But this argument did not move the committee on congresses from its opinion. It maintained that it did not intend to show any approval of actions which were outside of established principles of morality.

The situation thus became a delicate one, and it was determined to use diplomacy. As the matter was one over which the congresses committee had exclusive control, the Exposition management did not think it advisable to act over its head.

A letter was accordingly sent Mr. Hubbard, explaining the developments. It was believed he would withdraw his ac- ceptance of the invitation and that the incident would be ended. Mr. Hubbard's dispatch, however, does not indicate a desire to retreat while under fire. He will be at the Exposition on the day set, and primed for the occasion, protest or no protest.

As to a formal protest, signed by min- isters referred to by Mr. Hubbard, Ex- position officials profess ignorance. Pres- ident Goode, of the Exposition, says that no knowledge of any protest had come to him, either of a formal or informal nature. The matter being one, however, that would not necessarily come under his own supervision, he referred to Mr. Hardee or Mr. Freeman as more likely to be advised concerning such action if it had been taken.

SCIENTISTS GET NEW EVIDENCE AGAINST CARLTON.

Experiments on Rabbits From Another Victim of Disease Support the Charge of Inoculation.

NEW YORK, July 29.—Through ex- periments in inoculating rabbits with tetanus germs from the brain of a man who died today of that disease at the Norwegian Hospital, the authorities hope to obtain proof that Mary Gorman Carlton, the second Brooklyn wife of J. S. Carlton, contracted the tetanus of which she died by designed inoculation, and not by the accidental scratch of a cat. It is believed that the rabbits will shortly show symptoms identical with those noticed in the woman, whose body was recently exhumed from its grave in Calvary Cemetery.

If that is true, officials of the Coroner's office assert it will be of great help in presenting a more serious charge against the man now in jail on charges of grand larceny and circulating obscene photographs.

The man whose death may prove a signal service in avenging the death of the two Brooklyn women, was Ed- ward Johnson, 45 years old. Taken ill on July 22, he died today of tetanus, an agony of tetanus, as did Mary Carlton four months ago and Jennie Smythe Carlton in Washington last year.

CAN SUE STOCKHOLDERS

Bondholder May Recover \$43,000, 000 Worth of Bonds.

DES MOINES, Ia., July 29.—(Special.)—An appeal from Boston says: Stockholders of the famous Lombard Investment Company who lost heavily through the failure of the concern ten years ago, will be started to learn how they can recover their losses. They now communicate with the stockholders, informing them that under a recent decision of the United States Court of Appeals, they are liable for the debts of the corporation represented by the \$43,000,000 bonds.

It is alleged that in accordance with this decision Benjamin Lombard Jr., of Boston, and James M. Lombard, of Kansas City, and other big stockholders have paid their indebtedness. The Lombard Investment Company had out- standing at the time of its failure the above amount of bonds, secured by mortgages on farms and in Iowa, Ne- braska, Ohio, Indiana, Kansas, Mis- sissippi, Michigan, Wisconsin and other Western States.

CHICAGO, July 29.—The California ex- press, on the Atchison, Topeka & Santa Fe road, leaving this city at 10 o'clock, went into a ditch tonight at Lamont, a village 30 miles southwest of here.

The man who was killed and the three who are said to be fatally hurt were riding in the smoking car and the reclining chair car. Among the injured is William Mc- Vey, a janitor, of Joliet, Ill., one of whose arms was crushed so badly that it will have to be amputated.

Others injured are: Conductor G. J. Weatherly, Chillicothe, Ill., head cut and internal injuries; H. G. Powers, express messenger, buried under packages in his car, badly cut about head and bruised.

James Sheehan, baggage man, badly bruised. A relief train was hastily summoned at Joliet, 25 miles from Lamont, and sent to the scene of the disaster. All of the injured were taken to the hospital in that city. The railroad officials say the wreck was caused by spreading rails.

SOCIETY WOMEN, HOUSEWIVES, WORKING GIRLS

Are Alike Subject to Catarrh and Rely Upon Pe-ru-na As Their Remedy.

Prominent Society Woman Cures a Severe Cold With Pe-ru-na.

Miss Louise Matthews, 614 Main street, Joplin, Mo., writes: "Last Winter I attended a ball and, being lightly clad, became chilled while driving home. It developed into a serious cold in my head, which went to my lungs and caused a cough. From the lungs it spread to the stom- ach, causing catarrh of the stomach. Three bottles of Peru-na cured me within a short time. I recovered my usual good health and have enjoyed it ever since."

Pe-ru-na, a Favorite Remedy With This Housewife.

Mrs. Carrie King, Darlington, Mo., writes: "Peru-na has been my favorite and only household remedy for nearly five years. I have suffered for years with biliousness and kidney and liver trouble. If I caught a little cold, the pains were increased and backache and headache were of frequent occurrence. However, Peru-na cured me—twelve bottles and kidney and liver trouble. For three years I have enjoyed the best of health. I keep Peru-na constantly in my home, and if we feel indisposed, a few doses of Peru-na restore us."

Member Garment Workers' Union Restored to Health by Pe-ru-na.

Miss Marie Lepshaw, 237 Second St., Portland, Or., member Garment Workers' Union, Local 223, writes: "I have been troubled off and on for three years with biliousness and con- stipation, causing the food to lie heavy on the stomach. I had heartburn, acid gas rising in my throat, and a general distressed feeling. There were many days when I was compelled to take pills or bitter water for the bowels, but after using Peru-na for several weeks I found to my sur- prise that the trouble had disappeared and that I was once more in my normal condition. I have had no trouble for the past three months. I am very grateful to Peru-na."

Balfour's Majority Safe. Opposition Fears Division on Any but Snap Vote.

LONDON, July 29.—(Special.)—Mr. Bal- four's attitude toward the impetuous Lib- eral and Nationalist Commons, who would compel him to resign and go to the country after the snap vote, has been vindicated. As predicted in these dis- patches, there is no question of retirement or of dissolution. In any test the Premier's decision to go on with the Liberal business has been received with relief. There is no general call for a change of administration at present, and until the Liberal scheme are more clearly than they are likely to be for some months, the average Briton will trust the devil he knows in preference to the devil he does not know. The Radical and Reform- ists' Winston Spencer Churchill has added to his laurels by devices for obstruction.

Despots Fear Liberation. Jaures Says It Is Greater Peril Than Yellow Races.

PARIS, July 29.—(Special.)—M. Since the disappearance of the Kaiser as a first-class sea power, Germany has officially laid claim to the title of "mistress of the Baltic." It is declared that the sudden British demonstration in the Baltic waters must, therefore, be interpreted as a challenge to that supremacy that Ger- many cannot observe passively. It is pointed out that British, neither on land nor at sea, has interests in the Baltic that in any way concern her vaunted claim that her naval dispositions com- pletely nullify "defense of national inter- ests." CHICAGO, July 29.—(Special.)—A cable- gram to the Daily News from Berlin says: Storms of angry protest have broken out in Germany over the forthcoming British naval maneuvers in the Baltic. Immediately off the Fatherland's coast, the British fleet is expected to make a first-class sea power. Germany has officially laid claim to the title of "mistress of the Baltic." It is declared that the sudden British demonstration in the Baltic waters must, therefore, be interpreted as a challenge to that supremacy that Ger- many cannot observe passively. Officials of State Department Are Awaiting Conference.

WASHINGTON, July 29.—(Special.)—The announcement that the Norwegian Stor- ting has decided to submit to a plebiscite the question of the dissolution of the union with Sweden has been received with interest by officials of the State Depart- ment, because it is regarded as promoting the chances of an amicable settlement of the difference between the two coun- tries. Next Tuesday is the day fixed for the reference of the matter to the people, and in view of the reported unanimity of Norwegians on the subject, the result is not doubtful. Meanwhile the Norwegian government, which is now vested in the Council of Ministers, has made no re- quest of the United States Government for recognition of its separation from Sweden or of its individual existence.

Despite the famous speech of Lord Cur- zon, in which he deplored the fact that Tottenham Court Road was being converted into a picture gallery, the new building will almost throughout be decorated in European style. There will be 14 state chambers.

The Durbar hall alone of all the cham- bers will be decorated in Indian style. The erection and decoration will occupy about two years more.
