MARINE ROUTS A THIEF

VALLEJO, Cal. Nov. 25-(Special)-A bold attempt was made to rob Uncle Sam of \$75,000 tonight on Mare Island. But for the vigilance of a marine sentry named It is probable that the attempt would have been successful. As Ewing was patrolling his beat in the neighbor-hood of the Administration building he thought he noticed someone in the office of the paymaster of the yard, which is on the ground floor. He quickly made his way to the office and entered.

As the soldier stepped inside the loor he was struck a stunning blow on the head. The blow dazed him, but he quickly turned and grappled with the man he saw trying to dart out the door. For he saw trying to dart out the door. For several minutes the intruder and the plucky marine struggled. Finally the guard was knocked to the floor, and the would-be thief rushed from the building. The marine followed as quickly as he could, picking up his gun as he ran. He cought sight of the fleeing figure of his late opponent and fired at him, but evi-dently without success, as the man did not stop, but continued running until loar to stop, but continued running until lost to view in the darkness. The shots aroused the entire yard, and within a few minutes tranger. Up to a late hour they found no armed marit

official quarters leads to confidence that Turkey's resistance to the powers will

not go to the extent of military or naval

The island of Mitylene has a garrison of
