## FAST TIME TO SEA

Aragonia Is Ten Hours From Portland to Pacific.

LIGHT CARGO ON BOARD

static Liner Leaves Here in the Morning, and by Afternoon Is Headed Straight for Japanese and Chinese Ports

Ten hours after leaving Portland the steamship Aragonia was on the Pacific, having made an unusually quick run dow the river. She goes to Yokohama, Moji and Hongkong with flour, machinery and a general cargo.

A stop of a little more than an hour was made at Astoria, and the Aragonia's time from this port to the ocean has seldom been equaled by vessels of her size. She drew a little over 21 feet, having obtained a light cargo this trip. Tides were favorable, and no time was lost anywhere along the route.

able, and no time was lost anywhere along the route. The time made by the Aragonia in getting to sea shows very decidedly the condition of the channel at this time, when the river is at an average stage. Leaving the Albina dock at 5 o'clock. Captain Pease, the pilot of the Fortland & Asiatic Company, took the vessel straight through to Astoria without a hitch. The vessels going down at night have been troubled by fishnets, and have usually lost considerable time in trying to avoid riptroubled by hennets, and have usually lost considerable time in trying to avoid rip-ping them, but the daylight trip elimi-nated this delay. Among the items of freight on the Aragonia are 50 head of blooded cattle, bound for Japan.

ILFORD HERE FOR LUMBER

British Freighter Will Take Over 8,000,000 Feet to China.

Here to load lumber for China, the Brit ish steamer liford arrived in port from British Columbia last night, proceeding at once to the Inman-Poulson mill, where at once to the Inman-Poulson mill, where the greater part of the cargo will be load-ed. It is expected that the liford will take out over 3,000,000 feet for Taku Bar. The liford is larger by a few tons than the Sandhurst, the last freighter to load lumber for China. Oregon fir is princi-pally shipped by her charterers, the Pa-cific Export Lumber Company. While the liford passed through one side of the Morrison-street draw, the tow-boat Albany was taking a raft through

boat Albany was taking a raft through the other side. In a moment a fire alarm sounded which called the fireboat to the foot of Taylor street. By the time the Williams got well out into the stream, the Albany was nearly to the Madison-street bridge, and the raft was still in the lower draw. How to cross the tow line was a question quickly solved by the aid of the towboat pilot. The Albany backed up, and e cable, slackening, dropped deep into se water, and the fireboat safely slid eer it and to her position.

Two Ships Await Charters.

In a few days there will be a small fleet of vessels around the Madison-street bridge. The Hopkins yacht El Primero was yesterday put into Winter quarters back of the O. W. P. & By. Co.'s dock, and the ships Arthur Fitger and Thistle will be taken to the same dock to awalt a grain charter later in the season. They have here offered lumber charters but a grain charter later in the season. They have been offered lumber charters, but the owners will accept nothing but wheat. The yacht has been placed in charge of the former mate of the ship Fairport, and Captain Brown left for San Francisco last right. Directly across the river at the lo, patiently awaiting a purchaser

Marine Notes.

left down last night for San Francisco. The steamer F. A. Kilburn sailed for San Francisco and way ports last night with 425 tons of wheat and 58 passengers

For every trip there has been a strong demand for passage on the steamers carrying lumber, as well as passengers, on account of the jam on the larger passengers. Jules, From the earth-to the ger liners.

tons, has been chartered by Taylor, Young & Co. to load lumber here next month. She is expected here by August 5. The cargo will go to Santa Barbara, Cal.

The old towboat Kehani, rebuilt and re-named the Ottawa, was measured yesterday by Deputy Collector of Customs Barnes. She is now practically a new boat. Her length is 89 feet, and her beam 18 feet, with five feet depth of hold.

Another big log raft was taken out across the bar yesterday in tow, of the steamer Francis H. Leggett, bound for San Francisco. The raft came from the Robertson cradle at Steila, Wash., and measures nearly \$,000,000 feet.

Domestic and Foreign Ports.

ASTORIA. Or., July 22.—Condition of the bar at 5 P. M., obscured; wind, northwest; weather foggy. Arrived at 8 and left up at 10.30 A. M.—British steamer liford, from Comox. Arrived down at 10.20 A. M. and salled at 12.20 P. M.—Schooners Borealls, for Redondo, and David Evans, for San Pedru. Arrived down at 1.25 and salled at 3 P. M.—Steamer Francisch. Arrived down at 2 and salled at 5.30 P. M.—German measure Aragonis, for Ean Francisch. Arrived down at 2 and salled at 5.30 P. M.—German measure Aragonis. Ean Francisco. Arrived down at 2 and salled at 5:30 P. M.—German measurer Aragonis, for Hongkong and way ports. Sailed at 5: P. M.—Schooner Sequols, for San Francisco. Ean Francisco, July 22.—Arrived at 10:30 A. M.—Steamer Deopatch, from Portland, Sailed last night—Steamer Northland, for Portland. Arrived—Schooner Alpha, from Willapa; U. E. S. McMullich, from Portland, Sailed—British steamer Condor, for Port Townsend; schooner Advance, for Coquille River; schooner Jessie Minor, for Coce Bay; steamer M. F. Plant, for Coce Bay; schooner Mildred, for Coce Bay, Arrived—Nobraska, from Kahusht, Sailed—Steamer Korsa, for Hongkong; City of Pars, for Ancon.

San Pedro, July 21.—Sailed—Schooner Beulah, for Portland.

to entry. Unlike most other indian reservations that have been opened up in the past, the Unitah possesses few attractions to the homeseekor.

Land Commissioner Richards, who will have immediate charge of the opening, is anxious that the public shall understand that the Unitah reservation, or at least the understand that the Unitah reservation, or at least

tively little value. Mr. Richards says there is much better hand in Utah out-side the reservation that is still subject to entry than will be found on the ressition to advise any man, it is very evi-dent from his talks that he thinks there is little in prospect for the man who rushes in to make a home on the Ulntah

This Ulniah reservation has attracted a great deal of attention because of its gliaonite. Bot this glisonite, and any other mineral that may exist on the Uintah reservation, will not be subject to entry until 66 days after August 28 and then it must be taken under the mineral land laws. But here again the settler is at a disadvantage, for hig mining companies have already acquired rights to the best glisonite deposits, and there is nothing but second-class land left for the man who goes in this Fall.

All in all, the Uintah reservation is not an attractive proposition. There are better reservations to be opened in the near future, notably the Fisthead in Montana, and Government officials familiar tana, and Government officials familiar with the ground are not encouraging any one to throw away his entry rights on the Utah lands. While there may be a few tracts worth while, and while some few men may get good homes on the Ulntah lands, it is the honest belief of well-posted officials that there is nothing in

it for the average man. New Books at the Library

Schwab Buys "Fads and Fancies." that the Ulntah reservation, or at least the unallotted area, is not a garden apot. Not an acre that is to be opened, he says, is capable of producing a crop without irrigation, and the land office is not ready to guarantee to any entryman that he will have water for his land after he makes his entry. The Ulntah Indians have taken up the best lands of the reservation, the timber lands have all been reserved, and what is left is of same of the said, he had done very reserved, and what is left is of same of the said, he had done very reserved.

Causes Strong Finish in Chicago Wheat Market.

SHORTS DRIVEN TO COVER

Prices Irregular During Greater Part of Session-Disputes Rust Reports-Liberal Move ment Continues

CHICAGO, July 22 -A hot wave forecasts

On the opening the market was quite trregular, initial quotations on September being Sc higher to he lower, at SSAGEORGE.
While cables were considerably higher, the
market lacked the suntaining influence of any
definite news regarding alleged damage to
Spring wheat throughout the Dekotas and
Minnesota. Later reports were received partially cohtradicting the sensational advises of
yesterday, and this tended to hold prices at
a lower level. In addition, a continuation
of an anceedingly liberal movement gave
bears further encouragement, the total primary receipts today being 1,040,000 bushels,
compared with only 120,500 bushels a year
ago. Just before the close, prices experienced a sharp railly, September advancing to
SOMe. The sudden upturn was due to renewed buying by aborta, who were criver to
cover by a prediction of a heat wave for the
Northwest. On the opening the market was guite

Trading in the corn pit was fairly active The market closed easy. September closed 1,0%c down, at 554,055%c.
Early weakbess of whist started profit-taking in the cats market, resulting in some reaction in values. September closed at

reaction in vacaning the control of the close series by commission houses. At the close, Steptember pork was off 10c, at \$12.87%; lard was ruesion, at \$7.27%; rips were 10c lower, The leading futures ranged as follows:

HAWTHORNE TERRACE PORTLAND REIGHTS

Now open. Take Portland Heights car and get off at Hawthorne Terrace, one block from car line. No climbing. Electric elevator. Most magnificent view in America. See beautiful effect of powerful searchlight from top of tower. Open 9 A. M. to 9 P. M. ADMISSION, 16 CENTS. WEATHER CONDITIONS.

The heat in the North Pacific States continues unabated. At Walia Walia a maximum temperature of 110 degrees occurred during the afternoon; at Spokane the highest point reached was 102 degrees and at Boise 100 degrees. At Portland it was 2 degrees warmer than yesterday, but in the interior of California and in Southern Oregon it was slightly cooler. A thunderstorm occurred last night at Spokane with rainfall apol light to be of any value in cooling the atmosphere.

The indications are for fair and cooler.
