DAINTY FLORAL ODORS IN JUNE PERFUMERY

Fashion, inclination and good taste all dictate that Summer Perfumes shall be light and delicate, in contrast with the heavier fragrances so unsuitable in cooler weather.

Two new Summer odors that 'bid fair to be favorites this season are "Wild Flowers of Mood" and "Marcella's Visit.""

For June weddings the most suitable perfumes will be the ever-popular "Valley Lily" and "O-ar-d Oriental Bouquet.

The leading lines of perfumes carried in this line of Paris are to be found in our assortment of imported fragrance. There are Bodger & Galley's, Finnauld's, Huskjaht's, Marzelle's, LeGrand's, Vilet's, Guerlain's and Piver's Perfumes.

Among the domestic lines we carry are Palmer's, Vallance's, Alfred Wright's, Thos. Reckelsker's, Adolph Spichlers and Lumbard's.

Each of the lines named above comprises from 8 to 25 odors, there being an equal shelf over 75 different perfumes of just the lines mentioned above.

With a stock of this proportion we are in a position to satisfy the daintiest whimsies of Fashion's votaries.

PRICES—Cost is one of the least considerations when the obtaining of a lasting, reliable odor is the object. Some of our daintiest perfumes are so lasting that a handkerchief sprayed with their delicate essence will pass through the laundry and still retain enough of the delightful fragrance to be detected after the return. Ingredients which admit of this degree of excellence are costly, but we have found that the finer qualities are preferred by our fair patrons, as indicated by the constantly increasing demand for the better lines of perfumes.

BOUNTIFUL FEATURES—at only from 15c to 1.248 as seen at:
