It was said today by authority that the laborers who are doing the hard work have been for some time in a half starved condition, due to the fact that the demand for food has raised the prices of all commodities to abnormal figures in Panama, The dollar-a-day men, with eggs at 10 cents each and bad meat from 20 to 46 cents a pound. have gone for two and three days at a time without any food except that got from sucking the wild cane in the swamps. They have gathered around the quarters of the officers, begging for food, and daily cables to Washing-ton for food supplies have been the result. In this emergency one of the reasons for accepting the Markel bid. It is learned, was the fact that he has organized force ready to put into Panama at once,

#### Protest to President Against Markel Isthmian Hotel Contract.

OYSTER BAY, Sept 9 .- President Rosevelt is in receipt of a telegraphic protest from Hudgins & Dumas against the letting of a contract by Chairman Snonts, of the Isthmian Canal Commission, to J. E. Markel, of Omaha, Nea, for the hotel and subsistence con-cessions in the Panama Canal Zone. Chairman Shonts awarded the contract to Markel as the successful one of three bidders, Hudgins & Dunnas and Balfe being the other two.

The protest to the President alleges that favoritism was shown to Markel, the successful bidder, and that he was embled through a leak in Chairman Shouts' office to gain information about the other two bidders which en-

abled him to bid successfully.
President Roosevelt has taken no ac tion regarding the protest, and will take none at present at least, beyond referring the protest to Chairman Shonts, who will be asked to make a report to the President upon it.

#### Penfield Will Inquire Into South American Tariff Discrimination.

WASHINGTON, Sept. 8 .- It is said that Judge Penticld's mission to look into trade conditions in South America is of the greatest importance to the large export-ing trade interests of this country, and particularly to the shippers of American flour and produce. In fact, upon Judge Penfield's report probably will depend whether or not the President shall decide to change the policy of patient waiting and negotiation with some of the South-ern republics for one of active retaila-Nearly 27 years ago, when in the course

of the "free breakfast table" movement the duty on coffee imported into America was removed by Congress, Brazil was one of the first countries to take advantage of the situation by immediately imposing an export duty on Brazilian coffee going to America, about equivalent to the tariff duty abolished. This in a measure defeated the purpose of Congress, which was to secure cheaper coffee for the American people. Also for a period of years the Brazilian government has lev-led upon American flour and other prod-ucts duties that this Government has been urged to regard as discriminatory. If the President were officially of this mind, he would be under the necessity of carrying out the provisions of the retal-latory laws and imposing duties upon Brazilian products considerably in excess of those now levied. # PARTY'S FIFTIETH BIRTHDAY

### Fairbanks and Pennypacker Speak at Republican Celebration.

WESTCHESTER, Pa., Sept. 9,-(Spe cial.)-The 50th anniversary of the organisation of the Republican party was celebrated here today. There was a parade in which 3500 men with 26 bands took part. There were about 25,000 visitors in the city. Vice-President Fairbanks and Governor Penny-packer made addresses, which were received with tumultuous cheering.

Governor Pennypacker, in his address, referred to the youthful enthusiasm of the voters of 1855. He said in its infancy the Republican party gave us the great Lincoln and these days the strenuous Roosevelt. He congratuinted the people upon the present prosperity. He said the subject of reform was a delicate topic to touch, but there was universal need for reform. The evil methods of politicians, he said,

the foundations of the Republican party laid them well.

The history of the Republican party is the history of arduous work, of defeats and Mictory in the progress of a mighty people, in the upbuilding of a great republic, the best free government in the history of the world. Its life covers an epoch in our National growth singularly rich in its fruits of National development. Its career has been instructive and inspiring. The Republican party has been fortunate, not only in the measures that it has enacted to promote the public affairs.

This is necessary order to give Japan a free hand in Corea. The open door here is guaranteed and the rights of all nations are recognized in much the same way as in the Russo-Japanese peace treaty. Otherwise the open door in China is assured, and, while taking every precauton to safeguard the interests of the contracting parties it is believed the agreement contains nothing which in any way interferes with the existing rights of other powers, but it is under stood to be framed to prevent attempts looking to the partition of China. Clauses two and three of the old whic either ally comes to the assistance of the other when attacked by any two powers when the Far Eastern interests of the powers are affected, are understood to be completely changed, so as to bring one ally to the assistance of the other even if tacked by one power. In this respect it is especially interesting to Europe as applicable to all of Asia up to the line crossing north and south through Per-sia as indicated by the 51st degree of longitude, which brings India within scope of this significant extension
