ST. PETERSBURG, May 13 .- Tomorrow the Russian May day, is awaited with nervousness both by the public and the authorities. The revolutionary agitators would like to make it another "red Sun-day" in every city of the empire, and everywhere are urging workmen to celebrate the fete with anti-government dem.

istrations and to resist with arms, if the olice and troops interfere. The agitators are covertly aiding some radicals who, not having the courage to come out into the open, are trying to pave the way to set up the cry of shooting down of innocents in the event of bloodshed, by warning the authorities that the meetings are intended to be pacific; but a perusal of the countless proclamations with which St. Petersburg is flooded proves conclusively that it is really intended to precipitate collisions. Many workmen are said to be armed with bombs and revol-vers, and a large stock of pistols of an automatic repeating type, amuggled in for the revolutionists, is being offered for sale to the initiated at cost price. Fortunately saner liberals, and even those of radical views, realiging the futility of bloodshed. nseling the workmen not to jeopar. dige their lives uselessly. The police have issued systematic warnings.

Determined to Demonstrate.

Nevertheless, disdaining the advice of well-wishers and defying the warnings of the police, the Social Democrats and So-cial Revolutionists have caused big meetings to be held at Smolensk field on Vassill Island; at the Preobrajensk Cemetery, on the Schusselberg Chaussee, where some of the victims of January Z are ourled; at the Petrovsky Park, in the Viborg quarter; at several places in the Putiloff district and at other industrial

Host of Troops on Hand.

Elaborate precautions have been taken. The garrison of the city was further rein-forced during the week, and a large de-tachment of Don Cossacks arrived to-night. They stared open-eyed at their first view of the Kazan Cathedrat and other sights of the big city, as they rode to their quarters. Twenty-five thousand Cossacks were stationed tonight in various quarters of the city, principally in the outskirts, and all of the guard regiments are under arms, but specific written or-ders issued by Prince Vissilichikoff, Grand Duke Viadimir's aid, who will be in active commund, are that under no circum-stances shall orders to fire be given to the troops unless they are actually attacked. Special orders have also been given to the Ossacks, who with the gendarmerie will be used to disperse the crowds, to not yen draw their cutlasses, unless in the event of a Cossack being killed or wound-ed, but to employ their whips freely, if necessary, to scatter demonstrators. crowds, if not organized for demonstration, will be permitted to as-

ALL ARE FOR A PARLIAMENT

Moderate Liberals Overruled in Zemstvo Congress.

ST. PETERSBURG, May 14.-(1:55 A. M.) -Last week witnessed a notable victory for advocates of a straight Parliamentary for advocates of a straight rarmamentary regime. M. Shipoff's compromise programme for a representative body with only a consultative voice in the government, which was at first received with much applause from the moderate Liberals, was not only rejected by the second Zemstvo Congress, which met at Moscow, but seems to be losing instead of winning supporters.

The news from Moscow is that sentiment is now practically crystallized against any compromise. Arbitrariness, it is contended, is the root of all the ills of Russia's body politic, and as long as all power remains in the hands of the soy ereign no guarantees for the future car exist. The hig merchant class of Mos-cow, which wields great influence, is being gradually won over to declaring that the Russian people should enjoy as much liberty as the Germans do; and news from other quarters shows that Zemstvos and Doumas, as well as professional bodies are planting their banners on this ad-vanced ground. The Moscow Douma sent a deputation to Minister of the Interior Bouligan with a strong set of resolutions in favor of a Parliamentary regime under the motto: the motto:
"Liberty, order, instruction and eco-

nomic welfare."

In Moscow, as well as elsewhere, there are nightly assemblages in private houses, where such men as Professor Molukoff, who is well known in America, lecture on the science of government. Professor Kovalevsky, the world-famous social or-ganizer, in a public interview ridiculed ganizer, in a public interview ridicaled Shipoff's scheme as utterly impracticable and unworkable as a theory of government. "His idea of a Zemsky Souviet." said Professor Kovalevsky, "is in imitation of the Prussian plan, which resulted in division in 1858. To allow representatives of the people their opinion, but reserve power to the sovereign, is impossible. To convoke the people's representatives to simply express their wishes is not ble. To convoke the people's representa-tives to simply express their wishes is not ular representation, and would only in opposition and not be of aid to the ernment. The inevitable result would be either the capitulation of the government to the majority or a revolution.

CROKER'S DEATH HIS OWN FAULT

Whisky After Opium Smoking Proved Fatal to His Weak Heart.

HIS MARRIAGE WAS NEAR

Kansas Officials Suspect Drugs and Robbery, but Kansas City Police Disagree With Them--Was

Traveling for Health.

KANSAS CITY, May 13 .- (Special.)-In view of today's developments, there seems little doubt that the Jeath of H. V. Croker, the young son of Richard Croker, tae New York politician and ex-Tammany leader, was due to over-indulgence in liquor and opium, super-induced by weak heart. For the past 15 hours Kansus City detectives have been scouring the town for a clew that would indicate foul play. The investigation was as thorough as could be yet nothing has been produced to indicate that the young man received mistreatment, except with his own

Croker's assertion while here that he carried but a small amount of money, depending mainly upon his checkbook, would indicate that robbery has not entered into the case. So far as can be learned, Croker made no effort to raise money in Kansas City. Toese facts, together with a statement by Richard Croker, Jr., telegraphed from New York today, seem to indicate that no mystery surrounds the death. The gist of Mr. Croker's statement is that his brother has suffered from heart trouble for a year. His departure for a vacation in Oklahoma, where he intended visiting had been advised by his physician, who thought a change of air would be bene-ficial. The only conflicting stories run down by the police are as to the num-ber of "pills" smoked by young Croket in the opium joint.

F. Wayne, manager of a negro club-room, who saw Croker as he left the opium joint, believes that opium was not wholly responsible for his condi-tion, but for want of corrobative evidence the police are inclined to pay little attention to this report.

Stories of Negro and Chinese. Charles Wilson, the negro porter at the Coates House, who piloted Croker to the dope Joint, and the two Chinamen, who ran the place are in jall. The stories do not conflict except that Wilson says Croker was not drunk, while

the Chinamen insist that he was. It seems that Croker came to Kan-sas City Thursday morning. He checked his umbrella and raincoat at the Coates House late in the afternoon and talked the bartender about the races. He gave the bartender a "tip" on the races, and from that time until 6 P. M. no one at the house appears to have seen him. When he returned, he proposed to the negro that they go somewhere, and he went to the "hop joint" over the negro club at 122 West Fifth street, and spent an hour smoking oplum. The negro says he was not drunk, but had been drinking when they reached the joint. The Chinamen insist that the white man was drunk when he came into the place

with the negro. other Chinaman, Ah Gee, told the same story, but with prompting in the Chinese language, which Haves finally stopped, as Ah Gee did not understand English. "He smokee like old hop English, "He smokee like old hop fiend," said An Lee, speaking of Croker, and the chief told him he did not think he had kept proper account of the number of pills smoked.

Drink After Opium Dangerous.

At all events, Croker went to sleep in the Chinamen's place and An Lee woke him up and made him go to the negro porter, who was playing pool in another part of the building. The negro went to Cronin's saloon with Croker and drank beer with him and Jerry

Sullivan, the day bartender at Cronin's The "hop fiends" in the North End are very careful not to drink after smoking, although Chinamen will drink a little toa, but water or beer is sure to affect the heart action. Ah Lee says drunken men sometimes smoke hop to regard drinking after such a smoke as safe. The facts brought out at the in vestigation indicate that the conclu sion of Chief Hayes that Croker caused als own death by the liquor and optum

The negro says when they reached the depot Croker gave him a \$20 bill and he paid the hack driver, who returned \$19 in change. That was the money the negro carried in his hands when he went through the depot with Croker, and counted out to him on the train. Wilson says Croker gave him back a dollar as a tip.

Chief Believes Negro.

"I believe the negro is telling the truth," said Chief Hayes, "My theory is that Croker was not drugged, but that his death was the result of opium and roborated by that of the officer, James Hightower, who found Croker and the negro together in the negro club and questioned them. The patrolman entered the place to obtain evidence against the crap-shooters. The negro and Croker were leaving the place at the time and were seen in the depot. There is no evi-dence that Croker had money besides that displayed in Cronin's saloon and the small change he had in his pocket." Richard Croker, Jr., is expected to arrive at Newton Sunday night. The body

be held until his arrival. The two Chinamen and the negro porter are in fail, but they are not charged with any offense in connection with Croker's death. The Chinamen will be prosecuted for keeping an opium joint and Wilson's testimony will be used against them. The Calnamen say Croker had smoked oplum before.

BELIEVE CROKER DRUGGED.

Newton Officials Detail Evidence of Robbery and Poison.

NEWTON, Kan., May 13.—The Coro-ner's jury in the case of Herbert V. Croker brought in the following verdict at 10:30 today: dict at 10:30 today:

We find upon our oaths that said Herbert V. Croker came to his death on May 12, 186, on Santa Fe train No. 17, while between Kansas City, Mo., and Newton. Kan., from the effects of narcotic poisoning, taken into his system at Kansas City, Mo., before boarding said train, by means and manner unknown to this jury.

that Herbert Croker was drugged and robbed at Kansas City. The clothing he wore evidently was not his own, being of cheap material and badly soiled. The hat that he wore had on it initials other than his own and bore the trademark of a Minneapolis, Minn., firm. His own clothing evidently had been stolen and other garments given him. Physicians say that from the symptoms Croker might have died from oplum poisoning, though they are not sure that this was the drug used. They agree, however, with the Coroner, that the man had been drugged and that this caused his death. WAS ENGAGED TO BE MARRIED Croker's Fiancee Says Wedding Was Planned for Oklahoma. NEW YORK, May 13.-Miss Toinette Horton, of Horton, N. Y., from whom a letter is awaiting Herbert Croker at "191" ranch, in Oklahoma, said today that she was engaged to young Croker and that they had planned to be mar-ried in Oklahoma in two weeks. As

soon as the young man could make ar-rangements for the marriage after ar-riving at the ranch. Miss Horton said she and her mother had planned to go Miss Horton added that she did not believe that Mrs. Croker, the young man's mother, approved of the engage-ment, but she did not think Mr. Croker had started for Oklahoma as part of plan to prevent the marriage.

Beef - Packers Complain of Prosecution Methods.

TREATED LIKE CRIMINALS

Representatives of Big Four Going to Washington to Tell How Jury and Secret-Service Men Abuse Them.

Representatives of four large packing companies have gone to Washington with the intention of making a protest on Monday next to President Rosesvelt against the manner in which they declare the investigation into the beef industry is being conducted before the Federal grand jury. The protest, it is said, will be made along the following lines:

That packing company witnesses have been browbeaten before the jury and compelled to tell what they know; that questionable detective methods have been used by the secret service men to secure information for the Government.

That the wives of the packers have been called before the grand jury to testify against their husbands, who are out of the city, and they have been forced to remain constantly in Chicago for no apparent reason.

That the private mail of some of the packers has fallen into the hands of the Government when the mail had nothing to do with the beef investigation.

That the general treatment of the packers in Chicago by the local Federal authorities has been like that accorded by the police toward a common criminal. It is said that the packers have already arranged for a meeting with the President.
