

FURTHER DECLINE IN PRICES IS QUOTED BY BUYERS.

SMALL CALIFORNIA DEMAND

Grain Standard Committee of Portland Chamber of Commerce Submits Proposition to Washington Commission.

WHEAT—Buyers quote lower prices. HOPS—Reports of vermin and mold in English yards.

PRUIT—California shippers withhold supplies.

POTATOES—Market firmer on Alaska order.

EGGS—Local values firm, but no higher.

POULTRY—Front street cleanup up.

BUTTER—Quiet and unchanged.

CHEESE—Half-cent advance reported.

Weakness continues to be the principal feature of the wheat market. Trading is slack, as the farmers are not disposed to sell much more than they are buying.

Some fairly large sales occurred during the week in the United States, but little in the foreign market.

Another conference was held yesterday morning between the grain standard committee of the Portland Chamber of Commerce and Messrs. Reed and King, of the Washington Grain Commission.

The matter of a uniform wheat standard for the two states was fully discussed in a general spirit of harmony.

The Washington men asked the Portland committee to state their position in writing, which will be done and action will be taken by the Washington commission at a meeting to be held in Tacoma later.

The Oregon wheat standard in past years has been fixed at 60 pounds, while the Washington standard was 68 pounds.

This has created much confusion in the trade and led to the efforts to bring about a uniform standard.

HOP STOCKS ARE SMALL.

Only 1700 Bales Remain in Washington—Vermin and Mold in England.

The activity in the Washington hop market in the past few days has left only 1700 bales of 1904 unused in that state, according to reliable reports received from the North.

On this basis, it is figured that 12,000 bales covers all the hops of last year's crop remaining on the entire coast, a small amount for brewers to draw upon, even considering the lateness of the season.

The significant point in this connection is the fact that the Eastern brewers are acknowledged to be almost without hops, as is shown by the hand-to-mouth buying that has been done recently.

Furthermore, dealers in the East are in lack of supplies. The growers of the West, on the other hand, are not going to sell them unless they get the price.

London cables received yesterday by hopmen reported an increase of vermin and mold in the English yards, and estimated the crop of that country at 100,000 bushels.

A mail report from New York city, dated yesterday, stated that the unfavorable weather recently experienced, vermin was increasing and that the quality of the crop was running off.

PACKAGE COFFEE HIGHER.

Fifty-Cent Advance Reported in the Eastern Brands.

An advance of 50 cents a hundred in Arbuckle's package coffee was reported yesterday, making the new price \$15.75.

An Eastern trade circular says of the situation:

The market has continued very steady, with a good demand for actual coffee. Larger business would be possible if the existing coffee contained good quality of the coffee.

A mail report from New York city, dated yesterday, stated that the unfavorable weather recently experienced, vermin was increasing and that the quality of the crop was running off.

London cables received yesterday by hopmen reported an increase of vermin and mold in the English yards, and estimated the crop of that country at 100,000 bushels.

OREGON WOOL IN THE EAST.

General Markets Are Quieter, Though Far From Inactive.

Fully 75 cents clean is the quoted cost of the staple Oregon wool moving in Eastern markets, and some authorities place it at 75c, says the Boston Commercial Bulletin.

The grease price for western wool is 25c. No. 1 clothing is quoted at 22 1/2c in the grease and 70 1/2c scored. Very fine scored has sold at 75c and is held in some cases at 75c.

The market is quiet, though far from inactive. In volume this week's business is above the average, and one large dealer asserts that he has been in excess of last week's when he sold a very great deal.

Some of the big buyers, notably the American Woolen Company, have temporarily withdrawn from the market, and others are holding back.

The number of buyers from the smaller mills has increased, and it is given as a favorable indication that woolen mills are more largely represented than formerly.

Dealers say they have nothing to complain of in the quality of quantity of the demand. Fairly steady business in greases and a large amount of territory wool make the aggregate of the week's sales fairly large.

The business is perhaps more widely distributed than for some weeks, as operations are no longer confined to a few dealers and manufacturers.

The outlook is satisfactory as many consumers have not yet covered their needs and will do so ere long. So far as can be learned, the wool buying movement is largely on account of the orders received for new light-weight men's wear fabric.

With so much wool taken out of the market this early in the season, to practically all pass quickly into consumption.

It is a question that will happen next winter when manufacturers begin to consider the necessities of the heavy-weight season. It is a very strong and legitimate situation and one which it would be difficult to duplicate by harking back to past history. There is nothing speculative in the Boston situation.

Bank Clearings.

Bank clearings of the Northwestern cities yesterday were as follows:

Portland, \$490,578; Seattle, \$1,010,818; Tacoma, \$224,337; Spokane, \$102,239; Everett, \$102,239.

Clearings of Portland, Seattle and Tacoma for the week were:

Portland, \$4,905,780; Seattle, \$10,108,180; Tacoma, \$2,243,370; Spokane, \$1,022,390; Everett, \$102,239.

Clearings for the corresponding week in former years:

Portland, \$4,905,780; Seattle, \$10,108,180; Tacoma, \$2,243,370; Spokane, \$1,022,390; Everett, \$102,239.

PORTLAND QUOTATIONS.

Grain, Flour, Feed, Etc.

FLOUR—Patent, \$3.00; extra, \$2.75; city, \$2.50; standard, \$2.25; family, \$2.00; extra, \$1.75; city, \$1.50; standard, \$1.25; family, \$1.00; extra, \$0.75; city, \$0.50; standard, \$0.25; family, \$0.00.

WHEAT—No. 1 white feed, \$0.42 per bushel; No. 2 white feed, \$0.40 per bushel; No. 3 white feed, \$0.38 per bushel; No. 4 white feed, \$0.36 per bushel; No. 5 white feed, \$0.34 per bushel; No. 6 white feed, \$0.32 per bushel; No. 7 white feed, \$0.30 per bushel; No. 8 white feed, \$0.28 per bushel; No. 9 white feed, \$0.26 per bushel; No. 10 white feed, \$0.24 per bushel; No. 11 white feed, \$0.22 per bushel; No. 12 white feed, \$0.20 per bushel; No. 13 white feed, \$0.18 per bushel; No. 14 white feed, \$0.16 per bushel; No. 15 white feed, \$0.14 per bushel; No. 16 white feed, \$0.12 per bushel; No. 17 white feed, \$0.10 per bushel; No. 18 white feed, \$0.08 per bushel; No. 19 white feed, \$0.06 per bushel; No. 20 white feed, \$0.04 per bushel; No. 21 white feed, \$0.02 per bushel; No. 22 white feed, \$0.00 per bushel; No. 23 white feed, \$0.00 per bushel; No. 24 white feed, \$0.00 per bushel; No. 25 white feed, \$0.00 per bushel; No. 26 white feed, \$0.00 per bushel; No. 27 white feed, \$0.00 per bushel; No. 28 white feed, \$0.00 per bushel; No. 29 white feed, \$0.00 per bushel; No. 30 white feed, \$0.00 per bushel; No. 31 white feed, \$0.00 per bushel; No. 32 white feed, \$0.00 per bushel; No. 33 white feed, \$0.00 per bushel; No. 34 white feed, \$0.00 per bushel; No. 35 white feed, \$0.00 per bushel; No. 36 white feed, \$0.00 per bushel;
