ALASKA PLACER IN MINIATURE

George E. Ames to Arrange Cylindrical Exhibit Showing Actual Workings of Great Placer - To Exhibit Gold Dust.

It would take time and money, to say nothing of the petty attending change of climate, to go to Alaska and the Klondike to witness a placer mine in actual operation, and it would need a magician's wand to bring such a placer mine from the frozen North and stick it in the ground within the city limits of Portland. But such an every-day magician is George E. Ames, who has just obtained at large expense a concession...

Stomach Heart Kidneys Slaves of the Inside Nerves

Our lives, from moment to moment, depend on a set of tiny, delicate nerves which are so small that fifteen hundred of them could lie side by side in an inch! Ten times more tender and sensitive than the pupil of the eye.

Yet, night and day, unguided and unseen, these little nerves must keep the stomach, the heart, the kidneys, in healthy action. For these organs have no power of self-control. The power is in the nerves. The nerves are the Masters. The organs are their slaves.

Understand first that we have two entirely separate nerve systems. When we walk, or talk, or act, we call into play a certain set of nerves—nerves which obey our mental commands. That is why the arm can be raised, or the mouth opened, or the eye shut, at the slightest desire. That is why your fingers can delicately pick up a pin one moment, and hold a heavy hammer the next.

It is the inside nerves that manage and govern and actuate the heart and the stomach, the kidneys and the liver and all of the vital functions. You cannot control these nerves. By no supreme effort of mind can you make your heart stop or start—or can you even make it vary by a single beat a minute. And so with the stomach and the liver and the kidneys and the bowels—they are automatic—they do their work at a certain set speed whether you are awake or asleep—whether you want them to or not.

It is on these inside nerves that life and health depend. So long as these nerves perform their proper duties, we are well and strong. When they fail, we know it by the inevitable symptoms—stomach, heart, liver, kidney troubles.

Thus, we find that most forms of illness are, after all, only symptoms of the real trouble—inside nerve trouble. For instance, indigestion, sour stomach, heartburn, dyspepsia, and all stomach troubles—diabetes, Bright's disease and other kidney disorders—heart troubles, liver troubles, bowel troubles, nervousness, fretfulness, sleeplessness, irritability—all of these ailments are due to this single cause. Painful, disagreeable to be treated as such. They are merely outward signs of inward trouble.

There are different centers and branches of this inside nerve system (frequently called the Sympathetic Nervous System). But each branch is so closely connected with the others that breakdown anywhere usually means a breakdown everywhere.

My Free Dollar Offer Any sick one who has not tried my remedy—Dr. Shoop's Restorative—may have a Full Dollar's Worth Free. I ask no deposit, no reference, no security. There is nothing to pay, either now or later. I will send you an order on your druggist which he will accept in full payment for a regular, standard size Dollar bottle. And he will send the bill to me C. I. Shoop, M. D.

The suffering organ is enjoying its temporary relief, the nerve that is really sick may be getting worse and worse! Does this not explain to you why relapse so frequently follows a supposed cure? Does this not account for the uncertainties of medicine?

More than thirty years ago this thought came to me. "If life and health depend upon perfect heart action, upon proper stomach digestion, upon correct kidney filtering, why does not life itself depend upon these life governing power nerves—these inside nerves?"

"I realized, too, that all ailments which result from one cause may, of course, be cured by one remedy. I resolved not to doctor the organs but to treat the one nerve system which operates them all. For those who treat only the symptoms need a different remedy for each. Such treatments are only palliative, the results do not last. A cure can never come in diseases of the stomach, heart, liver or kidneys, until the inside nerve power is restored. When that is done, Nature removes the symptoms. There is no need of doctoring them.

My remedy—now known by druggists everywhere, as Dr. Shoop's Restorative—is the result of a quarter century of endeavor along this very line. It does not dose the organ or deaden the pain—but it does go at once to the nerve—the inside nerve—the power nerve—and builds it up, and strengthens it and makes it well. There is no mystery—no miracle. I can explain my treatment to you as easily as I can tell you why cold, flu, fever, and why heat melts ice. Nor do I claim a discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truths and combined the ingredients into a remedy that is practically certain.

In more than a million homes my remedy is now known, and relied upon. Yet you may not have heard of it. So I make this offer to you, a stranger, that every possible excuse for doubt may be removed. Send no money—make no promise—take no risk. Simply write and ask. If you have never tried my remedy, I will send you an order on your druggist for a full dollar bottle—not a sample, but the regular standard bottle he keeps constantly on his shelves. The druggist will require no conditions. He will accept my order as cheerfully as though your dollar lay before him. He will send the bill to me. Will you accept this opportunity to learn at my expense absolutely how to be rid forever of all forms of stomach, heart, kidney ailments—to be rid not only of the trouble, but of the very cause which produced it? Write today.

For a free order for Book 1 on Dyspepsia, a full dollar bottle Book 2 on the Heart, you must address Dr. Shoop, Box 8112, East St. Louis, Mo. Book 3 for Women, which book you want. Book 4 for Men. Book 5 on Rheumatism.
