SAN FRANCISCO. March 25.—(Special.)

A year ago the cry was raised here that the city was building too rapidly. Real estate men figured that the amount of construction work was absormed. Nevertheless, the growth has been continuous, until San Francisco so far this year stands third among the cities of the country in the amount of building undertaken. Great projects from up for the future. The most interesting of these is the proposed addition to the Hotel St. Francis, to cost in the neighborhood of \$1,000.00. Features of the addition will be special rooms for commercial travelers, a gymnazium, with shower baths, and connect.

The Humboldt Savings Bank is soon to erect a new building 15 stores high at the busiest corner of the city.
