CONDEMNS THE LADD MEAT TRUST

Evening Star Grange Passes Denunciatory Resolutions Unanimously.

ASKS THREE RESIGNATIONS

Senator Mitchell and Representatives Williamson and Hermann Are Requested to Give Way for Other Men.

One hundred and twenty-five Grangers, men and women, at the meeting of Evening Star Grange, No. 27, Patrons of Husbandry, yesterday, in the hall on the Section road, condemned the Ladd meat trust in Portland and declared in unequivocal terms that Senator John H. Mitchell, Representatives Williamson and Hermann ought at once to resign.

Portland Meat Monopoly Denounced

Under the head of "good of the order" the following resolutions were read and adopted after extended debate: Whereas, the Portland papers are making a fight against a combination of capital by which the people are compelled to pay an exorbitant price for meats of all kinds, for the further enrichment of a class at the expense of the great masses of consumers; and

Resolved, That we, as a Grange, condemn the strong denunciation appearing in the Portland papers against the monopoly of the local beef trust as wrong in morals, principles and law, and declare our belief that stringent measures should be adopted in every case where an attempt is made to grind the common people in the matter of exorbitant prices for any commodity; and

Resolved, That we commend the effort making for clean and wholesome markets and groceries as a true movement for good health and against the propagation of rich diseases; and further, in our opinion, that the three representatives should be asked to resign from their positions, and give the state and its people an opportunity to fill their places, believing firmly in the principle that the power that elects these men to office can demand their usefulness to the state ceases to exist. We make this declaration, not from any political motive, but from a desire that the state shall not be deprived of its representation in both the Senate and House for the next two years, suffering meanwhile almost irreparable loss.

Vigorous Speeches Made. J. W. Brock spoke strongly in favor of the adoption of the resolution, as it would place the farmers right before the public, it would show to the world that the Patrons of Husbandry, in this state, did not approve of grafting in public places.

"It will have one effect," declared Mr. Brock, "upon the young men of this country by teaching them that it pays to be honest. These three men have outrageously violated the trust the people of Oregon placed in them, and the least they can do would be to get out of the way for honest men, who will serve the state in the hour of its greatest need, as set forth in the resolution. They are not too strong, cannot be made too strong for me, I want to see them adopted."

Others Favor Resolutions. C. H. Welch said: "I favor these resolutions. They suit me exactly. I am glad they have been introduced." Arthur H. Nichols declared: "I favor these resolutions. These men have violated every trust placed in them. They ought to resign, and if they do not there should be some power to compel them to step out and make room for honest men to serve the state."

Similar remarks were made by William Willard, A. F. Miller and C. Milen. Portland Beef Trust as Bad. J. J. Johnson, master of the Grange, said that while the men might not resign it was the proper thing to condemn their act.

"However," declared Mr. Johnson, "the beef trust in the City of Portland is even worse than the loss and disgrace of having representatives in Congress convicted, or indicted, for crime. The beef trust, I do not care whether Ladd or anybody else is its head, is something that should be attacked. It touches the home of every man in this city. We have the law. District Attorney Francis J. Heney should take up this matter and enforce the law, and make it possible for the common people to eat fresh meat in Portland."

Keeps Out a Big Packing-House. J. D. Lee, ex-secretary of the Portland Board of Trade, in response to a call, spoke on the meat trust in particular. He said: "These resolutions are opportune. I am glad the Grange sustains Mrs. Sarah Evans in her work for clean markets and groceries, but I was glad that there was an expression concerning the Portland meat trust. It has been far-reaching in its effects in this section. The man who control the meat supply in Portland kept out one of the largest packing-houses in the country, which would have brought 10,000 people here, so it is estimated. I believe it was at the manufacturers' congress about a year ago that a great packing-house wanted to establish itself in Portland but the men at the head of the beef trust, who control the meat supply, told the capitalists who were ready to put in their men in a packing-house that it was not wanted, that there was no field for it and that it would not pay, and they were discouraged from coming. I am pleased with the resolutions as a whole."

Mrs. Maggie Johnson, of Clackamas County, made one of the strongest speeches of the discussion. At the vote the resolutions were passed unanimously, and other Granges in the county and state were invited to fall in line.

EXPLOSION KILLS MINERS

Seven Men Perish in Tidewater Company's West Virginia Mines.

BLUEFIELD, W. Va., Nov. 4.—(Special.)—The Flat Top field suffered a disastrous explosion today in one of the mines located at Vivian and its result is frightful, seven miners having succumbed to their horrible injuries and more are expected to die. There were about 15 men working in the vicinity of the explosion and that more were not killed and injured is a miracle.

Opinions differ as to the cause of the explosion. It is stated by some that an accumulation of gas ignited from a miner's lamp, but the most reasonable version is that it was due to a shot "blowing out." However, the explosion was of terrific force and caused a heavy fall of slate and debris. The dead are: J. H. Carter, Howard McGhee, Lewis Brown, John Bradley, Robert Norman, Pages Hunsley, Hadden Divins.

The explosion occurred in a mine of the Tidewater Coal & Coke Company and is the second in these mines in the last four months. The first occurred July 2 of this year, killing ten men.

DR. McLEOD OUT ON BAIL

Surgeon Who Dismembered Chorus Girl Released on \$20,000 Bonds.

BOSTON, Nov. 4.—(Special.)—Dr. Percy McLeod, of Back Bay, surgeon held on the charge of performing an illegal operation and dismembering the body of Miss Susanne Geary, the dress-suit case victim was released on \$20,000 bonds this afternoon. Only a few hours before his release Dr. McLeod was visited by his young wife in his cell at the Charles-street jail, where an affecting scene took place. Acting under advice of counsel, McLeod refused to make any statement to the newspapers. The District Attorney's office is preparing to bring the case before the grand jury when it assembles on Monday.

Indictments will be asked against Morris Nathan, the sweetheart of the dead girl; Louis Crawford and William Howard, who disposed of the body; Dr. McLeod, who it is alleged attempted to save the girl's name by an operation and then cut up the body. The District Attorney's office is preparing to bring the case before the grand jury when it assembles on Monday.

OXYGEN GONE, MAN DIES

Frank Fales Meets Death Bravely When Supply Runs Out.

DENVER, Nov. 4.—The last words of Frank S. Fales, a civil engineer, whose work at several world's fairs, notably the last one at Panama, made him famous throughout the world, showed him to be a man of nerve. In a Denver hospital, dying from tuberculosis and kept alive by inhaling oxygen, he overheard a nurse say the Denver supply was exhausted. He gasped: "Oxygen all gone? No more in the city? Then I'm a dead one. I'm not afraid. I'll die game; so here goes," and retired to his room, where he lay until he was inhaled and died within three minutes.

Fales had been consuming about 2000 gallons of oxygen daily for a week, and it was on the seventh day that the supply was no more oxygen to be had, that the dying man learned of the unfortunate state of affairs. It was then that he tore off his mask and decided to face death bravely.

BOLO MEN KILL GROVES

United States Officer Is Murdered by Native Boatmen at Manila.

DENVER, Nov. 4.—A letter from Captain W. R. Groves, commissary officer of the United States Army in the Philippines, received by Police Magistrate R. F. Stanton, Oct. 27, contained the news that W. H. Rogers, who was a private in the Colorado Regiment in the Philippines during the Spanish-American War, was murdered Oct. 27 by a group of boatmen who he hired to row him from Cavite to Manila. His head was cut off with bolos and the body was thrown overboard. It was discovered three days later. One of the boatmen has been captured and is said to have confessed. The motive for the crime was robbery. Rogers was in the service of the Pacific Mail Steamship Company, and his parents reside in New York.

Boal Did Not Wreck Bank. RENO, Nev., Nov. 4.—James R. Boal, cashier of the Goldfield Bank & Trust Company, Goldfield, Nev., which failed six months ago, with liabilities amounting to \$200,000, and with \$5 in cash on hand and about \$20,000 worth of securities, has been acquitted of the charge of embezzlement by the District Court at Hawthorne. The verdict finding President J. B. Young guilty of a similar charge has been set aside and he will be given a rehearing next January.

Boal and Young are from Los Angeles and organized the bank a year ago. Young Man Takes Chloroform. BULLFROG, Nev., Nov. 4.—Harry W. Kemp, one of Bullfrog's most prominent young business men, was today found in an unconscious condition, lying on a couch in his office. A physician was hastily summoned, and a diagnosis showed that Kemp had swallowed a large quantity of chloroform. Efforts to rouse him were futile, and he died four hours after being discovered. No reason can be given for the act. His family resides in San Francisco.

No New Cases of Fever. NEW ORLEANS, Nov. 4.—Yellow fever report to 4 P. M.—New cases, none; total to date, 238; deaths, 1; total to date, 450; cases under treatment, 8; discharged, 260.
