Watches and Binoculars Are Freely Bestowed Upon Foreign Sallors Who Rescue American

Seamen.

WASHINGTON, May 6 .- (Special Correspondence.)-Three gold watches and chains and the same number of binocular glasses and gold medals were this week presented, in the name of President Rosevelt, to the masters, mates and mamen of foreign steamblips in recognition of their heroic services in resculng im-periled American seamen and passengers. The incident served to draw attention to The fact that, despite its plain, demo-cratic principle, the United States Gov-erament is gradually drifting into the custom of conferring gifts, tostimoniais and valuable trinkets on foreign subjects and members of the royal families of Europa

Europe. President Roosevelt has been particu-larly generous in the distribution of high favors, in the ghape of books, rifles and silverware, among the dignitaries of for-eign governments. In fact, he has done more in the way of extending these sub-more in the way of extending these substantial courtesies than any other occu-pant of the White House for a great many years. The President showed his appreciation of the services rendered this appreciation of the services rendered this Government by two powerful Morocco shelks in securing the release of Mr. Perdicaris from the clutches of the pl-rate, Raisuli, Upon the return of the American citizen from his long captivity the President directed that two new Springfield rifles be made at the Govern-ment arsenal and presented to the friendment arsenal and presented to the friend-ly Moroccan chieftains. The weapons were made in the were made in the very best style of the Government factory, being embellished with highly ornate decorations. They were forwarded to Mintister Gummere at Alglers, with instructions that they be handed to the two shelks with the com-pliments of the President of the United States. Minister Gummere had difficulty In locating the persons for whom the rifles were intended, and after keeping the gifts in his possession for several months finally notified the State Department about two weeks ago that he had delivered them.

Gift for Arabian Bridegroom.

A royal wedding took place a short time since at Maskat, Arabia, when the Crown Prince of that Sultanry was joined in marriage, with appropriate Eastern ceremies, to a dusky maiden of an adjoining province. Archibaid Mackirdy, the United States Consul at Maskat, in-formed the State Department that the Government must send a wedding gift of some kind, if it did not desire mortally to offend the Crown Prince as well as the King of Maskat. He declared that all the other foreign Consuls at that place had received places of sliver, jewelry or other presents for the bride, and that he other presents for the bride, and that he would be non persona grata if he did not fall in line. Thereupon some one in the State Department went out and pur-chansed a handsome piece of silverware, which was bundled up and sent to Mas-kat, with the compliments and best wishes of the United States Government. This was described as a "corremontal This was described as a "ceremonial

ciff." When Consul Skinner went on his mem-orable journey to Abyssinia to negotiate a commercial treaty with King Menelik, he was loaded down with gifts from the President of the United States. Among them was a big photograph of Theodore Roosevelt, some rifles and several pieces of allowards. The King antenant the of sliverware. The King returned the compliment in kind, sending to President Rooteveit a few useful animals, including a couple of lions, a pair of ostriches and

CURED BY, CUTICURA

After Doctors and Hospitals Pronounced Case Incurable-Prayed for Death-Body a Mass of Discase, Skin Cracked, Nails Fell Off, Hair Dead and Lifeless-Blessed Relief from First Application of Cuticura-Cured in Six Weeks.

I have been afflicted for twenty years with an obstinate skin disease, called by some M. Ds. Psoriasis, and others Leprosy, commencing on my scalp; and in spite of all I could do, with the help of the most skillful doctors, it slowly but surely extended until a year ago this Winter it covered my entire person in the form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there would be nearly a dustpanful of scales taken from the sheet on my bed, some of them half as large as the envelope containing this letter. In the latter part of Winter my skin commenced eracking open. I tried everything, almost, that could be thought of, without any relief. The 12th of June I started West, in hopes I could reach the Hot I reached Detroit and was so low I thought I should have to Springs. go to the hospital, but finally got as far as Lansing, Mich., where I had a sister living. One Dr. --- treated me about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, limbs; feet badly swollen; toe-nails came off; finger-nails dead and hard as a bone, hair dead, dry, and lifeless as old straw. O my God! how I did suffer.

My sister, Mrs. E. H. Davis, had a small part of a box of Cutieura in the house. She wouldn't give up; said, "We will try Cuticura." Some was applied on one hand and arm. Eureka! there was relief; stopped the terrible burning sensation from the word go. They immediately got Cuticura Resolvent, Ointment and Soap. I commenced by taking one tablespoonful of Cuticura Resolvent three times a day after meals; had a bath once a day, water about blood heat; used Cutieura Soap freely; applied Cutieura Ointment morning and evening. Result: returned to my home in just six weeks from the time I left, and my skin as smooth as this sheet of pape-

Cure Permanent, March 20, **'05**

The above testimonial was given us in 1880, twenty-five years ago, and is published at this time to show that the cure was permanent, as Mr. Carpenter himself states in the following letter, written March 20, 1905: "1 have never suffered with the disease since. The Cuticura remedies should come to the knowledge of everyone troubled with skin diseases. They have ne merit. If my own case had been the only one it would be different, but several cases have come to my knowledge just as wonderful as my own, I am now in my seventy-fourth year and in pretty good health. (Signed), HIRAM E. CARPENTER, Henderson, N. Y., March 20, 1905." The above is only one of many marvelous cures made by the Cuticura remedies. In this case, the cure not only meant escape from terrible suffering and freedom from disfiguration, but undoubtedly prolonged his life, as it is not probable that he could have lived in the condition he was before cured by Cuticura, after trying all known remedies without any benefit, and after having been pronounced incurable by Doctors and Hospitals.

Samoan Chief Well Rewarded.

The Samoan chief who alded in the rescue of the American sailors of the ill-fated Trenton, Nipsic and Vandalla, when those ships were wrecked by the hurricane at Apia, was rewarded in a slight degree by this dovernment. The mechanics of the Washington Navy Yard were ordered to construct the finest cut-ter that they could produce. It was a veritable beauty when finished, and in it were placed several rifles and spears. These were all sent to the brave Samoan. who lost a number of boats and one or two men in forming human life lines into the water to catch the drowning Amer-

Special Fund for Foreign Sallors.

For a great many years-nobody seems to know just how long-it has been the custom to award gold watches and other gifts to foreign sailors who to the aid of imperiled vessels. flying the American flag. Two or three dozen watches, and as many binoculars and gold medals are given away in this manner every year. They are purchased with money taken from the fund pro-vided by Congress for the "return of American seamen wrecked abroad." It frequently bappens that news of a gal-lant rescue of an endangered American steamer will come to the ears of a United States Consul in a far-off port. Sometimes the facts are placed in his hands by one of the persons to whom succor has been given. He forwards the information to the State Department, after verifying II, and suggests that appropriate action be taken. This means that a watch or medal ought to be bestowed. The officers of the State Department pass on the evidence, and if It appears that heroism has been dis-played the chief clerk is directed to buy a gold watch, a binocular glass or a gold medal. Watches are given to cap-tains of foreign steamers, the glasses go to first and second mates, and seamen get medals.

Home Industry Patronized.

These are handsome trinkets, each of the very best make. Up to the last five or six years it was the custom to give Swiss watches and bluoculars made in Paris. Captain Michael, the chief clerk of the State Department, changed this custom and patronizes home establishments. The watches cost about \$125 ica, and are elaborately engraved ce of each bears an engraving of the inited States coat of arms, and on the back is this inscription: "Presented by the President of the United States to in recognition of his heroic services in effecting the rescue of "Attached to the watch is a heavy link cosin, with a locket charm on the end on the end.

Mrs. Donaid McLean, of New Tork, the new president of the Daughters of the American Revolution, probably has made more speeches on the subject of patriot-ism than any living woman.
