Where the Sensible Settler Goes
Where the Warm Chinook Winds Blow
Where the Cool Mountain Water Flows
Where Wheat, Oats and Barley Grow

Yes, where the buffalo in millions went to Winter in the old days and found the rich prairie grasses cured by the dry ripening suns of August and September in abundance to the days that are gone. Here now is the home of the cowboy and the dairymaid—where are to be seen the finest beef steers of modern commerce that range throughout the year. In a country milder in climate than Iowa.

HUNT & CO.
122-3-5-6 Abington Block.

TOUR OWN HOME.

Why limit yourself to an ordinary sized building lot? You can purchase lots anywhere and everywhere, but when you desire an acre tract, you are at once on the hunt; they are hard to find, and when compared to lots are as one to a thousand. A great many people want at least an acre; we know they do; that's why we are in the business. That is our specialty; to sell you an acre tract (equal to 6 or 8 lots) on terms that you practically meet on the purchase of one ordinary lot.

We plat these tracts with full-sized streets with water piped to each acre; we plat them so that in future if you desired to cut them into lots you can do so. We get them at prices from ¼ to ½ what the same amount of land costs you when bought in lots. We sell them on terms of $10 cash, if you like, and $10 per month per acre. This gives you a chance to use your ready money to build and start a home. As an investment or as a starter for a home later on, your judgment is good if you purchase. You go to these acres on the same car and pay the same 5c fare the lot man pays. The lot man is your neighbor, but he is restricted in possibilities. You are a wholesaler, the lot man is a retailer.
