PREPARES FOR DEFENSE

Ministers Ask Large Sums to Protect Coast, Believing Neutrality Protests Were Pretexts for Attack When Necessary.

PARIS. May 12.—The popular outburst at Tokio against France leads to settled convictions here that Japan has territorial ambitions in Indo-China which the French must sooner or later defend. Although the Japanese officials disclaim any such intentions, this belief has taken firm hold of the French public and press, which unites in caling on the government to adopt energetic measures strengthening the defense of Indo-China and prepare for the contest which, it is asserted, will be inevitable when Japan's hands are freed from the Russian war.

The government trouble is imminent, share the public belief that it is essential to make speedy preparation for the defense of Indo-China, and accordingly fense of Indo-China, and accordingly large special credits are being asked for, the Ministers of Marine and War are considering large augmentations of the forces in Indo-China and Admiral Fournier is planning a chain of coast defenses similar to those which have encircled France. The Admiral and representatives of the army of the colonies will probably pro-Indo-China shortly to personally

Inspect the requirements.

This sentiment has been slowly m turing into conviction. The first suscions were aroused some months ago the publication of a detailed plan saign, said to have been drawn up in the Japanese War Office for the invasion of Indo-China. The denials which followed the publication of the plans have failed to change the popu-

plans have failed to change the popular belief, that Indo-China is menaced, and Foreign Minister Deleasse and other Ministers have advised Parliament to give suitable attention to the requests of the colony.

The recent agitation at Tokio against Admiral Rojestvensky's using the waters of Indo-China has given new gravity to the question, Such conservative papers as the Temps and Figure say that Japan's action clearly Figure say that Japan's action clearly discloses ulterior motives against the French colonies, while radical news-papers, like the Patric, give sensational prominence to statements alleg-ing that Japan is able to land troops above Hanoi, capital of Tonguin, sweep southward with practically no opposition, and simultaneously occupy Kamranh Bay and other unprotected coast points. This doubtless is exaggerated, but it contributes to establish the belief that energetic measures are necessary to place the French colo-nies in a complete state of defense.

OCEAN RACE.

Fleet Sails Tuesday From New York Buy Land for \$85,000 and State to England for Kaiser Wilhelm Cup.

NEW YORK, May 11.-Captain Charles Barr decided tonight that he would sall the three-masted schooner Atlantic in the trans-Atlantic race for the cup offered by the Emperor of Germany. He was in a quandary for some time whether he would do so, because he wished to be in New York early in June to assume command of the 79-footer Mineols.

The Atlantic remained in South Brook-lyn today to receive her finishing touches. Her trial run will be held tomorrow. At no time since he took charge of the Atlantic has Captain Barr had a chance to test her sailing qualities. She has spent the entire period under his command in grooming for the race, and has had to make many alterations. Barr knows less about the boat than any boat that he has ever commanded. It is dealed there is any open rupture between the owner of the Atlantic and Captain Barr. The latter is disappointed that he has not been able to put the boat to a thorough test. As the race is to start Tuesday afternoon it is unlikely that the Atlantic will be able to have another trial trip.

The report that the Atlantic might be handicapped by the loss of Captain Barr made the odds against her jump to 5 and 6 to 1 today. Previously the odds were 4 to 1. The Atlantic was lowered from the Morse drydock today. Lord Brassey's Sunbeam, which had occupied the dock with the Atlantic, was put overboard at the same time. The Sunbeam was later towed to the New York Yacht Club anthe same time. The Sunbeam was later towed to the New York Yacht Club an-cherage, off East Twenty-sixth street, but the Atlantic remained at South Brooklyn to finish the work of taking on stores.
