COMMERCIAL CLUB ASSOCIATES MASSAMA

The annual number of Massama is attracting much attention by reason of the unusual beauty of the illustrations and the novelty and high value of the information contained in it concerning our snow-peaks. Mr. Tom Richardson, secretary of the Commercial Club, upon seeing it, immediately sent word to the publishing committee, Gertrude Metcalf, C. H. Scholes and M. W. Gorman: "I would like to secure 25,000 or 30,000 copies of Massama for the Commercial Club for distribution over the country." An order that cannot be filled by the Massamas without having a second edition, which they are now preparing upon. Mr. Richardson is full of enthusiasm regarding Massama and cannot say enough in praise of the public spirit and generosity shown by the Massamas in sending out this superb advertisement of our scenic wonders. He is surprised at the dignity and high character of the publication, which contains articles on the Cascade Range by scientists of international reputation, who are members of the club. The magazine is both full of original and authoritative matter never before published. The annual number, which is published by the Massamas at great expense, is sent free to all club members.

FILLS FROM THE RIVER.—While the details are not yet public concerning the proposed fills to be made on the East Portland lowlands, enough is known to encourage the belief that the fills will be undertaken by the Port of Portland, the dredge being used for the purpose. District No. 1, which is between East Washington and East Morrison streets, will be the scene of the first operations, if the plans which are bearing maturity are carried out. Engineer J. B. Lockwood has completed his survey and examination of the material available at the bottom of the river, which he has embodied in a report to the Port of Portland Commission. Engineer Lockwood does not hesitate to declare that the proposition to fill from the river by dredge is entirely feasible.

TABLE SILVERWARE

SOLID SILVER. SILVER PLATED. The kind it pays to buy. When it comes to solid silver in knives, forks, spoons and fancy pieces, it would be hard to find any prettier patterns than the Bridal Rose, Orange Blossom, Violet, Irving. Some of these patterns we have the exclusive agency for, and carry a very complete stock of each. We have solid silver teaspoons as low as \$4.00 per half-dozen; dessert spoons, from \$9.00 up, and fancy pieces from \$11.50 up.

Our Own Make of Plated Ware

Every piece stamped (Jaeger Bros.) and contains more silver than any plated goods on the market. The patterns are entirely different than the ordinary plated ware, and are copied after solid silver designs, finished in the French way.

- 1/2 dozen Knives ..... \$1.75 to \$2.50
1/2 dozen Forks ..... \$1.75 to \$2.50
1/2 dozen Teaspoons ..... \$1.50 to \$2.25
