DEATH BY BULLETJoseph Cadoza, Accused of
Embezzlement, Could Not
Face a Trial.

PURSER ON CALIFORNIA

Balliff Calls His Name in Court
While He Sits in His Home
With Life-Blood Trick-
ling Away.

SAN FRANCISCO, May 6.—(Special.)—Noble Joseph S. Cadoza's name was being read in the courtroom this morning in answer to a charge of having embezzled money from the Pacific Coast Steamship Company, his body was on its way to the morgue. The shame of being stamped as a criminal was too great for the unfortunate man and he ended his troubles by putting a bullet through his heart at his home, 134 Page street. Two letters found upon the body explained the reason for the suicide.

Cadoza was the purser of the steamer State of California and had been caught stealing from his employers. His trial was being delayed in court in the hope that the unfortunate man might make a confession which would implicate others. The court proceedings went on today. The court had no knowledge of the suicide.

"Joseph S. Cadoza, embezzlement," read the clerk of the court. There was no answer and after a lapse of some seconds Judge Cabanis looked up from his work.

"Joseph Cadoza," he said. "Is Joseph Cadoza in the courtroom?"

"Balliff, call Joseph Cadoza in the hall."

The balliff immediately stepped out into the hall and soon his deep voice was heard in the corridor. It was carried back into the courtroom, but there was no answer to the summons.

"Joseph Cadoza cannot be found," reported the balliff.

Judge Cabanis was irritated.

"We will put his case last on the calendar, and if he does not show up we will forfeit his bail and issue a bench warrant for his arrest," he said.

The last case on the calendar was being hurried through, and Judge Cabanis was about to leave the bench when a big man hurried into the courtroom. He was the purser of the Pacific Coast Steamship Company. The detective walked hurriedly up to the bar of justice.

"I have to report, Your Honor, in the case of Joseph Cadoza, purser of the State of California, that the accused has just shot himself. I have just come from his home at 134 Page street, and I was directed to hurry and inform the court of the fact in order that the bail of \$500 which the deceased gave to insure his appearance in court may not be forfeited."

Judge Cabanis ordered the case put over until Monday, in order that he might have official information relating to the death of Cadoza. The purser had been accused of stealing small amounts of money from his employers, and the steamship officials had delayed his case frequently in the hope that the accused man would make a confession which would implicate others.

Joseph Cadoza was seated in his front room and his wife and Mrs. Mary Ford, a friend, were in the rear of the Cadoza home, at 134 Page street. The two women left the room and informed the court of the fact in order that the bail of \$500 which the deceased gave to insure his appearance in court may not be forfeited.

The woman and Dow came here together a month ago from Los Angeles, Gilbert, who is from Santa Monica, became infatuated with the woman. Dow today entered the apartment where the

couple were lodged, drew a revolver and shot both Gilbert and the woman and then turned the weapon on himself, the bullet piercing his chest.

The woman is still alive, but unconscious and in convulsions. Dow has not recovered consciousness. Gilbert is conscious and has made a deposition, but none of them is expected to live.

MAJOR SAYS HE CAN PAY

Honeymoon Will Not Further Be
Disturbed by Creditors.

SAN FRANCISCO, May 6.—(Special.)—Major Lynch-Blosse, whose financial difficulties at the Palace Hotel and elsewhere have caused him some worry and newspaper notoriety during the past several weeks, is announcing to his creditors that all his obligations will be settled within a day or two, after which he expects the even harmony of his honeymoon will not again be troubled by so vulgar a thing as money matters.

Mrs. Germain, mother of the English army officer's young bride, arrived here from Chicago a few weeks ago, after the Major had been locked out of his rooms at the Palace Hotel, and paid her daughter's bills. Major Lynch-Blosse is now in receipt of the glad tidings that financial relief is about to reach him from the estate of a relative who died in England and made him one of his heirs.

Major Lynch-Blosse and his young wife are now living at Belvedere. The Major is devoting his energies to one or two matters that he hopes will prove profitable. Among other things, he is interested in a project to remove the Chinese quarter further down the peninsula.

SAN FRANCISCO, May 6.—(Special.)—The final tryouts for the Lewis and Clark Exposition games took place this afternoon on the University of California track at Berkeley. The winners of today's events together with the winners of last year's St. Louis team will represent California in the Northern games.

Good records were made in today's contest, one Coast mark being broken and two tied. Parsons of the University of Southern California at Los Angeles in the 100 and 200-yard dashes surprised everybody by defeating Snediger in record time.

He won the short distance in 10 flat, winning by inches. In the latter race he tied Parsons, of the University of Washington, record of 22 1-5 seconds, winning by half a foot. The race by Parsons, Pierson and Snediger is now being watched for with intense interest. In the broad jump, Snediger distanced all competitors with a record jump of 23 feet 8 inches.

This jump places him foremost among college jumpers. Norman Dole won the pole vault at a height of 11 feet 9 inches. He took three attempts at 12 feet 3 inches, but was unsuccessful. Channing Hall took the high jump at 6 feet, but the raw day prevented him from trying to break his own record of 6 feet 2 1-2 inches. Glarner of the Vampire, Club of San Francisco won the mile by 20 yards in the good time of 4 minutes 15 1-2 seconds.

The principal men who will, as a result of the two field days, represent California at Portland this summer, are Snediger, and Parsons in the sprints; Miller, the crack Stanford man; Murietta, Meala and Keyes in the runs; Powell, Horton and McFarland in the hurdles; Sperry, Neighbor and Bell in the broad jump; Hall, a young High School phenomenon, and Maperstadt in the high jump; Dole, the Portland star, in the pole vault; Plaw, the world-beater, Sperry and Hyde in the weights.

SMEILER MUST SHOW CAUSE

Injunction Asked by Farmers of Deer
Lodge Valley.

HELENA, Mont., May 6.—Judge W. H. Hunt in United States Circuit Court today issued an order directed to the Anaconda and Washoe Companies to show cause why a preliminary injunction should not issue against the operation of the Washoe smelter at Anaconda, the largest copper smelter in the world. The order was issued upon the application of Fred J. Blles, of Deer Lodge, Idaho, who owns land in the adjacent Deer Lodge Valley, and many other neighboring farmers, who alleged their property has been deteriorated in value by smoke and fumes from the big smelting plant.

Blles' petition for the order alleges that the property to the value of \$2,000,000 has been damaged. The order to show cause is made returnable June 1 in Helena.

There are 15 charter-members of the new chapter, and among them is Carl B. Wintler, of Vancouver, Wash. Wintler is quite prominent in college literary circles and is a senior in the law department.

Separate Buildings Will Be Used in
the Education of Chinese and
Japanese Scholars of
the Metropolis.

SAN FRANCISCO, May 6.—(Special.)—The Board of Education held a special meeting today and took a determined stand against the admission of Chinese and Japanese pupils to schools where white children are being educated.

The board unanimously resolved that it is determined in its efforts to effect the establishment of separate schools for Chinese and Japanese pupils, "not only for the purpose of relieving the congestion at present prevailing in our schools, but also for the higher end that our children should not be placed in any position where their youthful impressions may be affected by association with pupils of the Mongolian race."

The resolution was adopted as a result of a petition filed by the Methodist ministers of San Francisco, asking the board not to exclude Japanese pupils from the schools and protesting against establishment of separate schools for their education.

WATCH BELATED SHIPS.

Insurance Men Increase Rate on the
Ship Glenburn.

SAN FRANCISCO, May 6.—(Special.)—The British ship Glenburn is now out 192 days from this port for Liverpool, and the feeling of uneasiness is so great that her rate of reinsurance has been going up steadily in the last week. It has reached the 60 per cent mark this morning.

The Glenburn is commanded by Captain Johnston, and she took away from this port a general cargo which consisted principally of California products, and is valued at nearly \$300,000. The British ship Alcousa is another one of the overdue whose present voyage is watched with more than ordinary interest. The vessel has been in this port several times. She is now bound from Peru for Antwerp, and is out 142 days. Her rate of reinsurance is 75 per cent.

The overdue list was augmented today by two vessels. They are the British ship Fax, 130 days from Junin for Ghent, and the French bark Bretagne, 128 days from Piqua for Dunkirk. They were both placed in the 10 per cent class.

HEN NEARLY CAUSES DEATH
Spokane Woman Tries to Kill Herself
When Husband Scolds.

SPOKANE, Wash., May 6.—(Special.)—A chicken that fell in a well was the primary cause which induced Mrs. David Baker, living at East Mill Fifth avenue, into an attempt to take her life. A revolver, and later laudanum, were the instruments used.

When the chicken fell in the well, Mrs. Baker telephoned her husband to come home and get it out. When Baker, an expressman, reached home he started to abuse his wife, according to statements of neighbors. After they had wrangled for a time, Mrs. Baker went into the house and got a revolver. Before she could turn it on herself her husband wrested it away. She did succeed in firing one shot, but did no damage.

The chicken fell into the house and returned to the back porch with a bottle of laudanum in her hand. A neighbor succeeded in getting the almost empty bottle from the woman. She will recover.

SAN FRANCISCO, May 6.—(Special.)—E. J. Smith, the defaulting Tax Collector, has stored his stolen money in exceedingly safe keeping, according to the Pinkerton detectives, who are using every endeavor to extract the secret of his hiding-place. The \$20 which was recovered from Smith when he was arrested is all of the missing coin that the detectives have yet seen, though they express a hope that the bulk of the last embezzlement of the taxes of the Southern Pacific Company would be returned before Smith is brought to trial.

It is believed that Leona Brooks may know more of the missing money than she cares to tell at present, and it is certain that there is still a mutual understanding between herself and Smith. The woman started from St. Louis at 9:30 o'clock Thursday evening on the Rock Island, en route for San Francisco, and she should be in this city Monday morning at 9 o'clock. She will be watched throughout the entire journey, and if she suddenly changes her mind in regard to the San Francisco trip, the detectives will be informed of it at once and she will be followed.

Superintendent Reimer, of the local Pinkerton agency, said this morning: "Leona Brooks is not coming to San Francisco without a reason, and though we do not know what that reason is yet, we know that there is one. We are sure that there is an understanding between the two, and place no faith in Smith's action in apparently throwing off his influence. It is probably only a play to create a good impression and blind the prosecution in its search for the money. Smith alleges he used the money he got from the Southern Pacific Company to make good back shortages in his office, but there is no evidence to this effect, except his word. He evidently saved enough to get to St. Louis, and it is natural not to suppose he is so short-sighted as to leave himself stranded there."

"We cannot keep the Brooks woman under arrest, for technically she is not involved in the crime at all, but every move she makes will be watched, and very closely, too. Her trip to this city ought to explain a good deal. Of course there are other charges on which Smith could be tried, which would make it still more unpleasant for him, but the prosecution will probably have its hands full with the matter of the defalcation."

BIG PLAYHOUSE FOR BAY CITY

Sharon Estate Would Build Near the
Palace Hotel.

SAN FRANCISCO, May 6.—(Special.)—San Francisco may have a new and palatial playhouse within a year or so if plans now under consideration by the directors of the Sharon estate are realized. The Sharon estate directors are anxious to see a first-class, modern and commodious theater built in close proximity to the Palace, if not within the walls of the hotel. The idea of locating the theater within the hotel, so far as can be learned, is not being considered; the Sharon estate people think almost equally advantageous location can be found in the immediate neighborhood.

As to the site for the proposed theater, nothing is decided, although the Sharon estate directors say that several good situations are available for the purpose, should the erection of the theater be decided upon. The estate owns a lot of suitable site back of the Palace Hotel on Annie street, and it is thought this might prove a desirable location, if a suitable entrance could be obtained through the Palace Hotel with a viaduct or tunnel.

The Army building on New Montgomery street, adjoining the Palace, which also belongs to the Sharon estate, is also being mentioned as a
