SUFFRAGISTS ON THE OPPOSITION

Declare They Are Pleased, as It Will Lend Spice to the Campaign.

LEADERS EXPRESS VIEWS

Some Say Antis Are Making Best Argument for Cause by Going Into Politics - Others Call It a Joke.

The organization of an Anti-Suffrage Association by some of Portland's smart set has not taken the reef out of the sails of the suffrage workers which the newlyof the suffrage workers which the newly-fledged politicians seem to anticipate. In fact, the suffragists welcome the movement as "something to give a bit of spice to an almost one-sided issue," as Miss Gregg puts it, and not a few of the campaigners who seek for equal rights regard the whole matter as a joke.

Says They Cannot Talk.

"The whole thing doesn't cut any figure with the suffrage campuign," said Mrz. Grace Watt Ross, one of the most able women among the Portland suffragists. "Of course they can't talk with our speakers—they demonstrated that fact the first opportunity they had to come forward with their side of the question. The truth of the matter is that there are several elderly women in their organization whose ideas have not kept pace with tion whose ideas have not kept pace with the demands of the times, and they doubt-less think it would be a terrible calamity for the women of this state to have equal rights with men. As they are leaders— well, the others follow suit. What more is to be said?"

Mrs. Jefferson Myers Laughs.

Mrs. Jefferson Myers would not talk much about the matter—she just laughed.
"No, I won't talk about it for publication," she replied to all urging for an extion," she replied to all urging for an expression. "I am sure these particular antis do not understand the question they oppose, so discussion is of no avail. Why don't they understand it? Well, people who are rich do not as a rule keep in touch with the wage-earners, or the class of people who would benefit by the ballot. I donot if any one of the women mentioned in this morning's Oregonian as members of the new Anti-Suffrage Association ever earned a dollar in her life. This being the case, what do they know about the real peeds of the working people?"

Works for Enfranchisement.

"I don't support the suffrage movement "I don't support the suffrage movement because I think I am going to benefit by it personally," exclaimed Mrs. Henry Waldo Coe, who is one of the most enthusiastic workers in the state. "I am working for enfranchisement of women because I know that millions of women who have not the comforts of life which I enjoy will be benefited by it in many, many ways, it is not so much the woting privi-lige we women are striving for as the speans to an end, and that end is justice to all. With equal rights a fair value will be set upon women's services, and they will not have to perform the same service as a man for half the salary. The women who have formed this anti-suffrag frage Association do not realize what th means to working and self-supporting women. I am sure if they did

bearings to any petition for woman suffrage. This was unusual, for it is the first time in several years that the omission has occurred. The National Woman Suffrage Association asks for a hearing such good as will result from the right to use the ballot. They have not given the other side of the question the consideration to which it is entitled."

Mrs. Duniway's Views.

Mrs. Abigail Scott Duniway, the pioneer worker in the suffrage cause in Oregon, has a memory into which she occasionally digs and brings up interesting incidents of other days. It was she who first started the agitation in favor of equal suffrage years agoonly there wasn't much in favor of it then. But as years went on many stanch supporters appeared among the prominent people of the state.

"I notice the names of four rich women among the members of the antisuffrage association," she began in reminiscent vein, "who are not following the convictions of their husbands and fathers in this matter. In one of the early campaigns—I believe it was in '54, the four men who gave the suffrage question the stanchest support, both with money and influence, were W. S. Ladd, J. B. it was in '84, the four men who gave the suffrage question the stanchest support, both with money and influ-ence, were W. S. Ladd, J. B. Montgom-H. J. Corbett and Henry Falling. Mr. Ladd used to say, repeatedly, and I have heard Mrs. Ladd repeat the saying frequently, that the salvation of this republic depended upon the en-franchisement of women.

Should Get on Right Side.

"But the women of this new organi-

zation are all right-they are exercising the rights they denounce in tak-They want something to do, for they inherited their money and did not have to care it, so I suppose they thought they would go into politics. It's a pity, however, that as they have to mix in politics that they can't get on the right side of the fence instead of being used as cats' paws to rake the liquor men's chesinuts out of the fire."

Mrs. Duniway explained that she meant by this that the liquor dealers were known to be the bitter foes of the suffrage question and were behind all anti-suffrage associations in some of this paws organized anti-association, a few years ago became very much interested in a free kindergarten and that suffrage women to work for the suffrage associations in some of this newly organized anti-association, a few years ago became very much interested in a free kindergarten, and that suffar her liquor beginning to the club women to work for the suffar her liquor her liq of being used as cats' paws to rake the all anti-suffrage associations in some guise. She also suggested that the new association might have been organized through the New York Anti-Suffrage Association, as it was during the last campaign when a representative was sent to Oregon and the campaign fund furnished—the same women who have formed the recent organization having

been members of that one.

Another suffragist of this city has suggested that the liquor interests of Portland are behind this present anti-tuffrage movement, saying-"Of course we can't openly accuse them of being allied with the liquor interests, but-it -ls-ver-suggestive."

Disputes the Statistics.

Gail Laughlin, who is attorney for the Oregon State Suffrage Association, disputes a portion of the statistics of-fered by the antis, in reference to the come the incident as an oasis in a desert come the incident as an oasis in a desert and antifrage chronicled by the "antis," I have this to say. The equal-suffrage movement that the future there will "be something doing" in the suffrage this to say. The equal-suffrage movement that the future there will "be something doing" in the suffrage therefore, a victory, even though in some states these votes do not yet constitute a majority. As to the specific instances mentioned by "antis," in which woman-suffrage measures have falled to get a majority, I have not the knowledge enabling me to say, concerning every instance, whether the facts are as stated, but I do know that in the two cases of which I have knowledge the facts are misropresented or incorrectly stated in both instances. It is stated that, during the past year, "In Washington, D. C., neither the Senate nor the House gave defeats of women's suffrage. She says:
