Not only Portland, but Oregon and the whole Northwest, will take part in the celebration when the City of Portland celebration when it the Lewis and Clurk ciaims her own at the Lewis and Clurk Exposition next Saturday. "We'll be there." In reference to Portland day, is being heard in every village and city in Oregon. Washington, Idaho and Califor-nia, and is spreading over the whole West.

West.
Several weeks ago a few of the bold
Exposition officials had the temerity to
predict that the attendance on Portland
day would reach the 100,000 mark, and not many people thought that it was even possible. But now even the most skeptical are inclined to believe that the admissions will total 100,000, and there are those who are predicting a greater at-

Enthusiasm Throughout Coast.

The outlook warrants seemingly rash The outlook warrants seemingly rash predictions for the success of Portland day. Never before has there been such enthusiasm aroused among the people of the Northwest over a coming event at the Lewis and Clark Exposition. Nearly all the cities interested in the Fair are working in a common effort to boost Portland day, and make it stand alone as an event untouched in the annals of as an event untouched in the annals of

expositions.

The many Portland firms are going to furnish their employes with lickets to the Exposition. Every day firms make applications for admission tickets, not passes, to present to their employes. Most of the working people of Portland, or a firm will be very large percentage of them, will be provided with tickets for their wives as

well as themselves.
The question is being asked as to whether Portland will be able to entertain all the strangers that will flock into this city on Portland day. No trouble is anticipated in this respect, as the Bose City has demonstrated this Summer that she can accommodate all who come.

Can Easily Handle Crowds.

The Exposition will experience no difficulty should the 100,000 mark be passed. The management has had no trouble in handling the crowds on previous "red-letter" days. To provide against any great congestion at the gates admission tickets have been placed on sale in many of the Portland stores. Those who find it ment to buy tickets before leaving the down-town districts for the Fair. The turnstiles can handle the crowds as fas

been practically decided to have only one pass gate at the Exposition on the big day, and it is thought that it is all that will be needed. The other pass gates will be converted into paid admis-sion gates. If there are any passholders n have declined to pay their way into Exposition on Portland day, they are few and far between and are keeping exulet about their determination

Fine Programme Arranged.

The programme that is being arranged for the greatest day in the history of the Northwest will surpass that even of the opening day. The day will open with a Cational salute of Il guns early in the morning. There has been so much speech making at the Pair that only brief exer-cises of this nature will be held. The ex-ercises will be held in the bandstand at the foot of Lakeview Terrace in the morning. There will also be an airship race in the morning between the Gelatine and the City of Portland.

In the afternoon there will be a magnifi-cent parade, the equal of which has never been witnessed in the West, which will be participated in by all the states and cities of importance on the Pacific Coast. The states and cities will be represented by beautiful and costly floats. Many othe features for this particular event are be ing planned. Following the parade of the states and eitles will come a full-dress re-

view of the Oregon National Guard. Japanese Day Fireworks.

All during the afternoon the visitors will be treated to Japanese day fireworks, which made such a hit on Japan day at the Exposition. The airships will also make flights in the afternoon, provided, of course, they get back from their morning

battle of Manila will be fought out etween the Americans and the Spaniards on Guild's Lake at night, which will sur-pass by far all of the other sham naval battles that have been produced at the Exposition. Not one or two as has usualbeen the case, but fully half a dozen tileships will be blown to pleces and burned in full view of the spectators. Besides the sham battle there will be a grand display of fireworks, which, like the other special events of Portland day, will be the greatest ever seen at the Ex-position. Many other events are being planned for the 100,000 or more visitors of Portland day, and will be announced later

Abigail Scott Duniway Day.

GOVERNOR PROCLAIMS PORTLAND DAY, SEPTEMBER 30, A LEGAL HOLIDAY, AND MAYOR URGES ITS OBSERVANCE

Governor Chamberlain yesterday issued the following proclamation, making Portland.day, Saturday, September 30, a legal holiday:

When the idea was first conceived of celebrating the 100th anniversary of the expedition of Lewis and Clark to the Northwest Country, there were many who predicted failure for so gigantic an enterprise, not a few who entered into the spirit of the undertaking doubted as to the result, and others whose zeal and enthusiasm as to the propriety of celebrating a great historical event, and at the same time exploiting the resources of that vast domain embraced within the limits of the Oregon Country, was so great that they eventually succeeded in arousing the pride and patriotic spirit of the whole Northwest. Not only the people of Oregon responded liberally to the call for aid, and through their Legislature appropriated \$450,000 to the enterprise, but the several counties of the state and the cities as well have contributed most generously in modey and in effort.

Animated by the same spirit, not only our sister states, whose interests are almost identical with those of Oregon, but many of the Eastern States, whose citizens had nothing to gain by participation in the Exposition, have done all in their power to make it a success. The expectations of our people have been more than realized, and the Exposition, which is now nearing its close, will go down in history as one of the most successful ever held in the United States. The citizens of Portland, besides giving generously of their time and money, have vied with each other in extending hospitality to the stranger within their gates. The whole of the Northwest has shared in the advantages which have accrued from the Lewis and Clark Exposition, the beneficial effect of which is already beginning to be felt by addition to population and wealth.

It is proposed to make one strenuous effort to bring together not only the people of the state, but of the adjoining states as well, on the 30th day of September, which has been designated by the Exposition management as Portland day. In order that every facility may be given to the people of our own state to assist in holding a reunion on the day so designated,

I, George E. Chamberlain, as Governor of the State of Oregon, by virtue of the power and authority in me vested, do proclaim Saturday, the 30th day of September, 1965, a legal holiday, and I do earnestly request all of the people of the state to lay aside their ordinary vocations, and to repair to the Exposition for the purpose of enjoying a day of rest, the renewal of old acquaintances, and the discussion of those matters and things which will tend to the greater advancement of the magnificent commonwealth in which we live,

In testimony whereof I have hereunto subscribed my name as Governor of the State of Oregon, at the Capitol in the City of Salem, and have caused the great seal of the state to be affixed this 23d day of September, A. D., 1905.

GEORGE E. CHAMBERLAIN, Governor.

MAYOR LANE ISSUED THE FOLLOWING PROCLAMATION:

To the People of the City of Portland-Greeting: Whereas, Saturday, September 30, has been named as "Portland day" by the managers of the Lewis and Clark Exposition, now being held in this

Whereas, The same day has been declared a legal holiday by His Excellency George E. Chamberlain, Governor of Oregon, for the purpose of celebrating "Portland day" at said Exposition, and Whereas, The City of Portland has gained much profit to itself, and great credit in the eyes of the many thousands of visitors from all over the world, who have attended this Exposition, it is but due to our honor and good name, and further to show our appreciation of the liberal aid given the Exposition by the general Government, the several states and our own State of Oregon, which have contributed to largely to render the Exposition a success, that the people of the City of Portland should personally and collectively exert every effort in their power to make "Portland day" a pronounced

Therefore, and to this end, I urge the cordial efforts and good will of all residents of this city toward making a full and complete observance of September 30, as "Portland day." HARRY LANE, Mayor.

ALASKA AT THE FAIR

F. I. DUNBAR, Secretary of State.

AN ELABORATE PROGRAMME

Prominent Speakers Will Deliver Addresses and Gold Nuggets Will Be Distributed as Souvenirs to Visitors.

The Exposition management has for-matly designated Thursday, September 28, as Alaska day. Einborate prepar-ations are making for a memorable celebration of the occasion. The arrengements are in charge of W. A. Kelly, the Executive Commissioner of Alaska, who represents Governor Brady: J. J. Underwood, commissioner from Nome, and Will A. Steel, commis-

aioner from Scattle.
It is expected, that hundreds of miners, returning from the golden North, as well as a big representation from Seattle and Paget Sound cities, will be present to exploit the advan-tages and opportunities of the rich and vast Alaskan country. As the preced-ing day will be known as Washington day it is expected that several thou-

sand visite's from the Evergreen
State will be on hand to shout the
glories of Alaska.

There will be some interesting features in the way of souvenirs. Mr. Underwood is arranging to gather gold nuggets from the various mining sec-tions of Alaska. These will be given away to visitors The old-time ex plorer and guide, L. L. Baies, has also 1100 rabbits' feet. Pinned to an Alaskan budge these omens of good luck will be dispensed during the day from the Alaska exhibit in the Govriment building.

The principal speaker was Clinton N. Howard, who delivered an eloquent and attring address on intemperance. He said that the liquor traffic would eventual. by be abolished absolutely, and that many of the people present would live to see that day. Dr. Howard is a brilliant orator, and his addresses, characteristic of him alone, have been termed "temperance whirtwinds." He made a long speech, and aroused considerable enthusiasm.

The other speakers were J. Glass, of California; Charles R. Jones, I. H. Amos and Mrs. Henrietta Brown, of Albany. Mr. Amos in his address spoke on the evils of cigarette smoking. He called cigarettes little devils, dressed in white Belative to the recent statements against the liquor habit, and "save the was the spirit of the meeting.

SCHOOL OPENS TOMORROW

Attendance Is Expected to Reach Twenty-Five Thousand.

When the public schools of this city when the public schools of this city open tomorrow morning, it is expected that they will show an initial attendance of fully 25,000 pupils. The last school census indicated that there were that number of children in Portland between the ages of 5 and 15, and it is thought several thousand have since between the ages of 5 and 15, and 15 thought several thousand have since been added. Making all due allow ances, it is thought that 25,000 is a conservative estimate of the number who will answer rollcall.

In any event, the seating capacity of the local educational institutions has never before been taxed as it is this term. There have been overflows in all directions, and upon several oc-casions it has been found necessary to place portable buildings at the dis-posal of different districts. Two rooms in the Atkinson school have likewise been fitted up to accommodate the overflow from the High School, and the officials of the department are put to extremes in providing for the greatly increased attendance.

Gets Her Insurance

In May, 1905, Was Dying of Bright's Dis-case in the Anburn, N. Y., Hospital. In July, 1904, Accepted for Life Insurance. The Fuiton Compound Effected the Change.

The following facts ought to profoundly interest thoughtful people all over the world. In May, 1902, Mrs. Lester Bell, a graduate nurse from the Syracuse, N. Y., hospital for women and children, lay dying of Bright's Disease in the Auburn Hospital. Pulse was 190—she was so swollen with dropsy could not get her hands to her face—skin so tense would scream if touched—albumen was enormous—nearly 80 per cent by bulk, solidifying in the tube. The physicians and nurses looked for death hourly.

She was at that critical moment put on Fulton's Benal Compound. In 28 hours pulse dropped from 150 to 127 and to the great astonishment of the physicians and nurses she began to brighten up.

The tenth day the urine jumped to 84 ounces and the dropsy began to subside. In the days the albumen was reduced to 2 per cent and the patient was out riding.

The recovery was astounding. Realizing that the facts would be questioned, we asked that they be authenticated. The affidavits of all the parties duly sworn to before A. P. Lamey, Notary Public of Cayuga county, were sent us and hore the signatures of:

MRS. R. LESTER BELL, the Patient. THOS. J. BELLA, her Father-In-Law. And M. L. WALLEY, the Druggist.
