male corpses were discovered.

Mayor Belding issued a proclamation, calling ppon the citizeus to open their houses to the destitute, and the appeal was responded to on every side. The large hotels took in hundreds who had lost their belongings, and fed hundreds more. A mass meeting called by the Mayor met this evening. Mayor Belding asked for

flooded with telegrams from all parts of the country, asking if friends and rela-

spoke in the most amicable spirit and eulogized the arbitration. Sir Edward said: "This is one of the most important events ever brought before an inter-national court. All should feel grati-fied with the satisfactory results at-

tained." The speaker closed with the quotation: "Peace nath her victories no less renowned than war." Rear-Admiral Charles H. Davis, United States, said concerning the de-

"The conclusions seem to me to be equitable. They are formulated in a manner to satisfy the legitimate desire of the two parties, and mark an im-portant step in the pacific solution of international conflicts."

Admiral Baron von Spaun, in behalf of the Admirals, thanked Admiral Fournier for his courtesy and France for her gen-erous hospitality, and requested Admiral Fournier to express the commissioners' sense of gratitude to President Loubet and Foreign Minister Delcasse. The sit-ting lasted half an hour.

JOHN BULL WEARS BIG SMILE

Findings Held to Sustain His Con-

tention Throughout. LONDON, Feb. 25.-The Foreign Office received the findings of the North Sea Commission with apparent equanamity, but declined to give out any official ex-

pression of opinion thereon. An official said to the Associated Press: "The finding of the Commision is final. We, therefore, must be satisfied and it would be in bad taste for us to express dissutisfaction."

The Associated Press understands, un-officially, however, that the Foreign Office is well pleased with the findings.

The indings were received in London with every sign of gratification, which was all the more marked because of the premature reports that the decision of the Admirals had been of anti-Editsh character. The whole report is regarded here as discrediting the Russian case; even the phrase that the firing was not unduly prolonged, which seems to afford a certain justification for opening the firing, is at the same time taken as im-plying that the Russians continued to fire after they had discovered their mistake. The definite finding of the Admirals that no torpedo boats were at the scene of the incident gives considerable satisfaction, and it is pointed out that the British contentions were further upheld in the finding that the trawlers Crane and Aurora were the boats the Russians mistock for torpedo boats.

Diverse Views of Paris Papers.

PARIS, Feb. 26 .- The Figaro, com menting this morning on the decision of the North Sea commission, congrat-ulates the commissioners on the impartial verdict in which the honor of both nations is satisfied. The Temps criticizes the report as illogical. It recognizes that the task

was delicate and complicated by a lack of precedent. The fact that it stopped two nations from going to war, how-ever, is a sufficient cause for appre-ciation of arbitration.

Drink Health of Two Presidents.

PARIS, Feb. 25 .- At a dinner given mass meeting called by the Mayor met this evening. Mayor Belding asked for contributions to assist the destitute this evening, and generous donations were made. Many turfmen subscribed liberally to the fund. Mayor Belding said at the meeting that in his opinion the city can take care of the situation without an appeal for outside aid. Tonight all the destitute are being cared for. The telegraph offices tonight have been fooded with clearang form all parts of fooded with clearang form all parts of the set of the situation without an appeal for outside aid. Two Thousand Homeless.

More than 2000 people are homeless. For-unately the cold weather has passed and Springlike temperature prevails. The streets are filled with merchandise taken from stores in the threatened districts. The Spring season always attracts a pringlike

arge number of visitors to this resort. The city has been filling up with visitors r several weeks, and it is estimated that fully 20,000 of these sojourners are here. The three large botels, the Arlington, the Eastman and the Park, were not damagod by the fire.

Many valuable records were burned and the 20 prisoners in the jail were rescued with difficulty.

Mayor Belding personally assumed com-mand of the fire-fighters and police, and Sheriff Williams posted his deputies in many parts of the threatened district, to looting. Men, women and children were seen running in all directions, many carrying bundles of clothing and seeking a place of safety.

ARE AFTER STOESSEL'S SCALP Russian Papers Attack Him, and No Ovation Awaits Him.

ST. PETERSBURG, Feb. 5. - On the eve of General Stoessel's arrival here a section of the press is attacking him bit-terly. These papers have printed all the stories tending to show that the garrison of Port Arthur was not at extremities of Port Arthur was not at extrements when it capitulated, the Slove even al-leging mistreatment of the inhabitants of the city. The majority of the papers, how-

fileial investigation as being unjust and inwarranted On account of the death of Grand Duke Sergius, all the plans for a big public ovation for General Stoessel have been

countermanded, and the man who a few weeks ago was extolled as the hero of the tonight almost like a soldier in disgrace.

THE VALUE OF CHARCOAL

Few People Know How Useful It is in

Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfect-ant and purilier in nature, but few realize its value when taken into the human system for the same cleansing purpose Charcoal is a remedy that the more

you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after

smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which

collect 'n the stomach and bowels: it disinfects the mouth and throat from the polson of catarrh.

All druggists sell charcoal in one form or another, but probably the best char-coal and the most for the money is in buuar.s Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of

large, pleasant tasting lozenges, the char-coal being mixed with honey. The _ally u: of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, thay no possible harm can result from their continued use, but

on the contrary, great benefit. A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stu-

art's Charce Losenges to all patients suffering from gas in stomach and bow-els, and to clear the complexion and purtthe br _th, mouth and throat; I also believe the liver is greatly benefited by the daily use of them: they cost but twenty-five cents a box at drug stores, and although in some sense a patent prep-aration, yet I believe I get more and better charcoal in Stuart's Charcoal Loz-Emperor on March 4 will issue a mani-festo providing for a general division of the proceedings of the Council of Minis-coal tableta."
