KUNZITE AND TOURMALINE—These beautiful gems are found in California and are of a very rare quality; one having a beautiful lavender that, while the other stone comes in most any color. These you will always find in our show windows, as we are sole agends for them.

OPAL AND TURQUOISE METRIX are stones of peculiar beauty and are so cut as to leave part of the stone which surrounds the gems when in their native state. They are especially beautiful when mounted WE HAVE SOLD A GREAT MANY to tourists, who are looking for something odd. They are very reasonable in price, and cannot be found but in very few stores.

DIAMONDS DIAMONDS

TES WE SELL A GREAT MANY for the reason that we handle only fine gems. If you are looking for a badly flawed stone you will have to go to the other fellow, as we handle only first quality of gems. DIAMOND BUYERS have found this out and know when we say a stone is perfect they can believe it. This accounts for the large diamond business we do. We have beautiful diamond rings from \$15.00 up to \$600.
