OUT FOR ALBEE

Howell Says That He Will Support Him.

ASKS HIS FRIENDS TO AID

This Action Will Affect the Primary.

MAKES STRONG COMBINATION

If Albee Loses the Republican Nomination for Mayor Then Howell Will Be Free to Run as an Independent.

"I am going to support Albee and request my friends and supporters to do the same."

With these words, spoken yesterday afternoon, George H. Howell, member of the Executive Board and mentioned as a strong candidate for Mayor of Portland, threw aside all pretensions to the throne, as it were, and cast his sword to the feet of the champion of the Municipal Association.

When approached yesterday afternoon on the subject, the officers and members of the executive committee of the Municipal Association were reticent about making statements.

"I believe Mr. Howell is coming to our support," said one, "but I have nothing to say regarding the move."

Has Large Following.

Howell is recognized as a man with a large following and a great labor constituency. He has back of him the members of the police force, of the Fire Department and of the several labor organizations, many of which have openly pledged their support if he determined to be a candidate.

His announcement that he will support Albee, therefore, comes as a surprise to many of his friends and supporters. It is believed that the move has been taken to offset the strenuous campaign of W. B. Glafke, and the desired result is to defeat Glafke in the primary. On the other hand it is intimated, though not admitted, by certain members of the Municipal Association, that should Albee, backed by the Howell support, fail to carry the primary, he will retire from the field and the association will, in compensation for Howell's support at the primaries, support Howell as an independent candidate.

It is deemed that in this manner the reformers will have a chance to win out in the end, either by means of Albee in the primaries, or that falling by means of Howell as an independent candidate.

Offsets Glafke's Strength.

"We recognize that Glafke is a strong candidate and hearsay," said a prominent official of the Municipal Association yesterday. "We believe he will be one of the most popular candidates."

This, coupled with the fact that Glafke will draw, in a measure, votes that would otherwise support Albee, is supposed to be the prime reason for the Howell-Albee combination. On the other hand, the reformers never expected to run in the primaries, and, on the contrary, has said he would not; and the fact that he will throw his support to Albee loses him nothing, as he gets the support of the Municipal Association in turn if Albee does not carry the primaries, and if Albee does carry the primaries the chances would be slim in any particular.

The Albee people and the Howell people are to get together early in the week and make final arrangements.

More than 25 petitions are now being circulated about the city for names of Albee supporters, and Tuesday evening at 8 o'clock, in the Albee Hall, the Albee Club will be formed for the avowed purpose of electing him Mayor, if such a thing is possible. A number of prominent men in Portland will address this meeting, officers will be elected and plans of campaign discussed.

WILL ISSUE MUNICIPAL BONDS

St. Johns Council Will Call Special Election for Purpose.

At a mass meeting of the citizens of St. Johns, held last night in Holbrook's Hall, it was decided to support the Council in calling a special election in the near future to enable the electors to vote on the question of issuing between \$10,000 and \$15,000 of municipal bonds to pay the debt of the city, amounting to about \$200,000, purchase ground on which to erect a city hall and to erect a public dock.

As to the amount that would be required to clear off the debt and leave enough to purchase ground, it was estimated that between \$10,000 and \$20,000 would be needed. A. E. Douglas spoke for \$20,000 as the right amount to provide all the things that would be necessary, but others spoke for a lesser sum.

the fire apparatus contracted for, secure grounds and erect a public hall, and complete the public dock, and then call a special election to enable the people to vote for or against the issue of the bonds. At this same election the cow question will go to the people also, to determine whether cows shall be prohibited from running at large.

City Attorney Greene was asked whether the Council had authority to issue licenses for saloons and other things under the charter, but he said he would submit an opinion at the meeting of the Council next Monday evening. It was announced that the taxable property of St. Johns was fixed at \$50,000, and that the revenue from taxation would be about \$80,000, not enough to meet current expenses.

ADOLPHE WOLFE BACK HOME

Compares Portland to Heidelberg in Point of Beauty.

Beautiful Heidelberg, famous as the seat of a celebrated German university, is toasted in song and story because Nature has been kind in placing it amid charming surroundings in which river, hill, and plain make a picture. A stein song has even been composed in its honor in "The Prince of Pilsen," and Richard Mansfield, the greatest American actor, has made "Old Heidelberg" a vehicle in which he has gained one of his most lasting artistic successes.

Heidelberg students have carried its fame over the world, and it is therefore pleasing to be told that our own Portland is very similar in beauty of situation and natural advantages to Heidelberg, Germany. We saw Adolphe Wolfe, vice-president of Lipman, Wolfe & Co., who returned last night from a 13 months' trip to Europe. Mr. Wolfe is one of the directors of the Lewis and Clark corporation, is a specially interested in the success of the Exposition, and he is a keen, observing business man whose opinion is worth something.

"Many of us—what is, Mrs. Wolfe, myself, Miss Florence Wolfe and Master George and Miss Stella Wolfe—sailed from New York for Bremen on board the steamer Kaiser Wilhelm der Grosse, and by a curious coincidence we were in Cherbourg in the same steamer and landed in New York on the return trip March 29, 1905," stated Mr. Wolfe. "No, I didn't plan to have the matter happen that way. It was just a coincidence. We placed my two younger children—George and Stella—at school at Heidelberg, and Mrs. Wolfe, myself and Miss Florence Wolfe spent the time traveling over Europe. Heidelberg looks very much like Portland; a river runs through the city and there is a similarity in the beauty of natural surroundings, but the streets are much better kept than here. Nature has done a lot for Portland, but the people have not done enough. If Portland were in Germany, it would be the prettiest place on the face of the earth."

"Over in Europe, in the larger cities I observed how well the streets are kept and how clean they are. In pavements, asphalt, sidewalks and macadam were used, and the surface of the streets was kept in repair. Did a hole appear anywhere on a pavement, it was immediately repaired, before it traveled made it worse. I was last in Berlin in 1878, when many people over there looked upon Americans as adventurers. Now Americans are on perfect terms of equality with everybody, and the present is welcome wherever they care to go. This is so to a marked extent in business circles. I met a great many Americans, particularly in the south of France and Italy, and among them advertised the Lewis and Clark Exposition in this city to the best of my ability. Half of those I spoke to promised to visit our Exposition, in preference to going to Europe this summer and early fall, and I have a list of people who wish me to find rooms for them during a part of the Exposition period."

"We visited Germany, Austria, Switzerland, Belgium, England, France and Italy. We especially enjoyed the Riviera, in the south of France, and think the three greatest cities we saw were Paris, London and Vienna. The most beautiful country? Italy. Travelers generally agree that in music and the fine arts Europe leads the world, but in America we lead in commercial activity, in business and in the art of living. This view has been strongly impressed on me during my visit abroad. The greatest stores I saw in London and Paris are not to be compared with Wamamarket in New York or Marshall Field & Co.'s in Chicago, and several others.

We also excel in railroad travel, hotels and time-saving devices. With great pleasure I visited my former home at Hohenzollern, Hechingen, Germany. Still, it is with greater pleasure that I find myself home again, among my friends. Portland still remains my favorite city, and after a tour among many cities I prefer this one as a permanent home."

SPECKLES MUST PAY DOCTOR

Austrian Court Decides Against California Millionaire.

NEW YORK, April 15.—The Fremdenblatt announces, says a Herald dispatch from Vienna, that the Eger Court has delivered a judgment in the suit brought by Dr. Edgar Gans, of Carlsbad, against Rudolph Speckles, of California, for fees in connection with a service rendered when Mr. Speckles was suffering from appendicitis. Dr. Gans is awarded \$1000 and full costs, which amount to a considerable sum. Speckles, originally excited and refused to meet the doctor's demand for \$2000 as compensation for his services.

Extension of Pacific & Idaho.

WEISER, Idaho, April 15.—(Special.)—A minority of this section, just back from an extended trip East, reports having seen President Lewis Hall and Vice-President and General Manager Helgbo, of the Pacific & Idaho Northern Railroad, while in the East, and they informed him that the railroad would be extended to Payette Lake this year, a distance of 50 miles, from Council, the present terminus, and that work would be commenced in a short time. Vice-President and General Manager Helgbo is expected home next week, when it is expected operations will commence on the grade work.

Clerk Won Taft's Wife.

BURLINGTON, Vt., April 15.—(Special.)—Local society is startled by the announcement that Attorney Russell A. Taft, son of Russell Taft, Chief Justice of the State Supreme Court, has brought suit for \$50,000 against Charles Walker for the alleged alienation of the affections of his wife. Walker is a clerk in the employ of a local lumber dealer. Mrs. Taft has sued for a divorce on the ground of intolerable severity.

Must Have Safety Appliances.

OMAHA, Neb., April 15.—(Special.)—The Union Pacific Railroad Company has announced that hereafter it will not handle cars of other roads which are supplied with the safety appliances required by law. All Union Pacific cars have been fitted with these appliances.

Moral Reform for Car Employes.

ST. LOUIS, April 15.—Four thousand conductors and motormen of the Union Pacific Railroad Company were notified today that frequenting saloons or racetracks would subject the offender to instant dismissal.
