Though last week at the Exposition was short on special events, the attendance was a record-breaker. More than 100,000 persons passed through the turnstiles during the seven days that came to an end last night.

This steady increase is a source of great satisfaction to the Exposition officials. Chief F. E. Davidson, of the Department of Admissions expressed himself as being greatly gratified yesterday over the showing made during the last seven days.

By A. A. G.

The slow solution of the oft-asserted but never proved equality of man to man has been a problem upon which have striven the best minds, the best hearts and the best brains of piled-up ages.

"All men are created free and equal," has been the almost pitifully vain slogan of reformers since Confucius dreamed and wrote in the lotus-scented gardens of China away back in the beginnings of time.

The Christ Man in the byways preached and lived it and his disciples recorded it in the Book of Life. In farthest Ind there came pagan prophets who proclaimed it. Rare old Omar sang it in his ode to wine, Luther and Milton, Huss and Voltaire, Shakespear and Tolstol, each in his own way and according to his own lights, have voiced the eternal theory of human brotherhood.

The unending struggle has been a warring of the same forces since Cain slew his brother. On one side, greed and avarice and lust of power, all the actuating motives of man's inhumanity toward man. On the other, only love and mercy, faith, hope and charity. It has been a contest between Goliath and ministers of grace. It is such today only on the one side. We call the man of Anak, Standard Oil and Beef Trust and the Merge-same old greed-same old avarice-same old lust.

On the other side, there are now, as always, impotent Davids, who now, as always, are that other David failed in spite of his deadly sling and his uprightness of heart. Today we call these latter theoretic dreamers, drunks-or else we call them christians.

I guess that foregoing is poor for one less learned than the sophomores. Hush! This isn't a prospectus for a correspondence school of sociology. Listen! It's my simple and direct way of arriving at the Rev. H. S. Wallace, of Oregon, the latest man to appear in our midst and point out the way to win. The latest man who knows that all men are created free and equal, and who proposes to measure off a practical demonstration with the golden rule.
