CORVALLIS, Or., Oct. 7.—(Special.)—In halves of 25 and 20 minutes respectively, the Oregon Agraria defeated the Chemawa eleven at football here this afternoon, by a score of 18 to 0.

The call of time in the second half saved the visitors from another touchdown, for the collegians were fast driving them back with a resumption of the fast offense with which the game was opened.

Most of the yardage made by the Agraria was by line bucking with Abraham, Root, Williams, Dolan and Lawrence carrying the ball.

A feature of the game was the work of the ends and backs of the Chemawas. The whole line in fact is much strengthened over last season, one of the new additions being Shouckuk from Carlisle.

Chemawa Position O. A. C. Foster, McCully, L. E. Cooper, Rumbaugh, Williams, R. E. G. Little, McKinnon and Walker.

Weighty Professional Indorsements

That the several American medicinal roots, the concentrated glyceric extracts of which make up Dr. Pierce's Golden Medical Discovery, have the strongest kind of indorsement by scores of leading medical writers of all the several schools of practice, a brief glance at the standard works on Materia Medica will show.

Dr. Grover, Coe, of New York, says: "Hydrastis (Golden Seal root) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases.

Dr. Walker, of New York, says: "The medicinal value of the Golden Seal root is well known to all who are conversant with the materia medica. It is one of the most reliable agents of cure." Professor Hobart A. Hare, M. D., of the University of Pa., says of Golden Seal root that it is "of service in chronic catarrh of the stomach and bowels, following abuse of alcohol, and as a tonic after malarial fever."

Dr. Barton and Tully recommended Golden Seal root as a pure tonic and as an alternative in diseased conditions of the mucous membranes. Professor John King, M. D., late of Cincinnati, author of the American Dispensatory, gives it a prominent place among medicinal agents, recommending it for chronic dyspepsia.

Dr. Scudder, M. D., late of Cincinnati, Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means the blood is enriched, and the consequent improvement on the glandular and nervous systems are natural results." Dr. Scudder further says, "In relation to its general effect upon the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states."
