State Commissioners Arrive With Plans for Exhibit and Building.

ARIZONA ASKS TO GET IN

LOW RATES FOR NORTHWEST

Special Schedule Decided Upon by O. R. & N. Railway Company.

The excursion bureau of the Lewis and Clark Exposition was advised yesterday of the issuance of a list of excursion rates by the O. R. & N. Co. The list is an They Both Announce Change of Attitude Towards Portland's Exposition, and Are Awarded

Space at Grounds.

A new attitude towards the Lewis and Clark Exposition on the part of Colorado and Arizona developed yesterday. During the forenoon the Colorado.

They Both Announce Change of Attitude to R. A. S. Co. The list is an attractive one, making unusually low rates from points throughout Oregon, Washington and Idaho. From Spokane a rate of \$10 is made and the rates from other points is on a corresponding basis. The schedule list, as submitted to C. H. McIssac, director of excursions, follows: Idaho-Wallace, \$10; Burke, \$10; Wardner, \$10; Harrison, \$10; Moscow, \$10; Lew-Corvallis. Three or four crops can be cut every year, aggregating as much as 15 tons of green forage or more an acre, or aix tons or more of cured hay.

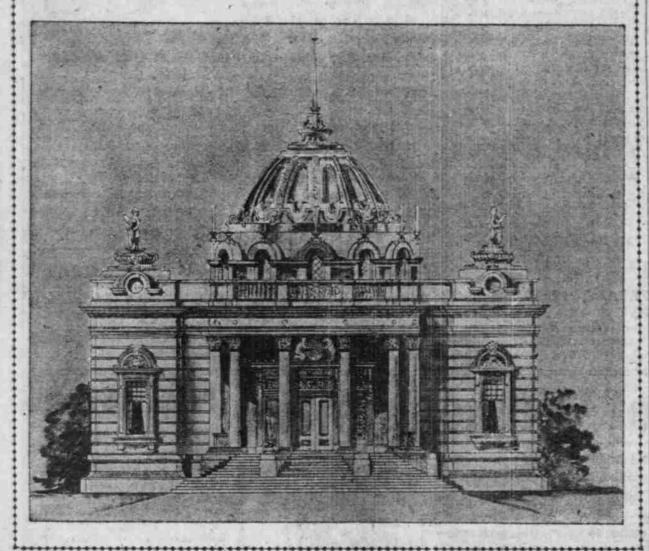

Latah, \$10; Oaksdale, \$10; Thornton, \$10; Dr. James Withycombe, director of the Station, was in the city yesterday, and said that alfalfa growing was sure to in-

ernor of Arizona, stating that the ter-ritory had changed its mind about not participating and was anxious to get in if there was any space to be had. Halnes, \$9; North Powder, \$9; Union, \$8.50;

building constructed occasioned con-siderable surprise, as it had been pre-viously announced that the state would content itself with a big mining dis-play. The building to be erected will serve for entertainment purposes and will house the agricultural exhibits

Colonel A. W. Hagle and E. H. Grubb. They come prepared for business and will remain until all the details of installation are under way and work has been started on the building. A site was selected by them in a part of what vas formerly the experimental gar-ens. All expressed themselves as highly pleased with the site.

As to the number of visitors Colo-rado would send, Commissioner Grubb said that it would reach well up into the hundreds, if not the thousands. He said the people of Colorado had a live interest in the Exposition, and believed its influence as a builder would be felt throughout the entire West.

UTAH COMMISSION ACTS.

Strong Proclamation Issued Urging Support of Portland Fair. Terse, to the point and stirring is the

peal which Governor John C. Cutler, of tah, and his State Commission have issued to the people of Utah on behalf of the Lewis and Clark Exposition. Participation is urged and Utah's need of a full and successful exhibit is set out at length. The appeal or proclamation, which has been sent to every portion of

be provided in some way or other, and that Arizona was as welcome to the Fair as if she had been among the first to come in.

The announcement of the Colorado Commissioners that they will have a building constructed occasioned concade Locks, Bridal Veil, Latour-dale, Fairview, not decided.

### London Gambles on Fair Attendance

Count Burzinoff Tells of Chance to Lay Wagers at a Fashionable English Exchange.

London is gambling on the probable attendance at the Lewis and Clark Exposition, according to Count Michael Michaelovich Barzimoff, the Russian noble who is here to represent Cau-casis at the Fair. In coming to Port-land from his Summer home in Carls-bad, Count Barzimoff made short stays in Paris and in London. He was particularly interested at seeing the Portland Fair marked on the boards of a fashlonable London hotel. As this was his destination, he made inquiries and found that he could buy pools on the probable attendance,

"One can get as high as \$5000," said the Count yesterday, in discussing the matter. "that the attendance at the Portland Exposition will exceed 1,000,000 people. As high as \$2000 can be had that the Fair will exceed in at-

tendance 1,500,000 people.

"It is a fact," he continued, "that the Fair is well known of in Europe, I heard it talked of in Paris, Carisbad and London, and on the ocean while I

was en route. Yesterday Count Barzimoff removed

which has been sent to every portion of the state, follows:

Citizens of Utah: One hundred years are Meriwether Lewis and William Clark under the direction of President Thomas Jefferson, crossed the continent, explored the Northwest and won for this Nation the Northwest and won for this Nation from the buckbone of the continent scheep prolife waters of the Pacific Ocean. An inspiring page of American history tellow the achievement, and revelling in the prosperity that followed it, the people of the Northwest have completed plans for the celebration of the centennia anniversary of the arrival of the pioneers. Proud of this achievement, and revelling in the prosperity that followed it, the people of the Northwest have completed plans for the celebration of the centennia anniversary of the arrival of the pioneers. Proud of this achievement, and revelling in the prosperity that followed it is the prosperity of the sum of \$5,000,000 has been scured for the purpose. The promise is given that the display of the resources of the West and of the Orient will be the prosperity of the followed it is the prosperity of the interest and the prosperity of the prosperity of

\$10; Endicott, \$2.50; Washtuctar, \$25; farmers lies in their sug requires a great deal of water. Said Dr. Withycombe:

"The experiment station at Corvallis has practically demonstrated that alfalfa can be successfully grown in the Willamette Valley. We have been experimenting with it for five years, and find that profitable crops can be grown on heavy clay soil, without irrigation.

"In the Spring of 1900 two acres were wn. The first season no livestock was permitted to pasture on it. To subdue weeds the field was mowed about four times during the first Summer, and the

but there was an excellent fourth crop for for the first season will be to keep stock pasture. Thus it will be noted that this off and run a mower over it occasionally to subdue weeds. crops of green forage, aggregating 35 tons an acre, besides furnishing good pasturage each Fall. To reduce this green forage

high and will yield approximately from six to eight tons of forage an acre. The clay loam of about the average character of the wheat land of the Valley. It is not artificially drained, but has a good natural drainage. From the results secured from alfalfa on this piece of land alfalfa are weeds, gophers and heavy pasin general use among officers and nobles of high military or naval rank.

Is not nearer than four feet to the nurface of the soil during the growing season.

Mr. Richard Kiger, a few miles north of terially increases the yield.

The injured man then managed to call for help, and was taken to his room in the New York House, where medical ald was given. Meyers was loading lumber on the schooner, and was buried underneath a tier. He was not seriously hurt, but suffered much from lack of attention.

The work of the college with alfalfa the many of carrot or potato as large as a small walnut, slit it and put a few crystals of the New York House, where medical ald was given. Meyers was loading lumber on the schooner, and was buried underneath a tier. He was not seriously hurt, but suffered much from lack of attention.

The work of the college with alfalfa the many of carrot or potato as large as a small walnut, slit it and put a few crystals of the poison in it and drop it into an open hole, or in their runways, and that its usually the last of the gopher.

"Green alfalfa is excellent for dairy roots so deeply that no ordinary drouth in Western Oregon will affect it. It is useless to now alfalfa on low, wet land classes of stock except the horse. Hogs without first under-draining it. In fact, will Winter fairly well on nicely cured

the plant is dormant.

We prefer the comon alfalfa (medicago satina) to other varieties, and find the Utah seed to be satisfactory. In seeding down to alfalfa the land should be thoroughly prepared. It is a good plan in old iand, if practicable, to put on it or 20 loads of barnyard manure in the Fall and plow it under to a good depth. Let the land remain fallow during the Winter, then in the Spring, when in good condition, work down very fine with the

"It is not a good plans to sow alfaifa to a cured hay basis we should subtract with any other crop, unless the soil is 60 per cent. This green forage would reprich and well suited to the growing of resent a little more than 15 tons of cured alfalfa. These so-called nurse crops are to a cured hay basis we should subtract with any other crop, unless the soil is rich and well suited to the growing of resent a little more than 15 tons of cured hay an acre in the three years' crops.

"This season we began sutting the first crop of green forage on the 20th of April, acid for growing alfalfa, and some conscious crop of green forage on the 20th of April, and at this date the alfalfa is 18 inches tain too much iron saits. Hence where high and will yield approximately from there is a suspicion that either of these conditions prevail it is wise to experiment alfalfa on this piece is utilized as a soiling on a moderately small scale before sow-crop for dairy cows, and furnishes nutritious, succellent feed from April to Notice, succellent feed from April to Notice, however, is experimenting with lime to determine the minimum amount re-

Corvaills, has a large acreage of alfaira on this class of land, and in one field of 15 acres that was seeded three years ago, the alfaifa at the present is 18 inches thigh, thick and luxuriant.

The work of the college with alfaira the method employed is to take a piece has been a good object-lesson to many

remaps it would be well to state that ordinarily where alfalfa is sown in the Valley, it is wise either to treat the seed with cutting of the proper nitroorganisms before sowing, or inoculate the ground with empregnated soil, putting on from 100 to 200 pounds an acre at the time of seeding."

Will Present Great Spectacle.

clear Spring days is precious for camera work. Your own pictorial mementos of our beautiful Fair will be one of your most cherished possessions in years when the Exposition is but a memory. Pictures taken now will show detail clearer than any other time of year. We unreservedly recommend the Anseo Camera as the best for amateurs. That is the reason why we handle it. It's the lightest, simplest, with all of the practical up-to-date fit-

A carload of stage material has also been shipped from New York to Portland, which will shortly be followed by several

#### RAILWAY CONDUCTORS.

Convention in Portland Will Bring Many Delegates Here.

The biennial convention of the Order of Railway Conductors to be held in this city, beginning May 9, will bring to Portland about 1400 or 1500 persons. There will be about 1003 delegates and alternates from the various divisions of the Order of Railway Conductors throughout the United States, Mexico and Canada, with their friends and families and about 400 delegates from the various lodges of the Ladies' Auxiliary Society, which will also convene here on the same date.

Conductor E. B. Coman, of the O. R.

& N. Co., has spent the past two weeks in making the preliminary arrangements for receiving and accommodat ing the delegates and their friends, Headquarters have been established at 233 Washington street, which are to serve as a writing room and waitingroom for the ladies, as well as a general meeting place,

Several excursions to points of interest in the vicinity of Portland have been arranged under the auspices of

The jurisprudence committee will meet May 7 to go over the work to come before the convention. It is understood that there are with the general secretary in Minneapolis proposals for sev-eral amendments to the laws and constitution of the order. These will be taken up and acted upon at the con-

It is generally believed among the members that at this session the time for calling the general convention will be changed from once in two years to once in three years. The order is growing to such enormous proportions that this change has been thought advisable. Changes will also probably be made in various details of the depart-ment governing the benefits. The payroll will be issued through ome one of the Portland banks. Some-

thing over \$50,000 will be insued to the delegates, each delegate receiving \$5 a day while attending the various sions of the convention and while en route both ways. The meetings will be held in the ou-

### Victimized by Old Game.

J. H. Duggan, employed in the foundry aiding at 183 North Eleventh street, called at police headquarters last night and told Captain Moore a tale about being victimsed by a "big mit" man, who sold him a 'solid gold" watch, with ever so many lewels, warranted to keep perfect time for a century or more, for \$9. It was a

ditorium of the Marquam Theater. The watch worth possibly a small fraction of a cent, as junk. The crook told a hardluck tale, and said he needed enough money to purchase a ticket to his home and family in a distant city.
