This action was taken in response to a general demand for fire protection beyond what is now afforded by the volunteer company, which has a hose and bucket and ladder truck.

SHOT IN THE ELBOW.—Mrs. Rudy, living at 84 Grand avenue north, was shot in the elbow Friday evening, causing a painful but not serious injury. It is a rather singular affair. Joe Kidlow and Henry Shippelott, boys living in Upper Albina, placed a cartridge on the street-car track on Union avenue, near Felling street. Mrs. Rudy was passing along the street opposite the place where the cartridge was placed as the street-car came along. The cartridge exploded when struck by the car-wheel, and the bullet struck the woman on the elbow. The boys did not expect any such result. They will explain to the Juvenile Court how it all happened.

Mrs. Coburn, while talking of both, dwelt especially upon the works of Alice Carey, reading many quaint and appropriate selections in order to better illustrate her conception of the wonderful women. At this same meeting preliminary arrangements were made for the annual bazaar which the alliance has made so famous, to take place on the second week in December.

PIANOS
From the moderate-priced instruments to those that the greatest artists use for their concert work, you find them all at Meyer's. My new method of doing business enables me to make prices such as you can not duplicate, even in the East. Pianos selling at other places for \$250.00 go here for \$125.00, and the best \$500.00 piano sells for \$350.00. Are you justified in paying more, if you can have the very best here at that figure? Ample capital enables me to give terms to suit everybody. Last month 30 pianos were sold without any assistance of salesman! Can any other house show such results? You will see the cause of this if you examine my pianos and get my prices.

TEETH No Pain
The Demand Increases
Every year the demand for HIGH-GRADE pianos increases. The selling of cheap and unreliable pianos by some dealers (just because they can make more profit on that class of goods) makes it all the better in the end for those of us who handle only strictly high-grade and reliable pianos. Better, for the reason that it does not take long for people to learn that to buy a piano that will last but a few years is as "throwing money away."
