C. F. Sargent Leaves for Bristol Bay Today.

Chinese Packers Stowed Away Like Sardines Between Decks-No Cut Will Be Made in Trans-Pacific Tariff.

The American ship C. F. Sargent, Captain Thomas Fry, finished loading her cargo of cannery supplies at Ainsworth dock yesterday noon and early this morning will start down the river, bound for Bristol Bay. She will not re-turn until Fall, when she will bring back the pack of the Alaska Portland Packers' Associations' canneries. In addition to her full cargo of sup-

plies, the Sargent will carry north about 100 Chinese, who have been en-gaged to work in the cannerles. These Chinese have their quarters between decks, and to say that it is a stuffy place is putting it mildly. Yesterday afternoon the Celestials were swarming in and out of the hold and over the ship's decks, getting their baggage aboard and stowed away. One was so unfortunate in descending a rickety ladder from the dock as to lose his balance and fall on his head on the rail. His chances were even for rolling overboard or on the deck, but he landed on the deck, where his countrymen picked him up. The man was later sent to the Chinese hospital for treat-

a medal for tidiness. Neatness, however, is not to be expected in a cancos Bay vessel with Chinese for passengers. Her decks are littered up with a vast collection of odds and ends belonging to the Chinese, in addition to bulky articles of the cargo, big tim-bers, galleys for the passengers and the like. A large gasoline launch made fast to the deck is used as a receptacle for a quantity of supplies. There is also a small cow aboard, housed in a very small portable stable.

The ship carries a typical carge of cannery supplies, valued at about \$46,-600. The manifest shows the following articles aboard: 2155 boxes of tinplate, 121 bars of tin, 122 bars of lead, 60 sacks of salt, 54 cases of labels, 23,000 cases of cans, 22,000 boxes, four pieces of canning machinery, box of brushes and brooms, 11 bales of nets, one bale of trap web, 21 coils of rope, 28 drums of coal oil, 329 tons of coal, 42 pairs of men's shoes, four cases of shoes, five pulleys, six boxes of rubber goods, one box of men's clothing, two boxes of hat of men's closured by the state of hat at 5 P. RATES WILL BE MAINTAINED

Regular Lines Will Ignore Chartering of Tramps.

Notwithstanding the engagement of tramp steamers by exporters, there will be no reduction in the regular tariff of the trans-Pacific lines running out of Botto, for Port Angeles, Stammer Newsboy, for Crescent City. will the regular lines take up tramp

steamers.
This line of policy was agreed upon at a meeting of the Oriental Traffic Association, held at Seattle, at which all the established lines in the North were represented. The agreement relates only to May business, but will probably also be effective for several months

There was a belief on the part of some shippers that the chartering of some shippers that the chartering of two steamers at a \$4 rate to load at Portland and several at the same terms on the Sound would demoralize the es-on the Sound would demoralize the eson the Sound would demoralize the established tariff of the big lines. on flour to Oriental ports, and it was surmised that a figure even under \$4 might be named. This course, if followed, would have upset the calculations of the independent shippers who had taken vessels on their own account and would have placed them at the mercy of such exporters as have stood by the regular lines. The companies decided otherwise, however, and have put away their fighting clothes for some future time, and the outside shippers naturally breathe easier.

Two steamers, the Dumbarton and the Ferndene, were chartered to load here independently of the Portland & Asiatic Company. The Dumbarton will sail the latter part of this month, the Ferndene early in May. There was some talk of the Portland & Asiatic also laying on an extra vessel, but the action taken at Seattle prevents this. As the flurry in the shipping industry occasioned by the anxiety of Japanese importers to lay in large stocks of flour before the duty is raised, on July 1, and as their requirements have been about filled, judging from the failing distributed in the province of the failing all the failed from the failing all the requirements have been about filled, judging from the failing distributed from the failing distributed from the failing all the requirements have been about filled, judging from the failing distributed from the fail of t 1, and as their requirements have been \$5.25@5.25%; mixed, \$5.25@5.27%; Hight, \$5.25@ about filled, judging from the falling @5.80; pigs, \$4.75@5.10; bulk of sales, \$5.25@ about filled, judging from the falling 65.80, off of orders, it is not likely that much 5.27% will be done in tramps by anybody for some time to come.

RETURN OF THE OREGON.

Extensive Changes to Be Made in the St. Paul.

The steamer Oregon will return to the city today. Since her experience with fire off the California coast she has been

thoroughly repaired at San Francisco and is now as good as before.

NEW YORK BANK STATEMENT.

Contraction in Loans, Instead of Expected Expansion,

NEW YORK, April 8.—The Financier says: At least two disappointing features were dis-closed by last week's official statement of the New York associated banks; the loans were continuted instead of being expanded, as was expected, and the cash reserve showed an im-portant loss, whereas a small gain was indifrom the record of industrial conditions that other transactions similar to those which have contributed to a continuous reduction in loans
