"I cannot thank you enough for your generous distribution of the Faraifal brochure," said Mr. Innes to Mr. Ellers recently. "The synopsis of the opera and explanation of the tone pictures is the most accurate and complete of any work of the size I have seen. I value the copy I secured highly, and shall add it to my collection of Parsifal literature." This brochure was compiled by the Ac-

dian Company, of New York, manufacturers of the Metrostyle Pianola, Pianola Piano and Acolian Orchestrelle, for all three of which instruments the music of the opera Pareifal can be procured, with markings and annotations which make the playing and understanding of the mu-sic both easy and simple.

The more thoroughly one is acquainted,

with the plot of this wonderful religious music drama, the more fully can they enjoy the music. The Parsdfal concert is to be repeated by Mr. Junes at the Fair grounds Monday evening. We still have a limited number of these brochures on hand and so long as they last will present them to all who call for them. Eliers Piano House, 351 Washington street,

Pianola Pianos and Metrostyle Pianolas

The difference between the Pianola and other piano players is as marked as the distinction between a performer like Paderewski and that of the average planist. All Pianolas are now equipped with the Metrostyle, which many eminent musicians have pronounced indispensable to any piano player. Yet the Pianola is the only one which contains the Metrostyle, or any feature even similar to it.

The Metrostyle is also included in all Pianola Pianos. These instruments combine in a single case the means of playing without any knowledge of music, same as with the Pianola, or in the original way with the hands, and neither mode of playing interferes in the least with the other. Prices of Pianolas, \$250 and \$300; of Pianola Pianos, \$500 to \$1000. Other instruments taken in exchange.
