ENGLAND'S FEAR OF YELLOW PERIL

Cry of "Asia for Asiatics" Viewed as a Menace to All Europe.

POOH-POOHEE IN PAPERS

Public Opinion is Moved by Expressed Determination of Czar Not to Give Money, but Land, for Indemnity.

SPECIAL CABLE. LONDON, July 1.—There is every indication that Great Britain, Japan's avowed ally and the enemy of all her foes, is in danger of being seized with a yellow peril attack, despite the reassuring arguments of those who either officially or as contributors to publications have derided the German Emperor and suspected sordid motives behind his warning cry that "Asia for the Asiatics" implies a menace to the whole of Europe.

This threatened reversal of public opinion has its source in the peculiarly contradictory dispatches from St. Petersburg. They state that the Czar is ready to begin peace negotiations in August, likewise they report expressions from the highest authorities that Russia is as unalterably opposed to the payment of an indemnity today as she was months ago, and that no consideration will be strong enough to make her change her attitude.

Japan, on the other hand, appears determined to receive actual value for her enormous outlay, and when it comes to weighing pounds and shillings, it would take a considerable slice of territory within the zone of hostilities to compensate Japan for her pecuniary sacrifices.

Something of the fear that Great Britain would be affected, to some extent at least, in the event of Russia saving her face by insisting upon her non-indemnity principle, at the same time erasing her border lines from Asia's map, echoed through the address the other day by Colonel Dick, before the Central Asian Society. Referring to the question whether or not England's strength in Asia could be in any way affected by Japan's victories or their geographical result, he said he did not think that Great Britain's prestige could suffer to any appreciable degree in India, for the Afghan and Baluchistan chiefs would not miss the point, so frequently ignored in England, that the Russian army was largely Asiatic, and that the present conflict was not one between European and Asiatic, but one between Mohammedan and infidel, of which the faithful were getting the worst.

Colonel Dick said he fully realized that India, strong and valuable as a borderland defense, would be a menace to the home country were the Indians to take up Japan's supposed cry of "Asia for the Asiatics," but every indication pointed to extreme hostile feeling between these rulers and the Mikado's government. These expressions, implying hostility to Japan on the part of Great Britain's possessions as necessary in order to retain her friendship with the European section of the English government, are sufficiently strange to permit the assumption that army officers are now ready to discard all talk of some species of yellow peril, so far as Great Britain is concerned, as ridiculous.

Opposed by Italian Socialists. SPECIAL CABLE. LONDON, July 1.—Dispatches from Rome state that the chances for the formation of an international agricultural parliament, as favored by the King of Italy, have diminished since the adjournment of the agricultural conference at the Italian Capital. The fault seems to lie not so much with the foreign delegates, who came fully prepared to endorse any project submitted by the King, as with Italian Socialists, who have directed most bitter attacks against the King for setting aside the large revenues of his two model farms for the promotion of what they term a "very visionary scheme," while hundreds of charitable institutions are in danger of bankruptcy owing to the lack of funds to carry on their work.

Club Scandal is Hushed Up. SPECIAL CABLE. LONDON, July 1.—The proceedings begun in Berlin a week ago against a certain club were carried among officers in an incredibly high scale, have been abandoned, owing to the fear that publicity in the case would involve certain members of the highest families of the country. The proprietor of the club is accused of having accepted bribes from tradesmen for introducing them to noblemen. The proprietors, on the other hand, accuse certain officers of high standing in the army of various immoral actions, and altogether the case promises to rival any scandal so far unearthed among Berlin's smart set.

Hungarian Farm Laborers Strike. BUDAPEST, July 1.—A serious strike of farm laborers has broken out in Hungary. In some sections little work is being done, and as a result the crops are suffering. There have been riots in many places, and a number of strikers have been killed by gendarmes. Military assistance has been called for.

Oscar Relieves Norwegian Attache. STOCKHOLM, July 1.—King Oscar has relieved C. Haug, secretary of the Legation of Sweden and Norway at Washington, of his functions at the legation. Mr. Haug is a Norwegian.

Hit by French Destroyer. LORIENT, France, July 1.—The French torpedo-boat destroyer Sagale, while going out of port today, collided with a vessel.

The destroyer was damaged and was towed back to port for repairs.

Steerage Rate Reduced to Canada. GLASGOW, July 1.—The Allan Line has reduced its steerage rate to Canada to \$7.50, the same as the Dominion Line, which made a cut to that figure yesterday.

American Riflemen Entertained. LONDON, July 1.—The Americans who are to take part in the contest of the National Rifle Association at Bingley are being elaborately entertained.

Daleport Leaves Without Coaling. LONDON, July 1.—It is said that the Russian auxiliary cruiser Dnepro, has left Jibouti for Libau without coaling.

SANTA FE IN THE COURTS Charged With Violation of Court Injunction.

KANSAS CITY, Mo., July 1.—Contempt proceedings against the Atchison, Topeka & Santa Fe Railway Company, charging that company with being guilty of the violation of an injunction issued at Kansas City by Judge John F. Phillips on March 24, 1902, restraining the road from giving rebates, was filed in the United States District Court here today at the instigation of Milton D. Parly, of Washington, D. C., Assistant Attorney-General, who came here recently at the direction of the Attorney-General to file the suit upon behalf of the Government.

SPECIFIC CHARGES ARE MADE Santa Fe Alleged to Have Favored Certain Shippers.

KANSAS CITY, Mo., July 1.—Although Judge Phillips' restraining order issued three years ago, was directed against seven other railroad companies besides the Atchison, Topeka & Santa Fe, the suit filed today is solely against the latter road. The other railroads enjoined previously by Judge Phillips were the Chicago, Burlington & Quincy, Chicago & Alton, Missouri Pacific, the Wabash, Chicago, Milwaukee & St. Paul, Illinois, Rock Island & Pacific, and the Chicago Great Western. A similar order was issued by Judge Grosscup in Chicago on March 25, 1902, against six other roads. The suit filed today at the instigation of the Federal Government recites that the Santa Fe railways up to the time the injunction was granted had been engaged in the practice of granting unlawful rebates and preferential rates and facilities to certain favored shippers, whose names were to the plaintiffs unknown on the date of granting the injunction. The information asserts specifically that the Santa Fe favored the Colorado Fuel & Iron Company in giving rates on coal, saying it "carried the coal of such company, at a less rate than the rates named for such services in defendant's published and established schedules and rates, and made rebates for such said Colorado Fuel & Iron Company."

The information asserts that the Atchison, Topeka & Santa Fe Railway is in contempt of the writ of habeas corpus issued by the United States District Court in Chicago, and asks the Federal Court to cite the company's officials to appear in court and make answer for such acts. Judge Phillips did not indicate today what action he might take in the matter.

HARVESTER REBATE CASE. Every Road Operating Westward From Chicago Made Defendant.

KANSAS CITY, Mo., July 1.—(Special.)—Practically every railroad operating westward out of Chicago will be made a defendant in information to be filed in Chicago next week in the rebate cases against the Santa Fe and the Harvester Company. Some time ago Judge Grosscup, of the Federal Court, restrained nearly all of the Chicago lines from paying rebates to the Harvester Company. This injunction, it will be charged, has been violated and the Government will begin prosecution.

Milton D. Parly, who was here all this week, preparing the information against the railways in the rebate case against the Santa Fe, left for Chicago tonight to file the information. It will be filed in the United States Circuit Court in the latter part of the week.

The information will charge that the railways sought to escape the injunction against granting rebates to the International Harvester Company through the payment of switching charges to alleged belt lines, offered by the harvester company. This belt line, the Government will allege, is nothing more than a side-track, but is used as a means of evading the injunction through the payment to the railroads of switching charges from three to five times more than is paid to any other line for the same service.

The Government will charge that the payment of these switching charges in effect the granting of a rebate to the harvester company, and as such is a violation of the injunction.

SOLDIERS DROWN IN LAKE Boat is Upset and Only Two Men Are Rescued.

CHEYENNE, Wyo., July 1.—(Special.)—Privates Pool, Tait and Sausmore, of the Eleventh Infantry, were drowned in Sloan's Lake, in North Cheyenne, while boating. Privates Henderson and Neede, clinging to the boat, and when rescued by Claude Fagan both were almost exhausted. Tait and Pool swam about 75 yards and then drowned. Sausmore swam to within 50 yards of the shore and was unable to make his way through the dense growth of weeds and went down. Rescuing parties are now dragging the lake.

Speculators Overload on Teas. NEW YORK, July 1.—Speculators who purchased large quantities of Japanese and Formosa teas in anticipation of either an ultimate Russian victory or the indefinite prolongation of hostilities in the Far East, are now having difficulty in disposing of their holdings, says the Herald.

Except for two weeks, when the Russian North Sea fleet was approaching Japan, the exports from that country have not been interrupted, and according to men in the trade the new crop of tea is now coming forward in large quantities.

INCITED STRIKE FOR BLACKMAIL

Charge Against Labor Leaders by Chicago Grand Jury in Report.

BRICK TRUST IS INVOLVED

Jurors Declare That "Mediator" Driscoll Had Understanding With Teamsters' President. Sluggers Were Hired.

CHICAGO, July 1.—The Cook County grand jury, which for a month has been investigating the causes and conditions of the present teamsters' strike, returned its report tonight, and with it 81 indictments against men connected in various ways with the recent labor troubles in Chicago.

The following are the men indicted: George C. Pruning, president of the Illinois Brick Company; Charles Hank, president of the Brick, Stone and Terra Cotta Workers' Union; J. J. McMahon, president of the Brick, Stone and Terra Cotta Teamsters' Union; John Gray, general purchasing and distributing agent of the Illinois Brick Company.

These four indictments are based on charges of conspiracy to injure the business of independent brick concerns whose interests lay in directions opposite to that of the Illinois Brick Company, which is the so-called "brick trust." A number of officers of independent brick companies testified that \$25,000 had been paid to Gray for expenses in connection with calling strikes against their plants.

Teamsters' Officials Indicted. The following were indicted for conspiring to injure the business of Montgomery Ward & Co.: Cornelius N. Shea, president of the International Brotherhood of Teamsters, two counts; Jeremiah McCarthy, business agent of the Truck Drivers' Union; John Smyth, president of the Coal Teamsters' Union; George F. Golden, business agent of the Flocking-House Teamsters' Union; M. F. Kelley, ex-business agent of the Market and Grocery Teamsters' Union; W. J. Kelly, secretary of the Coal Teamsters' Union; James Barry, business agent of the Express Wagon Drivers' Union; Hugh McFiee, president of the Truck Drivers' Union; Harry Lapp, president of the Baggage and Parcel Drivers' Union; W. J. Gilman, business agent of the Baggage and Parcel Delivery Drivers' Union; Stephen Sumner, business agent of the Milk Wagon Drivers' Union; W. J. Adams, president of the Teamsters' Joint Council; Albert Young, ex-president of the International Brotherhood of Teamsters.

In addition to the indictments against the above, true bills charging intent to commit bodily injury and assault with intent to kill were returned against 21 members of the Teamsters' Union and sympathizers with the strikers, who have at various times participated in the rioting incident to the teamsters' strike.

Makes Scathing Report. In addition to returning the indictments, the jury submitted a long and scathing report, dealing with the labor conditions in Chicago. Following are a few extracts from the report:

"That the City of Chicago for years past, has been infested with moral lepers, who have preyed upon its financial and social strength, is known to most informed citizens. That reputable business men and reputable citizens employed in all fields of labor have been subjects of blackmail and the greed of these vampires, is also a well known fact.

"We beg to inform the court that we have positive evidence that an understanding existed between one John C. Driscoll, more recently known as the 'mediator' between capital and labor, and one Albert Young, the first president of the Coal Teamsters' Union, organized about 1902."

Here follows a list of strikes settled by Driscoll, with the sums paid to him, and it is stated that Driscoll made payments to Young and other union leaders.

The report then turns to Cornelius Shea, and says: "That money was paid to Cornelius Shea, or his representatives of the packing industries to settle the stockyards strike, has been demonstrated to this body; that Shea has benefited by demands made for money on representatives of capital has been abundantly established by satisfactory evidence."

Sluggers Were Hired. The report declares: "Slugging has been paid for by certain vicious interests at the head of certain labor organizations."

"Coming down to the teamsters' strike in Chicago the grand jury report is as follows: "We believe the present teamsters' strike to have been born in iniquity, and that though many honest laboring men were led to believe a so-called sympathetic strike was advisable and just, we feel satisfied from evidence presented to us that a very few of the principals at the head of the Teamsters' Union were and are responsible for its inception and continuance, that their prospects might jingle with unholy gain."

A NEW COAL OIL JOHNNY Successful Miner Buys Special Trains Across Continent.

BARTOW, Cal., July 1.—(Special.)—W. Scott, the Death Valley plutocrat, who is supposed to have made a wonderful gold strike in the mountains above this place, has sprung a brand new sensation in his frank career, from a poor and obscure prospector to a gifted plutocrat. Scott has just made a deposit with the Santa Fe agent here to cover the price of a \$5000 special train to take him to Chicago. Save for a boon companion or two, he will travel alone. The train will be made up of a special Pullman and a buffet diner. One of the stipulations he made in closing the contract was that the diner should be loaded with the very best edibles and liquors that money could buy. It is likely to cost him nearly \$2000 for his little private whirl across the country on a hurry-up schedule.
