demand in that quarter will soon open up a steady market, with continued buying no telling what the quality

brought to light by late samples received. sed that the growers had been ld make an effort to keep up Oregon's on for clean picked hope, but the ad-

will redound to the advantage of to move. The following

true interests of all concerned these uid not have been picked. Their sale at or Soc can only bring errious loss to e producer, and their existence must tend debase the general tone of the trade. It very evident that sound, colory, will-man-ed samples are comparatively scarce. Such allties are no sooner exposed for sale than by are taken up by buyers, and, doubless, the market could by any exposes to element

rust that planters of all grades will now careuilly consider the situation, taking into acount the abundant growths of America and
he Continent, and decide to limit their outuit by any legitimate means, unless indeed,
hey can guarantee that the whole of their
rop is first-class in quality and color. It is
uily by such methods that I can see the poslibitity of any definite improvement in our
rade. At present there is practically no
oreign competition, as prices, abroad are
hove our own. There is, therefore, room
or substantial advancement at home, and
ise action on our part will enable us to
enefit by it.

erce of October 20, improvement is already hand in the foreign trade. That paper a: "Cable advices from London reported

sport firm markets with an advancing tel-lency to prices. Reports from Sonoma re-orted up to 12%c paid for prime hops, and nated that some of the larger growers were eithdrawing as sellers from the market. Fair ales were being made in Oregon and Washigton at 15c for choice hops.

BUTTER MARKET WEAK.

MARKET WEAKENED BY SALES BY TIMID HOLDERS.

Wheat Speculation at San Francisc Takes a Stronger Turn-New Crop Grapefruit Arrives.

SAN FRANCISCO, Cal., Oct. 14.—(Special.)
—California cured fruits are generally quiet. Prices for most lines are unchanged. Evaporated apples show firmness. Prunes are easier, gwing to the temperary lack of orders having caused sales by timid holders. Quotations are generally about the lower, at \$25 to now being the basis for intermediate sizes, with a premium of the on very large and small sizes. Few old prunes remain, but prices are easier in proportion with the new crop. The recent new prices for raising named by the association are not leading to many confirmations. About half this crop is offered outside of the association.

guet and steady. Feedstuffs and hay are firm.

The first new crop grapefruit of the season arrived and sold for \$4. Grapes generally were weaker under heavy receipts. Apples were depressed. Tropical fruits were firm. In the potato market only fancy Salinas show firmness. Onlons are strong. Hops are in fair demand and steady. Dressed turkeys are quoted at 25@27% for best offerings.

Dairy products are very firm. Receipts. 22,300 pounds of butter, 47,000 pounds of cheese and 18,400 dozen eggs. The dairy exchange is expected to start next Wednesday.

Cause of Decline in Stock Speculation.

REVIVAL TO COME LATER

Only Slight Changes Made in Prices During the Week-Industrial and Agricultural Reports Are All Satisfactory.

NEW YORK, Oct. 14 .- (Special.) - A cor arison of stock exchange prices shows little sange from a week ago. Between the cluse of business last Saturday and the close today there have been times when the market seemed weak and when liquidation of cobalderable proportions seemed to be under way. But the set result, taking the regularly active stocks, some fractionally up and some fraction-ly down, the general average remaining out the same at the end of the period as at a beginning. The significance of this record is, of course, that it has been made in the face of conditions and incidents admittedly discouraging to speculation for the rise. There are elements of possible weakness in the market now, as there are at all times. No doubt the position of certain pools, especially in stocks that have had a rapid and emanational rise is over to corre relegious. ernsational rise, is open to some misgivings. The liquidation that has come from these sources on one or two occasions this week may and quite likely will be repeated. But the point deserving emphasis is that this clam of operators who are carrying a large committment on borrowed capital is a rela-tively small faction in the present market. The financial situation, as every observer can see, wholly lacks essential points of weak-ness. Money is etiff, not because specula-tion has been overactive, but because a great business expansion and an uncomm sive crop-moving has for the time being presend hard upon our surplus capital. In this delicate position it would assuredly be most unwise to tax the community's credit recourses with a fresh speculation. But the money market condition not having been prought about by excessive speculation, does not require apeculative liquidation for its rem-edy. All that seems to be needed is a period of quiet living until the crop-moving is over and currency begins to work backward from

boildings in the confidence that the future promises higher values when temporary exigencies in the money market are once met. Something like a calill of apprehension pervaded the financial district when it first became known that Vice-President Vanderlip of the National Bank had said to his fellow bankers in convention at Washington that "Should a stock market speculation start from the present light level of prices in the face of the extraordinary demand for money and capital which trops and business alike are making, the result might easily be temporary disaster." The sentiment so exactly coincided with the misgivings which had been growing in the minds of stock operators that the immediate effect was to throw the market into some disorder. Quieter conditions were restored when the optimistic renor of the address as a whole was studied and when the National City Bank appeared in the market as a large lender of call money and stocks regarded as favorable with that group of capitalists were seen to be supported. Naturally, however, speculative operations for an advance were greatly curtailed.

The course of the money market during

operations for an advance were greatly curtailed.

The course of the money market during the week has reinforced the counsel of caution in speculative extension. The Bank of England cefrained from advancing its discount rate and it was reported that the Hank of France was parting with gold for Egypt to relieve the large drain on the London money market. Foreign exchange in this market moved away from the gold import point in response to the higher money rates abroad. Rumors were circulated of an intended redeposit in National hanks of a portion of the Government surplus, but these falled of official confirmation. Time money rates and interest on commercial credits moved upward and there was some calling of loans at the stock exchange.

Honds moved narrowly on a slight volume of business. United States 2s declined is while the new 4s coupon advanced is and the new 4s registered in per cent on call.

The bank statement proved an enigma again today, as has come to be expected, owing to the large share in banking operations by institutions certific the cheest contract of the destination of the destinat the large share in banking operations b

passive on the appearance of the bank state-ment. Fluctuations were feeble, with the clos-ing case at small declines. The attendance at the stock exchange was small, owing to the large number of absentees at the

crease in leans of \$29,456,600 makes a record, with the exception of the reduction for the first week of September. Reskyments of temporary borrowings by the City of New York with the proceeds of the yearly tax payments figure in the showing. It is believed also that out-of-town institutions have made loans during the week in displacement of the New York bank loans. Loans by local trust companies are believed to have played a small part in the results and the recent lending of foreign funds has also come to a stop. The stock market has indicated some liquidation during the week, but nothing like the figure reported in the hank statement. Preliminary estimates of the eash chages, based on figure estimates of the cash chauge, based on fig-ures supplied by the barks, have promised an increase of about \$1.600,000 while the bank statement shows an actual increase of \$2.250. 800. No explanation is offered for the dis crepancy except as it may represent a rectification of previous statements, which have shown unexpected growth in the cash reserves. The foreign exchange market was unusually strong for a Saturday, and it was reported that the active demand for bills is due to buying to cover maturities of former sterling leans. Other large maturities of the cover maturities of th

at Paris and at London. The international prossure for gold is shown to be fully main tained by these developments.

Total sale of bonds, par value, \$2,012,000. CLOSING STOCK QUOTATIONS.

NEW YORK BANK STATEMENT SHOWS DECREASE IN CASH.

Estimates of the Movement of Money During the Week Indiented Gnins.

NEW YORK, Oct. 14.-The Financier says. The official statement of the New York Associated Banks last week showed a decrease in cash that failed to correspond with the change in this item, which was estimated n money, the latter indicating more or less important gains. There was a decided con-traction in foans and a material decrease in deposits and consequently in reserve requirements, which resulted in an important gain in the surplus reserve. One notable feature was an excess of \$4,120,700 in the total of loans compared with deposits.

The cash loss was \$2,150,500. This was surprising, because the preliminary esti-mates showed a gain on the interbank movement and the receipts of gold from abroad contributed to an augmentation of the bank cash. The discrepancy may have been due the foreign gold was not made until Friday and, therefore, only one-sixth of the sum was counted in the statement. Deposits were reduced \$33,104,100, and reserve requirements were decreased \$8,276,025. Deducting therefrom the \$2,350,800 loss of cash as above, leaves \$5,025,225 as the increase in surplus reserve to \$10,211,400. Computed upon the basis of deposits less those of \$8,473,700 public funds, the surplus

Loans were decreased \$29,456,600, making the contraction since August 5, \$115,889,400. In this interval cash has been reduced \$40,-647,250 and deposits \$173,587,300.

Chicago Wheat Prices Soar and Then Fall Back.

TRADING IS VERY HEAVY

Advance Carried Along by Active Buying for Speculator, Withdrawal of Whose Support Causes a Bad Break.

*CHICAGO, Oct. 14.—Influenced by speculative operations of a large scale, the wheat market was a "akyrocket" affair today, going rapidly up and then dropping back. The close showed a loss of 188/185/c for December. Corn is down igc. Oats closed i/o off. Provisions are off 25/85c.

Heaviness in wheat at the start vanished before brisk buying, led by brokers for a prominent grain operator who for a time absorbed all offerings. December opened a shade lower to a shade higher at 855/88505/c and was bid up to 865/c. The buying was on a very liberal basis and estimated in the aggregate at 1,000,000 bushels. The market assumed every appearance of builishness, alsumed every appearance of bullishness, although the news was not of an influentia character. While the bullishness was in full swing, the leader in the buying movement withdrew his support and simultane susty carne reports from the Northwest that liquids was in progress for the same operator. The early buyers began unloading and a break in prices resulted. The December option declined to 85%,485%; under the pressure. Sufficient buying orders at the decline were filled to advance December a shade from the bottom, the close being easy at 85%c.

Trading in corn was lifeless, but the market had a firm undertone. December started unchanged to a shade higher at 44%c to 44%@4 441cc, became firm at 441cc with the upturn in wheat, but declined later and closed at the bottom price for the day, 441cc.

December closed at 25%c after ranging be-tween 25%c and 25%c. Holders of deferred options in provisions showed a disposition to sell at the start, but offerings were readily taken by prominent speculators and the market beld firm at a small decline. January pork closed 745c down, lard was 5c off and ribs were 25,65c lower. The leading futures ranged as follows:

Oats were firm at a slightly lower range.

WHEAT. CORN. .43% .43% .50% .50% .45% .45% .44% .44% OATS. MESS PORK. .10.75 16.85 15.75 .12.57% 12.62% 12.55 LARD.
