CHICAGO, March IL-(Special.)-The results announced today of the investigation conducted by Superintendent Bodine, of the compulsory education branch of the public school system, reveals the fact that during the last two years 301 girls under the legal marriage age of 18 years have been married without substantial proof of age to men whose ages range

Instances are cited where several girls of 12 and 13 years have been sold into wifehood by their parents. The affidavit filed by the prospective groom was the only proof of age submitted. Superintendent Bodine declares his belief that present system makes perjury.

He will call a meeting of the committee compulsory education of the Cook County Child-Saving League next week and have resolutions adopted to induce the Legislature to make far stricter requirements for marriage of minors than re in force at present.

How the Bargain Is Made.

Mr. Bodine also gave strae side light on "the child wife traffic," which is most ion among the Sicilian immigrants. An adventurous son of Sicily comes to this country leaving his family behind. Catarrh is a Systemic Disease. Catarrh often manifests itself locally, being confined to the head, the throat. the lungs, or any other organ lined with mucous membrane.

Notwithstanding that catarrh expresses itself locally, it is a systemic disease, the local expression being only one of its manifestations.

"I found Peruna of great benefit when I had been suffering with catarrh of the head and throat for months. The first bottle gave me relief, and I continued to use it for eleven weeks, when I was cured."

Pe-ru-na Contains No Narcotics

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmiess. It can be used any length of time with-out acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no had effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peru-na has been used off and on for twenty years. Such a thing courd not be pos-sible if Perusa contained any drugs of a narcotic nature.

It was realized that, if any point of the Russian line gave way, all would be lost, The position in the most extreme danger appeared to be north of Mukden station, where it seemed for a time that the Japanese might break through and entirely cut the lines of retreat. General Kuropatkin concentrated heavy columns there, took command himself, and succeeded during Thursday morning, in forcing the Japanese back from the river, and also in driving out bodies of Japanese east of

the railroad.

The maneuver appeared to point to success, when news arrived that the Jap anese had broken through between the alender first and fourth army corps, taking advantage of the hurricane that was blowing clouds of dust into the faces of the Russians to deliver an attack which the Russians were not prepared to meet. It was impossible to support the retiring corps, as the reserves to the last man had been sent to the line of battle at other points, and, as the danger of communication being severed by this attack from the east was imminent, retreat was determined upon and immediately began. It was the universal Spring and Fall blood purifier," tonic and cure-all, and mind you, this old-fashloned remedy was not without merit.

The idea was good, but the remedy was crude and unpaintable, and a large quantity had to be taken to get any effect. Nowadays we get all the beneficial effects of sulphur in a palatable, comen-

fects of sulphur in a paiatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur ment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small choco-late-coated pellets and contain the ac-tive medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sul-phur acts directly on the liver and ex-cretory organs and purifies and enriches the blood by the prompt elimination of waste material. waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every Spring and Fall, but the crudity and impurity of ordinary flours of sulphur were often worse than the disease, and

were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used. They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alles alike.

Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, capelities, when resulting from constitution."
