Secretary Sees Great Improvement at Panama.

MEN ARE IN GOOD HEALTH

By Improvements and Care, Yellow, Fever May Be Controlled and the Sanitary Conditions Greatly Bettered.

PANAMA, Nov. 1.—Secretary of War Taft held a jong conference this morning with Chief Engineer Stevens. Monday morning Secretary Taft and Mr. Stevens will go over the works at Empire City and Culebra cut and afterwards will go by boat from Mindi to Colon, examining at the same time the harbor improvements at Cristobal.

Secretary Taft today informed the Associated Press that he was very much pleased with the situation here, which, he said, had greatly changed for the better since his hast trip. He

for the better stare his last trip. He thought from what he had already seen that the work on the canal way progressing satisfactorily and was now efficiently organized. He said he was happy to notice that the spirit of the men on the canal had improved, and that the condition of five or six months age did not exist.

The Secretary said the sanitary con-ditions are excellent and believed that

by continuing the present methods yellow fever could be controlled. He thought the efficiency of the laborers was not as high as it should be, but said that he contemplated making no change until the men had been given a fair trial. The Department of Commissaries, where the men could get proper food, he added, would raise their efficiency.

Chief Engineer Stevens and Secre-

tary Taft examined the Pacific termi

SUPPLIES FOR PANAMA CANAL Vast Quantities of Lumber, Powder.

Cars and Engines. WASHINGTON, Nov. 4.-The extensive purchases by the Isthmian Canal Com-mission have been completed for the pres-ent, although requisitions for material are constantly being received. These are for small lots of miscellaneous supplies. The Commission has purchased or ordered 646,000 pounds of blasting powder, and 617,500 pounds of dynamite, which are to be

must be removed. Thirty million feet of lumber has been purchased, about 23,000,-600 feet coming from the Pacific Coast. The paving of the City of Panama has required the purchase of 7,000,000 paving brick, while 3,500,000 brick are used in the ction of buildings and quarters for

Besides the engines used by the Panama Raffrond, 120 locomotives have been bought for excavation work, also 1300 flat cars and several hundred dump cars. The flat loaded by rapid machines, which scrape the earth from a whole train in short or-der. Spreaders are then used to remove the earth from the railroad track upon

which the cars are operated.

The medical supplies of the canal zone are purchased through the office of the Surgeon-General of the Army. They include, among other things, guinea pigs and white mice, which are used for ex-perimental purposes; also wooden legs of assorted sizes. Orders are filled for Bi-bles and playing cards, among others, in the great variety of articles purchased for the canal.

WILL NOT FORCE ROBBINS

Interstate Commission Will Not Raise Question of Jurisdiction.

WASHINGTON, Nov. 4 .- (Special.) - Alrough the members of the Interstate commerce Commission in the absence of Chairman Knapp have had no opportunity for a formal conference with reference to yesterday's refusal of George Robbins, president of the Armour car lines, to answer questions bearing on the commis-sion's investigation of the practices of the various refrigerating companies, the opin-ion seems to prevail that the attorneys for the Armour Company will not be ac-commodated to the extent of having their client hauled into court for contempt in an endeavor to establish the right of the imission to carry on the inquiry in

To proceed along this line now the com missioners argue, would halt the investi-gation and bring the naked question of jurisdiction before the court, to the detri-ment of the public interests concerned. It would be better, they believe, to carry the investigation to its conclusion, even with-out the testimony of Mr. Robbins, and then after an order in the premises by the omission, have the courts adjudicate the questions involved. This would not bar the Armour representatives from raising the question of jurisdiction at the

The case will continue with the taking depositions in California on November Subsequently written statements will be received from certain witnesses bear-ing on the cost of refrigeration. Later the mission wil resume public hearings at the offices here.

Will Inspect Inspection Service

WASHINGTON, Nov. 4 .- (Special.) - Asdstant Secretary of Commerce and La-or Lawrence O. Murray, and Herbert K. Smith, Deputy Commissioner of Corporations, have been ordered to St. Louis t make a thorough investigation of the administration of the United States steamboat inspection service there.

McCiellan Calls Hearst Socialist, St. Paul Man Dies of Injuries Hearst Replies "Liar."

NEW YORK, Nov. 4 - (Special.) - The political campaign in the City of New York ended tonight, so far as leaders of the parties were concerned, although both the Democratic and Municipal Own-ership parties will hold railies on Sunday.

Mayor, closed his campaign venth Congressional District, he has been twice elected to Congress. He declared that, as to the assertion that he was a "Socialist," the man who mad it knew that he lied when he said so.

William M. Ivins, the Republican candigate, tonight declared that he would be elected by more than \$0.00 plurality. He based his figures on the report that he would lose one vate in five to Hearst, while McClellan would lose one vote in two to the Municipal Ownership candidate. The following figures are the latest obtained at the headquarters of the sevral candidates: McCiellan, 31,000 majority; Hearst, 80,-

Massachusetts Campaign Over. BOSTON, Nov. 4.—With tariff revision as the chief issue, the Massachusetts state campaign was practically brought to a close tonight after one of the most remarkable manifestations of interest on the part of the voters in the history of the commonwealth. The canvass in this state was given peculiar importance at the outset from the fact that the Repub-lican State Convention, the first to the country to take such action, adopted a

The Democrats, however, went further than their opponents, and demanded the abolishment of the tariff on hides, jumber. wood pulp and other commodities, at the same time lending their support to a pronounced reciprocat trade agreement with Canada.

Shaw Is No Missionary.

CLEVELAND, Nov. 4 - (Special.) - Sec retary of the Treasury Leslie M. Shaw delivered a campaign address at the Armory tonight. He declared his mission to the state was not of a missionary char-acter. He came as a Republican, he said, to discuss the principles of the Republican party. In saying this the Secretary disavowed any intention of minimizing the National importance of the Ohio state campaign, and said the Republicans of Ohio should not take the lead in obliteration corte lines. ating party lines.

Chicago Campaign Is Closed. CHICAGO, Nov., 4-The active cam-

paign of the election to be held next Tuesday closed tonight with meetings in various parts of the city. The vote is entirely for Judges of the supreme and Circuit Courts and for trus-ees of the sunitary districts.

EFFECT IN FATHERLAND

People in Berlin Fear Russian Rev olution Will Touch Germany.

BERLIN, Nov. 4 .- (Special.) -- Many per ple in Berlin are saying that Russia's suc-cessful revolution may have far-reaching results for the fatherland. Germany, they say, will be completely isolated among nations when the Russian democracy comes off victorious, if the Kaiser resist the craving for greater political liberty. The situation is deemed all the more se rious because pan-Slavist ideas leading to war over the Austrian and Balkan questions may get the upper hand in Russia, when the democracy has complete power. The Czar's government has hitherto been

able to keep them down.

German Socialists cherish no Illusion to the effect that the rulers of Germany will change their methods as a result of the events in Russia. Herr Bebel is pre-paring for a hard fight with a view to defending the fatherland's main demo-cratic institutions, the general franchise for the Reichstag. He and his associates. believe that the Kalser will now try to keep the reins tighter than before. They say the Kaiser has learned from the Russian revolution that a conscript army cannot be trusted in any grave conflict with the people, but he knows a revolution is impossible where autocracy is ex-ercised through an bonest and efficient bureaucracy like that of Germany. Po-litical fights of unprecedented bitterness are expected by the Socialists in the near future.

ordinary circumstances.
Your correspondent today had an interview with the accretary of one of the organizations in the Whitechapei district that provides shelter for poor Jews, in which he said:

"The Czar's manifesto is distrusted by these exiles. But if the time ever comes when they can be sure they may return without fear of imprisonment, within two months of the time this assurance is given, fully 20,000 Russians will leave London to return to their native land.

BRITAIN'S TREMPLOYED MILLION WILL CALL ON BALFOUR.

Ask Parliament to Order Public Works Which Will Furnish Work and Avert Starvation.

LONDON, Nov. 4 .- A remarkable demonstration will-take place-in this city Monday, when a delegation representing 1,600,000 unemployed men and women of Great Britain will walt on Premier Balfour to urge the necessity of heroic measures to avert the terrors of a workless Winter. Five thousand men and the wives and daughters of unemployed workingmen will march from the East End of London and escorf the delegation to Downing street.

The deputation, which will speak in the name of organized labor of London, will be headed by Henry Queich, chair-man of the Metropolitan Trades Coun-cil, who today outlined the purposes

that the workingmen have in view. "Approximately 750,630 men and 233,men are out of work in the Kingdom," said Mr. Quelch-They represent 3,000,000 dependents who are face to face with a breadless and fuelless and in some cases a roof-Winter. These people are not a pack of lazy incompetents; they are men and women who are able and will-ing to do a day's work, but for whom the private labor market offers no help. We shall not approach Mr. Balfour as supplicants for charity; we shall go to point out that it is the state's duty to wrestle with the serious and pitiable economic problem that this horde of hungry and idle citizens presents.

"We shall ask that a special asssion of Parliament be called to vote money for National public works, such as the reclamation of waste lands, forest reservation and road building. These are useful works that will give employ-ment to hundreds of thousands.

"The pathos and urgency of the elt-uation cannot be exaggerated. The organs of the aristocracy are assailing our demonstration as Socialistic, but Great Britain is confronted with a con dition, not a theory. The time has passed for controversy. What is needed is action. The unprecedently large number of idle persons is not confined to any particular trade or section, It is the general result growing out of the introduction of labor-saving machinery and of the consolidation principle that era the state formally recognized that its duty was to provide work and food for the unemployed. We shall recall the ancient legislation at our audience with the Prime Minister on Menday."

PRESS JOYS IN LIBERTY

First Use Is to Demand Removal of Trepoff.

ST. PETERSBURG, Nov. 5.-(4:20 P. Mi) The chorus of praise with which the newspapers, appearing for the first time in over a week, greet the new constitu tional regime has some discordant notes indicating distrust of the government's sincerity, but all assume that this sounds the knell of autocratic power. There is universal rejoicing at the immense victory the people have won.

By agreement all the newspapers lead their columns with the announcement of the freedom of the press, and they have banded themselves together to hereafter dely all attempts at censorship. The issues pers today show that they have thrown off all restraint. Their edi-torials manifest little spirit of gratitude to the Emperor, all taking the that the liberties wrested from the government were not freely given.

A most urgent demand is made for the immediate removal of General Trepoff, which several of the papers print in black

The Russ says:

After a long battle the day of liberty is at hand and victory has been achieved. The people refused to live under the old regime and showed themselves heroes in the atraggle for freedom and convinced the government. Riots hight be suppressed by troops, but before the entire people bayonets failed. Only a short distance now separates us from the final transformation into a nation rolled by law, and it is no longer possible to stop the emancipation movement. Whatever the emancipation movement. Whatever now happens, political and civil liberty will be crowned. There are no longer subjects; there are citizens.

The Russ calls for the immediate abolition of the state of slege existing in so many cities of the empire, and for the re peal of all special legislation not in har mony with civil freedom.

The Novoe Vremya, basing its leader on the amnesty proclamation, says: It is eminently fitting that the first words of a free process It is eminently fitting that the first word of a free press announce the pardon of political prisoners. Since 1825 there has been thousands of victims. Some of their may have been mistaken, but they love their country. May God bless Russin: these first steps for the realization of libert and let all unite in the re-establishment opence.

The Nashi Shien says: The Nashi Shien says:

The manifesto is the last act of absolutism. The battle has been long, but has ended in a great victory. In yielding to the people, however, the autocracy has not restricted its power. The manifesto is only a promise and we have not as yet guarantees that Trepeff and the state of siege will not continue. The manifesto is a promissory note, but the Russian people will see that it is collected.

The situation in the provinces is also more reassuring. Agitation and disorders are gradually dying down. At the same time, the government is taking energetic time, the government is taking energetic steps as in St. Petersburg to restore General Trepoff's assurances to the for-

Count Witte replied that per sonally he was in favor of the prin sonally he was in favor of the principle of universal suffrage; but that it was a question that should properly be decided by the Douma when it meets.

The Associated Press learns that the

present scheme for the extension of suffrage under the new manifesto contemplates a horizontal reduction of about half of the describery qualifications. For example, in St. Petersburg those taxed on the basis of a rental of \$500 instead of \$700 will be entitled to suffrage; and be-sides workmen will be allowed a certain number of seats, said to be fifty, and are to be elected indirectly on the plan-

DEAFNESS AND CATARRH CURED

BY NO METHOD UNTIL "ACTINA" WAS DISCOVERED.

Ninety-five per cent of all cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle car. The air passages become clogged by catarrhal deposits, stopping the action of the vibratory bones. Until these deposits are removed, a cure is impossible. The inner car cannot be reached by perobing or paying, hence the inability of agrists or physicians to cure. Ear drums are worse than useless. That there is a scientific cure for deafness and catarrh is demonstrated every day by the use of Actina. The vapor current generated in the Actina passes through the sames through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car, removing the catarrhal obstructions as it passess through the situatechian tubes into the middle car.
