THE EXPOSITION GROUNDS. Order Placed for 50,000 Bird's Eye Views Printed in Seven Colors.

The management of the Lewis and Clark Fair Association yesterday placed an order with Mr. E. Shelby Morgan, of the Mutual Label & Lithograph Company, 301 Macleay building, for 50,000 additional birdseye views of the Lewis and Clark Exposition grounds.

The Fair Association has already distributed 20,000 of these lithographic views throughout the Eastern and Mid-Western States. The additional 50,000 ordered will be used for distribution in the states of the Pacific Northwest.

This is one of the handsomest lithographic reproductions ever issued by any publishing house in the United States. The view itself is 28x46 inches in size, and it is printed in seven colors. It shows every building on the Fair grounds, and the grand vista of scenic beauty of the country surrounding Portland to the east and north, including the great chain of the Cascade Mountains and the lofty, snow-capped peaks that rise far above the general level of the summit of this great chain of mountains.

There is an accuracy of detail following in the reproduction of this view that has insured a most pleasing perspective of the entire grounds, and the beautiful stretch of city and mountain scenery that reaches away to the north and east.

The Mutual Label & Lithograph Company has received the congratulations of many prominent people for the ability shown, not only to underbid the Eastern competitors on this high-grade work, but also for their ability to secure so good results in artistic engraving effects as can be guaranteed by any of the leading engraving establishments of the East.

Mrs. Elsie Akley, owner of the Hotel Monarch, has returned to Portland after a visit to Walla Walla. She was a resident of that city 12 years ago, and this was her first visit in that time. She was much impressed with the remarkable growth of Walla Walla in that period.

The many friends of Dr. Gustav Baar, one of Portland's most popular physicians, will be grieved to learn that he is seriously ill with typhoid fever at the country home of his people, Maier Weiskirchen, Austria. Dr. Baar left here for Europe early last fall for a visit at his old home and to take lectures in Vienna. He intended returning to Portland this month.

The great and increasing demand for proves that Pacific Coast people investigate.
