President Hears of Death by Wire

at Oyster Bay. OYSTER BAY, July 1 .- (Special.)-The Jeath of Secretary Hay has cast a gloom over Sagamore Hill and the entire village of Oyster Bay. Although Mr. Hay had not been a frequent visitor to the town, he had called upon several occasions to see the President, and this fact, coupled with his close identification with "Neigh-bor Roosevelt," made the townspeople feel a personal interest in the man and his

Many of the villagers called at the exscutive office during the day to inquire for details of the sad event, and all information that was obtained was readily given by Secretary Loeb. The telegraph wires running into the executive office were loaded with messages of sympathy as soon as the news of the death had beknown throughout the United s. Among the many foreign messages was one from King Edward, also a number of other communications from foreign potentates and personages in various walks of life were received.

As soon as the President was informed of Secretary Hay's death by a newspaper man, who reached Sagamore Hill before anyone in the Roosevelt home awoke, he wrote a telegram of condolence to Mrs. Hay at Newbury, and announced that, no matter where the funeral was held, he would make a point of attending

person. It was also announced that the surviving members of the Cabinet would act as honorary pallbearers.

The funeral will be held at Cleveland at 1 o'clock next Wednesday. Speculation over Secretary Hay's successor is of course the order of the day, although neither the President nor anyone else in authority would discuss the matter until the deceased is laid away. Secretary Taft is generally believed to be the President's choice for the vacancy, would seem to weigh against his transfer

The first is that the Panama Canal might suffer in the event of his quitting the War Department; the second is that Secretary Taft is wrapped up in the study of conditions in the Philippines and his invitation to the State Department would also divert him from this work.

The State Department would profit by the injection of Taft's virility and sagacity into its fossil-like system. Dry rot is evident in a great many of the bureaus ind if he took hold of the department Taft would be very likely to work a num-

ber of Important revolutions.

The first crank to visit Sagamore Hill this season was escorted from the premless by the secret service guards this afternoon. He gave his name as Henry Seymour, farmer, Wanjage, L. I. He called to see the President, he said, to Secret Service Agent Tyree, who barred his way at the front entrance, to get him to compel the assessors at Wantage to return \$55 that had been wrongfully taken from him

PRESIDENT'S INTIMATE FRIEND

After Church of a Sunday Long Talks Were Held.

OYSTER BAY, L. I., July 1.- The death of Secretary Hay, so entirely unexpected, came as a personal bereavement to the President. With him the President was on terms of the warmest personal friendship. The Secretary's home was one place in Washington which President Roosevelt visited with frequency. Indeed, it was a habit with the President while re-turning to the White House from church on a Sunday to stop at the residence of Secretary Hay for an infor-mal talk about matters of mutual in-terest. Their conversations on such occasions were not confined by means to Governmental affairs, covered a wide range of topics, especially those pertaining to literature and the arts and sciences.

Secretary Hay was a warm friend of the I P. M. train at Springfield. OVER OFFICIAL ESTIMATE

Actual Deficit of Country for Year Is Twenty-Four Millions.

WASHINGTON, July L-Secretary Shaw today gave out the following statement, reviewing the finances of the country for the fiscal year just closed: "The actual deficit for the year just

closed is in round numbers \$24,000,000, or \$6,000,000 more than the official estimate submitted in the last annual report of the Secretary of the Treasury. In the preparation of this estimate, however, an error of \$4,500,000 was made, growing out of the loan of that amount to the Louisiana Purchase Exposition. By some in-advertence the amount of this loan was deducted twice. The estimated deficit, but for this inadvertence, would have been \$22,500,000.

"Customs receipts are about \$3,000,000 in excess of the estimate. Therefore re-ceipts have been about \$2,500,000 in excess of the estimate.

In expenditure the following items are worthy of note: "The deficiency in postal receipts is \$2,000,000 in excess of the estimate; there has been expended on the isthmian canal \$1,000,000 more than estimated, and on irrigation projects \$750,000 more than estimated: there has been paid under an ap-propriation for French spoilation and other claims \$550,000 more than estimated; the War Department has expended on rivers and harbors \$500,000 more than es-timated; there has been expended for the Indian service \$1,300,000 more than esti-
