

CURE FOR THE PLAGUE

Von Behring Discovers New Method of Cure.

SUCCEEDS WITH ANIMALS

Scientist Who Found Cure for Diphtheria Learns How to Cure Tuberculosis—Sure of Effect on Humans.

PARIS, Oct. 7.—At the closing of the International Tuberculosis Convention today, Professor von Behring made a statement relative to his new curative principle for tuberculosis.

In the course of the last two years I recognized with certainty the existence of a curative principle completely different from the anti-toxin principle.

Professor von Behring then gave a lengthy technical description of how "T. C." was introduced into the cellular organism and said it had already given marked results in the treatment of animals.

It was decided to hold the next congress in Washington in 1908. The American delegates were interested listeners to the statements.

MAKES ANIMALS IMMUNE.

Von Behring Will Now Try His Cure on Human Beings.

NEW YORK, Oct. 7.—Whatever may be the practical value of Dr. von Behring's new treatment of tuberculosis, the Matin's announcement of his discovery has created a sensation, both in scientific circles and with the general public.

TRAGEDY OF DIRTY KNIFE

German Husband's Practical Lesson to Wife in Cleanliness.

BERLIN, Oct. 7.—(Special.)—A tragedy growing out of a trivial cause, which in itself teaches a lesson to housewives not to be slovenly in caring for their homes unless prepared to meet the wrath which their neglect of household duties is apt to arouse in fastidious husbands, is now attracting some attention here.
