

WILL RAGES BLEED?

Blood of World May Run in American Veins.

BISHOP HAMILTON SAYS SO

Methodist Divine Startles Washington Hearers by Declaring Future Americans Will Spring From Universal Miscegenation.

WASHINGTON, Oct. 28.—Will the future American, the stalwart civilized human being in its most advanced and most intelligent type be a composite man in which are blended the Ethiopian, the Slav, the Jew, the Mongol and the Anglo-Saxon? This is the view of Bishop John William Hamilton, of San Francisco. He has expounded his belief from the rostrum for the thought and discussion of the synod of Methodist bishops in convention here today and his announcement is likely to cause the keenest and bitterest controversy in every section of the land where his words are made known. It comes at a time when the Chinese problem and the negro problem hold the attention of the Nation; at a time when there is a propaganda against miscegenation, a crime in many states, and letting down the bars of society and the political campaign of Maryland, states are considering the advisability of disfranchising the negro of the right of suffrage and when Congress is about to consider the passage of the Administration for a more liberal interpretation of the Chinese exclusion act and perhaps the passage of an act to supersede the present one.

Bishop Hamilton's Views.

The bishop said: "Over in Maryland some cheap politicians are trying to solve the race problem, so-called, by turning its difficulties out of their path. They are trying to deprive men of their God-given rights. It is God's plan. What account does he take of the prejudices and follies of foolish men? In time they will be wiped away and the American of the future will have become the composite type of all the races of the earth."

An Instance Is Cited.

"The other day in my old home in Boston, a lady rose from her seat in a street-car and spoke to me. After a moment I recognized in her the daughter of a Boston girl and a Chinese, both of whom had been members of my congregation many years ago. This is 'Lizzie Black' I said.

God Knows No Color.

He continued: "What does God care for the color of a man's face? I want to say to you that the typical American is to be born of the amalgamation of all the races that now inhabit this continent, the highest as well as the lowest, the most honored as well as the most despised. You who listen to me tonight many of you very proud, no doubt, of the Anglo-Saxon blood in your veins, will be the grandparents or at any rate the great-grandparents of men and women partly Chinese and Japanese and Russian, Jew, Southern Europe and dusky African."

HEARST MAY BE MAYOR

(Continued From Page 1.)

speeches are really models of brevity and to the point. They can be described as two parts Municipal Ownership, four parts Gas and one part "Murphy is a grafter and a thief." These ingredients are well shaken and administered in half-hour doses with remarkable results. Voters cry for them. A cure guaranteed in every case.

The other effective orator in the Hearst campaign is Clarence J. Shearn, Mr. Hearst's personal counsel, who is the candidate for District Attorney. He affects the personal yip-squeak style, and it makes a great hit with the league audiences. His pet son not refers to John T. Oakley, Commissioner of Gas, Electricity and Water Supply. Oakley extended great favors to the Consolidated Gas Company and it is said he was financially rewarded for it. Here is the way Shearn puts it:

"A lawyer of the Gas trust was asked if Oakley had been paid for betraying the city. He replied: 'He was paid, and more than that, he was a hog.'"

This never fails to bring down the house.

John Ford, candidate for Controller, delivers a dreary monologue on rent (it never changes), and J. G. Phelps Stokes talks, although no human being has ever been able to understand what he is "bubbling" about.

Tammany View of Outlook.

An old-time Tammany leader tersely described the situation from the viewpoint of the Tiger. In these words: "If the election was held today, Hearst would receive an enormous vote, but we are whitening away at his following day by day, and believe we will be able to hold him in check. Many a man who is talking about the election today will be in line for McClellan when the time comes to vote. The Hearst strength is a mob; we are a disciplined army. They are taking straw ballots, while we are hard at work on the real business of practical campaigning. Every election district captain will have \$500 on election day. Some of them will have more. There is absolutely no limit to the money we will give out.

A big vote is going to be cast for Hearst, but how does he know it will be counted? Half the election officials will be McClellan Democrats and the other half Odell Republicans. No Hearst men

WITTE IS TRUSTEE

(Continued From Page 1.)

Daylight will probably bring affairs to a head. The city is plunged in darkness and this has made it difficult for the people to move about and for the troops to keep an effective guard. All the students are carrying arms and the first attempt on the part of troops to interfere with their movements will be the signal for them to use their weapons.

STRIKERS PUSH MEN INTO LINE

General Suspension at Riga Causes Factional Fights.

RIGA, Oct. 28.—The suspension of work is general in all the factories and mills and in the city institutions and schools. There have been a number of conflicts between strikers and workmen wishing to continue work.

EXPEL OWNERSHIP MEMBERS

Friends of Mayor Dunne Let Out of Municipal Society.

CHICAGO, Oct. 28.—At a meeting of the Municipal Ownership League, of this city, last night, seven members of the executive committee were expelled upon the ostensible ground that they had been absent from two or more successive meetings of the committee. The members expelled were: Clarence S. Darrow, special attorney for the city; Joseph A. O'Donnell, Patterson, Commissioner of Public Works; Henry M. Ashton, special gas attorney for the city; John C. Harding, member of the Board of Education; Joseph A. O'Donnell, West Park Commissioner; Leopold Sattler, representing the Turner societies; E. M. Nockels, secretary of the Federation of Labor.

JEROME'S NAME OPPOSED

DEMOCRATS DON'T WANT IT ON OFFICIAL BALLOT.

If Board of Election Allows It May Be Made Ground for Contested Election.

NEW YORK, Oct. 28.—That there will be opposition by the Democratic party to the placing of the name of William Travers Jerome on the official Republican ballot is practically assured. The certification of the action of the reconvened Republican Convention in suggesting the name of Mr. Jerome for that office, which has been filed with the Board of Election today, the board will pass upon the question of the validity of the action as soon as possible.

SHAW PREACHES "STAND-PAT"

Holds That Low Tariffs Result in Less Importation.

YOUNGSTOWN, O., Oct. 28.—The second largest rally of the Republican state campaign took place here tonight, and was chiefly for the purpose of a "stand-pat" speech by Secretary of the Treasury Shaw, who in part said:

"The opposition always insists that we must invite importations if we wish to increase our exportations. I would argue that if we place the tariff on such a high level, the doors of trade will automatically open to us and we will have an abundant supply of raw materials. I have heard it since the good days of childhood. I have examined the records and I find nothing therein to justify the claim. The tariff has been lowered during a period of low tariff that has not resulted in less importations, but a period of high tariff that has not resulted in large importations. This seems paradoxical, and yet it is logical.

HUNDREDS OF HOSPITALS SAY

PE-RU-NA DOES WONDERS

IN RELIEVING ALL CATARRHAL DISEASES.

HOSPITALS ALL OVER AMERICA USE PE-RU-NA FOR CATARRH AND ALL CATARRHAL DISEASES.

SISTERS OF MERCY, Montreal, Canada, write:

"Although we have used Peruna only four or five weeks, we are happy to state that it has been with excellent results. Several persons suffering from dyspepsia and constipation have been benefited by its use."

A later letter from the same institution is as follows:

"We are pleased to say that we have found Peruna a very good and useful remedy in several cases, and we are happy to recommend it to others."

The Winters of Canada are long and severe. Catarrh of the head and throat prevails for at least seven months of the year.

As soon as Peruna was introduced into Canada, its use spread like wildfire, for it exactly met the climatic diseases which abounded.

Caution, when it once fauces itself upon the system, is not to be deluged by the use of local remedies. A systemic remedy is needed to eradicate the disease. Peruna exactly meets this necessity.

resistance to the government for some days. If the authorities refuse to capitulate, however, when the organization thinks it has had time enough to thoroughly canvass the situation, open insurrection will be ordered.

The strain is becoming very intense. The present state of affairs cannot long be endured, as hunger may drive the strikers back to the shops. On the other hand, there is reason to believe that the troops will refuse to obey orders to fire on the people."

NO MUTINY ON BATTLESHIP

Odessa Douma Sides With Revolution Against Troops.

ODESSA, Oct. 28.—The report that a mutiny had occurred on board the Russian battleship Catherine II is incorrect. The Catherine II has arrived here. The Black Sea does not appear to be in a state of insurrection.

A meeting of newspaper publishers it was decided to suspend publication on account of the crisis.

A meeting of the Douma demanded the organization of a city militia and the stopping of subsidies to the troops. The garrison has been strengthened by the addition of 200 men.

REBELS LAY PLAN TO INTERCEPT FLIGHT TO DENMARK.

LONDON, Oct. 28.—(Special.)—The Weekly Dispatch in its issue today prints an interview with a Russian exile, in which the fugitive says:

"It is impossible for the Czar to reach Odessa, for he would be intercepted by a Danish patrol, even if he escapes from Finland. The revolutionists have taken all necessary steps to prevent his flight. The news of which will be the signal for a mutiny on the part of the fleet, which will proceed to intercept him."

ARMY TO OVERHAUL WARSAW

While Soldiers Fill Streets, Rebels Distribute Revolvers.

WARSAW, Russian Poland, Oct. 28.—The streets are filled with patrols. It is rumored that strikers are marching on the city from the provinces.

By order of the Governor-General the gates of Warsaw were closed at dark and the restaurant stations are closed at 7 in the evening.

Thirty thousand infantry and 5000 cavalry with 48 guns have been collected in this city in readiness to stifle any disturbance. The military at noon dispersed a

In the whole history of medicine, no remedy was ever devised that has been so universally recognized as a specific for catarrh of the bladder.

It not only breaks up promptly coughs and colds, but it can be relied upon to permanently cure catarrh in its worst stages and forms.

People who have been afflicted with catarrh for 20 years have found Peruna to be a prompt and efficient remedy. Sisters of Good Shepherd, of Montreal, write:

"Having used Peruna for the past few months for our sick and poor, we are happy to say that it has given us great satisfaction."

In a later letter, dated November 7, 1903, the same institution writes:

"We have been using your Peruna during the past month and we take pleasure in stating that the results obtained thus far are most satisfactory."

A later letter from this institution is as follows:

meeting of the employees of the Vienna railroad, who had gathered to discuss the situation. A battalion of engineers control the telephone service.

The revolutionary leaders are reported to have distributed thousands of revolvers.

A proclamation establishing full martial law will be promulgated. Infantry are camping in the streets of Lodz. All traffic there has stopped.

NEW GOVERNMENT IS FORMED

Leaders in Moscow Organize and City Is in Darkness.

MOSCOW, Oct. 28 (6:22 A. M.)—At a meeting of delegates representing the different political parties it has been decided to unite in the establishment of a government and to act independently of the imperial authorities.

The city was in darkness last night. Today the shops, theaters and schools are closed, and the streets are deserted save for the troops and workmen. Several meetings of strikers were dispersed by Cossacks.

The banks, treasury, Postoffice and the Governor-General's office are surrounded by troops. The local merchants are asking for a postponement of the payment of bills.

The Governor-General has formally postponed the auction of peasants' property which was to be sold for taxes. The Board of Trade has petitioned against the state of siege.

Prices are very high. Water is 20 cents a pail.

The most alarm prevails owing to rumors that workmen are marching on the town from the factories. The electric light works have shut down. The last government spirit shop is closed.

Eight banks have closed, and the Bourse remains closed. The Town Council has decided to sit permanently.

STUDENTS SHOT AT ODESSA

Seventeen Girls Among Hundred Injured by Troops.

"We have used your remedy in a number of different cases and the result obtained is very good."

Convent of St. Laurent, St. Laurent, near Montreal, recommends Peruna:

"After using Peruna for two or three months, several members of the community have experienced such good effects that they can recommend its use to others."

Hospital St. John, of St. John's, Province of Quebec, writes:

"We are happy to tell you that your Peruna has given us satisfaction. Three patients have tried it, one 28 years old, Renou Duport, afflicted with catarrh, is much relieved, more than he has been for a number of years."

"A young girl, 15 years old, had an obstinate cough which half a bottle of Peruna caused to disappear."

"As to myself, two bottles have convinced me that Peruna is magnificent as a tonic, before the treatment I could not walk for a quarter of an hour without experiencing much fatigue."

Now I can walk a mile easily. Through these three cases we desire to make known to the public the efficiency of your remedy."

A LETTER TO THE PUBLIC.

Petersburg with Count Witte, who frankly admitted that the country was very ill and that he was not yet the physician. The matter was very complicated and the position is very grave.

All were now agreed, he said, that Jewish disabilities must disappear. For years, as everybody knew, he was for the Hebrews, and had the audacity to maintain their rights, but as regards curing the evil he feared that sudden removal of disabilities which he thought possible, even probable, might produce reaction.

Count Witte said that other questions like the Jewish should be treated reasonably and practically.

FROM BIRTH TO OLD AGE

Life is a constant fight against the dangers of disease, and he holds his own the best who keeps his body and its functions in the best working trim.

There are times in every life when Nature gratefully accepts a little aid. She does not want a whipping up for that is inevitably followed by depression.

In most cases a tonic and alterative properly compounded will afford the required help by promoting digestion, assimilation and reconstruction of tissue and reducing waste of vital nerve forces.
