AGREES WITH CZAR

President Accepts Invitation to Peace Congress.

CZAR TO PLAN DETAILS

Russian Monarch's Call for Hague Conference Enthusiastically Welcomed—Nicholas to Draw Up the Programme.

WASHINGTON, Oct. 14.—(Special.)—The formal invitation of the Czar for a second international peace conference and the President's reply thereto were made public today. The President cordially accepts the invitation on behalf of the United States, and expresses the hope that the conference will result in the nations of the earth being brought closer together. The following is the text of the Czar's note to the President:

The President's reply, after reciting the substance of the Czar's invitation, says: The Secretary of State, by direction of the President, has the honor to confirm to His Excellency, the Ambassador, the assurance that the President had the sincere pleasure to give to His Excellency at the time of the presentation of the memorandum of September 13. The President's circular to the powers party to the acts of the Hague Conference, which the late Secretary of State communicated to the several signatories through the envoys accredited thereto, dated respectively October 21 and December 16 of last year, have demonstrated the President's keen desire that upon a favorable occasion the labor of the first International Peace Conference might be supplemented and completed by an accord to be reached by a second conference of the powers.

The President most enthusiastically welcomes the offer of His Imperial Majesty to convene a second international peace conference. The President's circular to the powers party to the acts of the Hague Conference, which the late Secretary of State communicated to the several signatories through the envoys accredited thereto, dated respectively October 21 and December 16 of last year, have demonstrated the President's keen desire that upon a favorable occasion the labor of the first International Peace Conference might be supplemented and completed by an accord to be reached by a second conference of the powers.

MAY MAKE SOME CHANGES.

Roosevelt, Taft and Root Discuss Affairs of Government.

WASHINGTON, Oct. 14.—Secretaries Root and Taft were in conference with the President at the White House today. A part of the time was devoted by the President and Secretary Root to discussing changes in the diplomatic and consular service. Three matters out of the way, the three officials talked over the forthcoming trip of the President through the South and of Mr. Taft to Panama, with particular reference to the things made necessary to be done by Secretary Root in his absence. It was said tonight that the visit of Secretary Taft to Panama involves many questions of importance to be decided upon and that the conference was arranged for that purpose, but no intimation was given as to any of the details of the discussion.

Cholera Dead in Philippines.

WASHINGTON, Oct. 14.—Reports having reached the War Department through Manila papers of an outbreak of cholera in the Philippines, Secretary Taft cabled Governor Wright today for a statement of conditions. The following reply was received: Cholera has practically disappeared. From August 3 to date there have been 73 cases and 562 deaths, distributed as follows: Province of Bulacan, 2 cases, 2 deaths; Province of Cavite, 12 cases, 12 deaths; Province of Pampanga, 3 cases, 1 death; Province of Bataan, 2 cases, 2 deaths; Province of Laguna, 24 cases, 24 deaths; Manila—Americans, 11 cases, 4 deaths; foreigners, 13 cases, 13 deaths; Chinese, 4 cases, 4 deaths.

Negro Succeeds Minister Powell.

WASHINGTON, Oct. 14.—The resignation of William F. Powell as United States Minister to Hayti has been submitted to the President and accepted. As his successor the President has determined upon Dr. H. W. Furness, of Indianapolis, a prominent negro. Dr. Furness is the present Consul to Bahia, Brazil. He will assume his duties as Minister to Hayti about November 15.

Wade at Young's Court-Martial.

MARE ISLAND, Cal., Oct. 14.—(Special.)—The appearance at the administration building for the first time of Ensign Charles G. Wade, of the Bennington, who is expected to be an important witness,

was the only matter of interest in the morning session of the Young court-martial, which dragged wearily on with Lieutenant-Commander Bartlett still under cross-examination by the defense. Mr. Wade was not admitted to the courtroom, but was the center of a group of officers in the ante-room. His appearance gives the indication of the critical condition which he was recently in as a result of an operation for gangrenous appendicitis.

Taft Will Visit Panama.

WASHINGTON, Oct. 14.—Secretary Taft may time his intended visit to the Isthmus to be there November 4, the date of the anniversary of the separation of Panama from Colombia. This date is to be celebrated as a National holiday and a special and urgent invitation has been extended to the Secretary and Mrs. Taft to participate in the celebration. Colonel Edwards, chief of office of the Panama Canal Commission, will go to the Isthmus with Secretary Taft. Arrangements are being made to sail from New Orleans on a naval vessel on the 27th or 28th of this month. This arrangement will depend on the quarantine conditions at that time.

Good Cause for Cuban Discontent.

WASHINGTON, Oct. 14.—Information from Cuba that there is a growing dissatisfaction there at the terms of the proposed Anglo-Cuban treaty has developed here the fact that the Washington Government thoroughly appreciates the reasons for the Cuban discontent. The treaty is distinctly disadvantageous to Cuba in that it precludes that country from renewing with the United States the reciprocity treaty, which is effective only for five years, and gives practically no benefits to Cuba.

DRYDEN ASKS QUESTIONS

ISSUES CIRCULAR ON FEDERAL INSURANCE BILL.

Senator Seeks Opinions of All Interests on Vital Issue—Beckham Answers Lawson.

NEW YORK, Oct. 14.—For the purpose of securing a comprehensive expression of public opinion on the question of National control of life insurance, United States Senator John Dryden has sent out many copies of the following circular letter with an appended list of questions to be answered: In his last annual message President Roosevelt called the attention of Congress to the necessity for Federal legislation providing for the regulation and control of insurance companies transacting state and international business. In compliance with an increasing demand from insurance policyholders and others interested in the public welfare, I introduced into the last Congress a bill to that effect, providing that there should be established within the Bureau of Corporations a division of insurance, and that policies of insurance were deemed to be articles of commerce and instrumentalities thereof. The bill was introduced too late to secure final consideration, but the demand for such a measure has become even more apparent in the meantime, and I expect to reintroduce the same, possibly with slight modifications, into the Congress which is to meet in December.

The bill will be introduced in behalf of the policyholders of all American insurance companies in the firm belief that their present and future interests demand the additional protection of a Federal statute regulating insurance transactions between the states. In addition, of course, to such supervision and regulation, it is constitutionally incumbent upon states from which the companies derive their charters; furthermore, that by eliminating a considerable amount of needless state supervision the following important benefits are expected to result: First—An increase in the security of the policyholders. Second—A decrease in the expense rate and the cost of insurance. Third—A decrease in the burden of needless taxation. Fourth—A decrease in the amount of clerical labor now indispensable to meet the requirements of some 50 states and territories. Fifth—The stamping out of fraudulent insurance enterprises. Sixth—Adequate National protection for American companies transacting business in foreign countries.

DISCLOSURES ARE ASTOUNDING

New York Life and Mutual May Be Barred From Texas.

HOUSTON, Tex., Oct. 14.—Insurance Commissioner Clay, who has just returned from New York, where he attended the legislative life insurance investigation, filed his report with Governor Lanham at Austin this morning. In part he says: "I do not believe the necessary action at present for revoking the permits to do business in Texas of the Mutual, the Equitable and the New York Life Insurance Companies, as I am led to believe each is fully solvent. However, I have no means of knowing what the investigation may yet reveal. The disclosures are most astounding and reveal a shameless and prodigious exploitation of funds. It appears that the administration has been of personal gain and reckless and shameless prostitution of the trust reposed in the officers. I would recommend that the policyholders be warned and every effort made to bring them to a proper appreciation of their responsibility. These companies are mutual; all their assets belong to the policyholders, and they should bring all pressure to bear to force a reorganization of the companies, prosecution of the officers guilty of maladministration and a restitution of the funds that have been so outrageously and shamelessly dissipated. Commissioner Clay threatens that unless a reorganization is forced, the New York Life and the Mutual will be barred from Texas at the expiration of their licenses, December 31.

Wants Mutual Reserve Debarred.

BALTIMORE, Oct. 14.—A petition alleging illegal and fraudulent methods of business was filed today with Frank L. Duncan, State Insurance Commissioner, in behalf of the late Dr. Elias C. Price by Attorney Barrett and Merriman, asking that the Mutual Reserve Life Insurance Company of New York be debarred from doing business in Maryland. In the petition it is stated that company is the legal successor of the Mutual Reserve Fund Life Association, of New York, whose license was revoked by Commissioner Lloyd Wilkinson.

HEMERY IS WINNER

Automobile Race Ends in Victory for France.

NONE OF RIDERS KILLED

One Machine Hits Telephone-Pole, Another Rolls Machine Over on Ground—Wild Excitement at Finish.

NEW YORK, Oct. 14.—In a driving finish, with the next man only a few seconds behind him, Auguste Hemery, of the team of French automobile racers, won the race for the W. K. Vanderbilt, Jr., cup, over the Long Island course today. Hemery made the distance of 253 miles in 274 minutes and 32 seconds. George Heath, the American, driving a French car, was second, while Tracy, another American, but not of the French team, was third, and Lancia, of the Italian team, fourth. Hemery won from Heath by three minutes 32 seconds elapsed time. Time at the finish:

Table with 3 columns: Driver, Time, Elapsed time. Hemery 19:32:08, 4:28:08; Heath 19:32:49, 4:29:49; Tracy 19:32:53, 4:30:23; Lancia 19:33:31, 4:31:01

This was the second race for the Vanderbilt cup, but the event was marked by no serious accidents, as was that of the first. The winner, George Heath, in 1904 ran 300 miles in five hours, 25 minutes, 45 seconds.

Italian Becomes Excited.

When Tracy had crossed the finish-line today the race was stopped. Lancia, instead of continuing down the course, drove up to the grandstand and began to gesticulate wildly to the officials of the course. The crowd poured over on the course to begin their departure, and after a time Lancia started his car again and the crowd fell back as the pistol-like reports of the exhaust cracked and the sides of the machine belched flame and smoke. It was thought that Lancia had entered a protest because of a collision he had with Christie. But no protest was made. Lancia smilingly saying to the newspapermen he had none to make.

The first car was started promptly at 6 o'clock this morning, and the others were sent away at one-minute intervals. Jenatton, of the German team, was the first away, and during the earlier rounds of the course he was the favorite. He was delayed, however, for a half hour or more at Bullhead Corner by the breaking of his chain on the third lap, and was unable to stand the rack and tear which the sharp Bullhead turn throws upon a machine unless taken at a moderate speed. Jenatton skidded around at a speed which caused his car to rest on two wheels. Just as it had settled down, however, a mistake was made, and Jenatton's chain was lashing about. The car was rushed into a repair station, where haste was made to repair the damage.

A Few "Minor Accidents."

In the meantime Lancia was reeling off the miles and had taken a great lead, which he maintained until his collision with Christie. Foxhall P. Keene met a mishap early in the race, that compelled his withdrawal. Keene was reported at the grandstand to have run into a telephone pole, smashing his car. There was a great commotion over this report, and a call for physicians was made, but Mr. Keene himself telephoned to the stand that he was uninjured, but would be unable to continue in the race.

Another minor accident that caused some apprehension was the report of Lyttle's losing his mechanic. Tattersall's car, which was passing through a piece of woods on the back of the course, W. K. Vanderbilt, Jr., jumped into his racing machine and sped back over the course to pick Tattersall up. A moment later the mechanic had been fixing some of the car's machinery, and was leaning well forward, and at a sharp turn he was hurled over the side of the car. He was found, much scratched and bruised, but no bones were broken. These were the most serious of the day's accidents, and gave the crowd its thrills.

Hemery's Exciting Finish.

Hemery, of the French team, in the meantime had come well to the front, and from the seventh round on to the end there was pretty racing between him and Heath. Going through the starting-point on the ninth round, Hemery led Heath by two seconds. As the pair passed the grandstand, the mighty auto went up. Lancia was making a stiff race for the others, but Hemery and Heath had too big a lead on him. The spectators were watching, fighting for the lead. The fact that Hemery started three minutes later than Heath seemed at this point, barring accidents, to make the race sure-ly his. Hemery passed Hyde Park ahead of Heath. Now everyone leaned over the stands and strained his eyes down the road for the first glimpse of the winner. Hemery was the first to cross the line. The occupants of the stands held their breath until the cars flew through. Scarcely a breath sounded until they were well down the road. Then the spectators shouted themselves hoarse. Dingley went through on his fifth lap and Warden on his sixth. The fight for the third place was between Tracy, of the Americans, and Lancia. Tracy got third place. Not the least enthusiastic person among the men on the course was W. K. Vanderbilt, Jr., the donor of the cup. "A hot ride, well run and well won," he said. Hemery.

CAUGHT WIFE WITH TRAP

Judge Holds Husband Can Put Trap in Pocket to Guard Coin.

BUFFALO, N. Y., Oct. 14.—A husband has a right to keep a rat trap in his trousers pocket, according to a ruling made here by Police Justice Rochford. The man who did this was Joseph Shultz. He was arrested on his wife's complaint that her hand had been injured by the trap when she went to take money from Shultz's pocket while he was asleep. Justice Rochford ruled that Shultz could keep a rat trap in every one of his pockets to protect his money if he wished to do so. He discharged the prisoner.
