# LOVE FINDS A WAY

## Marriage Ends Young Zelaya's Romantic Wooing.

## ALL OBSTACLES OVERCOME

**Son of Nicaraguan President Weds American Girl — Kidnaped by Father's Agents, He Returns to Claim His Bride.**

WASHINGTON, March 24.—(Special.)—A romance of dramatic interest culminated at noon today, when Alphonse Zelaya, son of the President of Nicaragua, led Miss Marguerite Lee Baker, of this city, to the altar, under a bower of roses, at the home of the bride's parents. Dr. William Baker, the father, gave her away. Rev. Dr. I. O. Baker performed the ceremony. The groom is anxious to take his bride to Nicaragua.

There is not believed to have been a prosaic moment in the courtship, which began several months ago during Zelaya's visit to this city, when he met Miss Baker at a fashionable boarding-house. It was love at first sight. Preparations for the wedding interrupted the military training of the young man, which had been begun at West Point.

It was during this period that three men one night entered the parlor of the boarding-house, while the young folks were engaged in conversation, and seized young Zelaya. He was forcibly removed, imprisoned in an apartment hotel for several days and then sent South, where he was put aboard a steamer for Nicaragua. Before sailing, he managed to wire his sweetheart that he would return.

The father was at first obdurate, but finally consented to the wedding for fear that his son would carry out his threats of self-destruction. He landed in New Orleans six weeks ago, but was taken ill with appendicitis. At one time his life hung in the balance. He finally reached Washington last Monday.

# CONFESSION OF STANDARD

(Continued From Page 1.)

missions noted on the record, and Judge Priest said it was understood, of course, that these admissions were made subject to an examination as to its materiality to be passed upon by the higher courts.

**Admits Fact as to Time.**

Mr. Hadley then said he wished it understood that these admissions of stock ownership covered the period of time named in the information. The trust attorneys agreed to this, and made a new admission that, for the purpose of this litigation only, it would be admitted that a majority of the stock of the Standard Oil Company of Indiana and all the stock of the Republic Oil Company is held in the interest of the Standard Oil Company of New Jersey.

"Strike out the word 'interest,'" demanded Mr. Hadley, "and make it read 'held for the Standard Oil Company of New Jersey.'"

"Very well," replied Judge Priest, with a smile, "make it read that way. And we also admit, for the purpose of this litigation only, subject to exception, that all of the stock of the Waters-Pierce Oil Company standing in the name of M. M. Van Buren is held in the interest of the Standard Oil Company of New Jersey."

"Strike out that word 'interest,'" again interrupted the Attorney-General, "and make it read 'held for the Standard Oil Company of New Jersey,' and also I want the admision to read that the stock is now held as admitted, and was also held during the time named in the information and complaint."

The change and admission was recorded as Mr. Hadley asked.

**Rogers' Memory Again Fails.**

Mr. Rogers' examination was then resumed. He denied knowing that reports of the Waters-Pierce Company were made to 26 Broadway, and said they were never made to him. He had not discussed business of that company with H. M. Tilford from 1901 to March 1906, but presumed he had with others, but could not recall the time or place. Mr. Hadley then asked:

"Can you recall any person with whom you discussed the business of that company, and can you give the details of any conversation you had relative to the business of the Waters-Pierce Company?"

"I don't think I ever discussed the details of the business of the Waters-Pierce Company. I may have discussed it as a general proposition or in a general way."

"With whom?"

"I can't recall now."

"Did you ever know a Mr. R. H. McCall?"

"I think so."

"What is his present position?"

"I may have heard that he was in Mr. Tilford's office?"

"Did you ever hear he was also the commercial agent of the Waters-Pierce Company, with offices at 26 Broadway?"

"I never heard of it."

Mr. Hadley then excused Mr. Rogers, pending the production of certain papers in connection with the subject.

As Mr. Rogers left the stand he thanked Mr. Hadley for his courtesy.

"And when will you want me again?" he asked.

"I will let you know in ample time, Mr. Rogers."

Mr. Rogers bowed, then shook hands with Mr. Woollman, who is associated with Mr. Hadley, and left the room.

**What W. G. Rockefeller Knows.**

William G. Rockefeller was then called. He said he is assistant treasurer of the Standard Oil Company, of New Jersey; that Mr. Tilford is treasurer, but he does not know Mr. Tilford's business. His uncle, John D. Rockefeller, is president, and his father, William Rockefeller, vice-president.

The witness denied that he had any connection with the Standard Oil Company, of Indiana, and also that he had any knowledge of any reports having been made to anyone at 26 Broadway concerning the business of the Waters-Pierce Oil Company, the Republic Oil Company or the Standard of Indiana. Mr. Rockefeller also denied that he was a director of the Standard Oil Company of New Jersey, or a stockholder in either of the Standard companies, or that he had any knowledge of the business affairs of the three respondent companies.

That ended the testimony of Mr. Rockefeller, and he was excused.

An adjournment was asked for by Mr. Hadley, who said he had subpenaed a lot of memorandum books and data that would greatly facilitate the examination of the next witnesses and the remainder of Mr. Rogers' examination. For that reason, and to give time to produce the books and papers, he asked for an adjournment until Monday. This was granted by Commissioner Sanborn.

**Prove Standard Manages All.**

It is expected that when the hearing is resumed next week, Mr. Hadley will commence his efforts to prove the second portion of his case—namely, that the management of the Waters-Pierce Company and the Republic Oil Company, as well as the Standard Oil Company, is under the supervision of the officers of the Standard Oil Company.

At the conclusion of today's hearing Assistant Attorney-General Rushland served upon Mr. Hagerman, representing the defense, an order requiring his clients to produce on Monday next over a hundred letters that are said to have passed between the respondent companies in the West and 26 Broadway. In each instance the order cities the name of both writer and recipient, as well as the date the letter was mailed. These letters, it is understood, are expected to disclose the control of the two companies operating in Missouri by the Standard Oil and show that even the detail of the management is directed from 26 Broadway.

Among the witnesses who will be examined Monday are John D. Archbold, Wade Hampton, H. M. Tilford and J. C. Arnold, all of whom are officers of the Standard Company. It is not probable, however, that the evidence of these witnesses can be completed inside of three days at least.

**Both Parties Satisfied.**

Mr. Hagerman, lawyer for the Standard, said at the conclusion of the hearing today that he felt rather pleased at the result of the first day's work. Speaking of the admissions made as to the stock ownership of the two companies, he called attention to the fact that they had not been made subject to exceptions as to their materiality, a point for the higher courts yet to pass upon. While Mr. Hadley seemed to think that he had practically proven his case, Mr. Hagerman and others of the Standard's attorneys said there were other and equally important allegations yet to be sustained.

Mr. Hadley, in speaking of the admissions made by the Standard Oil Company at today's hearing, said:

"That is practically my case. That is the point I set out to establish and I have established it beyond a doubt. This admission shows that everyone, no matter how powerful, must respect the majesty of the law. I do not need the testimony of John D. Rockefeller or any other officer of the Standard Oil Company on the points that I have had such difficulty in clearing up."

**Did Not Visit Grandson.**

NEW YORK, March 24.—John D. Rockefeller, Jr., denied today the report that his father, the president of the Standard Oil Company, had come to New York from Lakewood, N. J., last night to see his infant grandson, the son of John D. Rockefeller, Jr.

**William Rockefeller Healthy.**

NEW YORK, March 24.—A cable dispatch to the Herald from San Remo, Italy, says: William Rockefeller left here yesterday with his party of friends for Nice and Cannes. He is in perfect health and has been staying here a few days, making excursions in the neighborhood.

# FALLS INTO REBEL TRAP

**GOVERNOR OF SAMAR MAY BE CAPTIVE OF PULAJANES.**

**Goes With Other Americans to Receive Surrender and Does Not Return. Troops Go to Scene.**

MANILA, March 25.—(Noon.)—In the recent fight at Magtaon in the center of Samar between the constabulary and a force of Pulajanes two constabulary officers and several privates were wounded. The loss of the Pulajanes is unknown. Governor Curry is missing.

Governor Curry, Judge Lobiner and Superintendent of Schools Hoover proceeded to a town expecting to receive in surrender a large band of Pulajanes. It is now suspected that the offer by the Pulajanes to surrender was a treacherous ruse.

Reinforcements of constabulary have been ordered to proceed to the district and Provincial Treasurer Whittier, of Samar, has recommended that Federal troops be held in readiness.

(Governor Curry, whose former home was in New Mexico, was a member of the Rough Riders, reaching the rank of Captain. He also was an officer of the volunteer troops sent to the Philippines, and became Manila's first Chief of Police under American rule. Early last year he was appointed Governor of the Province of Samar, succeeding Governor Feito, who resigned, and was given extraordinary powers for the purpose of bringing peace to the troubled district.)

# SCOTTY UNDER ARREST

**NO CHARGE IS ENTERED AGAINST DEATH VALLEY MYSTERY.**

**Habeas Corpus Writ Petitioned For, and Miner-Actor Is Released on Bail.**

SAN FRANCISCO, March 24.—Walter Scott, commonly called "Scotty," the Death Valley miner, was arrested tonight soon after his arrival from the north. The arrest was based on a telegraphic report from the Sheriff of San Bernardino County stating that Scott was wanted there to answer a charge of assault with a deadly weapon. The charge grows out of a recent attack on a party of people who were being escorted to Scott's mine.

Scott was taken into custody at a hotel by detectives, but was not formally charged, his name being recorded on the delinquent book. This procedure precluded his admission to bail. Some friends heard of his predicament, secured an attorney and brought the case to the attention of Superior Judge Graham, who signed a petition for habeas corpus. The writ was made returnable Monday morning, and Scott was released on $500 bail.

The habeas corpus proceedings were instituted merely to force the police to enter a ballable charge against the accused.

# CONFER ON BRISTOL

## President Consults Moody, Fulton and Heney.

## KEEN CONTEST PROMISED

**Attorney-General and Senator Oppose Reappointment—Heney Recommended Bristol and Says Charges Are Trivial.**

OREGONIAN NEWS BUREAU, Washington, March 24.—President Roosevelt today sent for Senator Fulton and Attorney-General Moody to talk over the case of District Attorney Bristol. What the conference accomplished cannot be stated, as none of the participants will discuss it or give any inkling of what disposition will be made of the case.

It is stated, though not officially, that the Oregon Bar Association has declined to take any action in the premises, having returned the papers submitted by the Attorney-General several weeks ago. It was probably to talk over this latest development that the conference was held. In case Mr. Bristol is removed, it is quite probable that Mr. Fulton will be requested to recommend some one for the office.

**Heney Champions Bristol.**

Immediately after the conference with Mr. Fulton and Mr. Moody, the President had a talk with Francis J. Heney, upon whose recommendation Mr. Bristol was appointed. Mr. Heney, it is said, is insisting that the charges against Mr. Bristol be dismissed as trivial and unworthy of serious consideration. He will use his utmost efforts to overthrow the opposition and has confidence of winning out. Mr. Heney's position was explained in these dispatches yesterday and it is understood he made similar statements to the President today.

He is making a vigorous fight for Bristol for two reasons; primarily, he contends that Mr. Bristol has been guilty of no offense warranting his dismissal; and secondly, having stood sponsor for Mr. Bristol, he is anxious to have him retained.

**Keen Contest Approaches.**

It looks as if there would be a keen contest between Mr. Heney on one side and the Attorney-General and the Department of Justice on the other, for it is understood that the Department of Justice long since unanimously agreed that Mr. Bristol should be let out.

**REPORTS TIMBER-LAND BILLS**

**Senate Committee Adopts Fulton's Amendment and Carter's Bill.**

OREGONIAN NEWS BUREAU, Washington, March 24.—The Senate public lands committee today favorably reported the bill to repeal the timber and stone act and to provide for the sale of timber on public land at not less than its appraised value. Senator Fulton had an amendment inserted providing that 10 per cent of the proceeds of sales of timber shall be expended for public roads and schools in the counties in which the timber is sold, the balance to go to the reclamation fund.

Settlers, miners and prospectors are given free use of timber for domestic purposes. Land containing stone of commercial value is made subject to entry under the placer mining laws.

The committee also favorably reported Senator Carter's bill authorizing the homesteading of agricultural land in forest reserves, in accordance with the recommendation of the President and the Public Land Commission.

**Proposed American Court in China.**

OREGONIAN NEWS BUREAU, Washington, March 24.—Representative Denby, of Michigan, has introduced a bill to create a Federal District Court in China, with extra-territorial jurisdiction. The measure was first introduced by Senator Fulton, at the request of J. H. Brown and other Oriental interests, who complain that the exercise of judicial powers by Consuls often works great injustice to American interests. It is pending before the foreign affairs committee of the Senate, with prospects of an early report. Since Mr. Brown's last trip to Washington, the heavy commercial interests of the country have interested themselves in the bill.

**New Surgeon for Vancouver.**

OREGONIAN NEWS BUREAU, Washington, March 24.—Major William D. Crosby, surgeon, has been ordered to duty at Vancouver Barracks.

**Northwest Postal Affairs.**

OREGONIAN NEWS BUREAU, Washington, March 24.—Courtney J. Belknap has been appointed regular, Marion H. Belknap substitute, rural carrier, route 4, at Cheney, Wash.

Mary S. Thomas has been appointed postmaster at Mayville, Or., vice J. F. Parsons, resigned.

**PORTLAND MAY GET TIME BALL**

**Navy Department Favorably Considers Board of Trade's Request.**

OREGONIAN NEWS BUREAU, Washington, March 24.—Senator Fulton was assured today by the Secretary of the Navy that the Equipment Bureau had been investigating the necessity of installing at Portland the time-ball system for the aid of mariners. Mr. Fulton had presented the request of the Portland Board of Trade, with an urgent appeal that this usual feature of maritime cities be part of the Government equipment of Portland. The matter seems to have the favor of the head of the department, and, unless unforeseen difficulties intervene, orders for the work are expected to be issued in the near future.

In presenting the request of Portland's mariners and merchants, the Board of Trade emphasized the troubles now experienced by captains in checking the variations of their chronometers, and brought to the attention of the Senator the large number of vessels visiting Portland annually. These facts have been placed before the department.

**NO CHANCE FOR PALOUSE PLAN**

**Grunsky Finds Cost Far Exceeds Available Funds.**

OREGONIAN NEWS BUREAU, Washington, March 24.—C. E. Grunsky, consulting engineer of the Reclamation Service, in his adverse report on the Palouse irrigation project says:

It has become clear that circumstances do not favor nor warrant undertaking the Palouse project so long as others with less doubtful features are brought within reach of the funds at the disposal of the Secretary of the Interior. In consideration of the conditions as found and especially in view of the elements of unusual risk to which the Palouse project is subject, the project should for the present be suspended from further consideration. As soon as construction is authorized on the Yakima and Okanogan projects, the land withdrawn from entry for the benefit of the Palouse project should be restored to entry and that thereupon no further consideration should be given to this project.

Mr. Grunsky finds that it would be possible to reduce the Palouse project to a cost of $4,000,000 by eliminating certain land, but the cost per acre cannot be brought below $60. The restricted fund to the credit of Washington on June 30 next, will be $2,000,000, but more than that has already been allotted for the Yakima and Okanogan projects, both of which Mr. Grunsky believes will be built. He therefore sees no way of constructing the Palouse project and, in view of this report, it will be set aside for several, perhaps many, years to come.

**BARS JAPANESE FISHERMEN**

**Fulton's Alaska Bill Will Pass House Without Difficulty.**

OREGONIAN NEWS BUREAU, Washington, March 24.—Japanese encroachment in the fishing waters of Alaska will be brought to a close this year. Senator Fulton's bill prohibiting aliens from taking fish in the waters of that district is on the House calendar and is assured of final enactment there. For some time, especially last year, the Japanese have been pressing their fishing operations further and further on the American side of Bering Sea and the North Pacific Ocean. United States vessels found them last year far in the Alaska fisheries catching salmon in large quantities and pickling fish for return to Japan. No seizures were made, but most of the Japanese vessels took to flight when observed.

# MORGAN FLEES FROM ROME

**FINANCIER HEARS RUMORS OF PLOT TO KILL HIM.**

**Search for Antiques and Works of Art Loses Its Charms in Short Order.**

ROME, March 24.—J. P. Morgan has fled from Italy in fear of his life. There was a plot to kill him. He came to Rome to buy antiques and works of art, but before he could unpack his luggage he heard rumors that sent him flying. During the past three days the Roman newspapers have been discussing the precipitate flight of Mr. Morgan. The chief of the Roman police meets the rumors with humor. He says the plot to kill the American financier was merely a ruse of jealous antiquarians who wanted to scare Morgan out of Italy.

Never did a ruse work more successfully. Friends of Morgan say that when he heard that his life was in danger he gave way at once to fear. His nerves became raspy and in a few hours he had assured himself that Rome was no place for him.

He had engaged the whole first floor of the Villa Florence, but all his luggage had not been delivered there before he announced that he would start for the frontier without delay.

# ANOTHER BODY IS FOUND

**Yet Another Buried in Century Mine. Cause of Explosion.**

PHILIPPI, W. Va., March 24.—One body was recovered from the Century mine today and another is known to be still buried under the fall of slate. This increases the number killed by Thursday's explosion to 22. The funerals of several of the victims were held today, and the others will be buried tomorrow.

An exhaustive examination of the mine is being made by State Mine Inspector Paul and Coroner Chenoweth, and as soon as the results of the investigation are known the inquest will be held. The explosion is believed to have been caused by a "blown-out shot."

The actual damage to the mine will not exceed $200, and operations will be resumed immediately after the mine inspector reports.

# THE VALUE OF CHARCOAL

**Few People Know How Useful it is in Preserving Health and Beauty.**

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at druggstores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

# GRAFTER ON STAND

## Says Cincinnati Mayor Sold Grain to Fire Department.

## ARTICLES FALSELY BILLED

**Go-Between Tells How City Officials Worked Under Boss Cox—County Treasurers Refund Steal-ings of Past Years.**

CINCINNATI, March 24.—(Special.)—The committee from the Senate this afternoon went into the manner of purchasing supplies for the city fire department during the George B. Cox regime. A. Bender, a grain merchant, whose business has recently been put into the hands of a trustee in bankruptcy, testified under oath that he had, at the solicitation of General Manager W. W. Granger, of the Union Grain & Hay Co., of which ex-Mayor Julius Fleischmann is president, and his brother, Max Fleischmann, a director, billed oats to the city fire department as coming from the Bender firm when in reality the oats were furnished by the Union Grain & Hay Co. Julius Fleischmann was at the time Mayor and Granger was a Councilman.

Bender also said that in order to dodge an ordinance against the purchase of more than $500 worth of any one variety of supplies at one time, he had, at Granger's command, made two bills on numerous occasions of purchases of more than $500 worth of oats. The witness said he got from one-quarter to one-half cent a bushel for his trouble in the matter.

**Exorbitant Prices Charged.**

He had acted for the Union Company, he said, in such transactions when that company was getting 5 and 6 cents and over per bushel more than the market price. He said such sales were often made by the Union Grain & Hay Co. to Fire Trustee Abe Furst, he (Bender) duly billing the oats as coming from his concern.

Ex-Fire Trustee Furst, who is now a member of the Board of Public Safety, denied on the stand Bender's charges.

In the early part of the session City Auditor C. T. Perkins testified that a multitude of city officials, even female stenographers, were obliged to give bond when appointed, and that he, himself, was an officer in one of the bonding companies that furnished the bonds, and that he got some fees in that connection.

**Graft in Official Bonds.**

It was shown that the General Underwriting Company, of which Treasurers Gibson and Huinecka were officials, arranged for nearly all these bonds and got fees or commissions for furnishing them.

As a result of threatened suits to force the return to the county of cash gratuities received by County Treasurers, for some time past, for allowing banks the use of county funds, there were more restitutions today. John Gibson turned over to Public Prosecutor Polson $70,136.65, and Treasurer Huinecka turned over $35,000, in addition to a similar amount restored two weeks ago.

# IVENS SENTENCED TO DIE

**Murderer as Callous at Verdict as in His Crime.**

CHICAGO, March 24.—(Special.)—Richard Ivens was today found guilty of the murder of Mrs. Jessie Hollister, the jury fixing the penalty at death. It was one of the most atrocious murders ever committed in this community, and, though but a boy of 24 and of previously fair record and good family influences, he exhibited the stolid indifference of the most hardened criminal when the verdict was returned. Only one ballot was taken.

The only person who did not seem to be affected was Ivens, the prisoner. As soon as the verdict had been read, he pulled a cigar from his pocket and snapped at his father, who stood at his elbow.

"Give me a match. I want to smoke." Then he shambled out of the courtroom with the bailiffs guarding him.

Richard G. Ivens aroused the entire city to retributive indignation by murdering Mrs. Jessie C. Hollister in a revolting manner.

**Two Big Warehouses Burned.**

CHICAGO, March 24.—(Special.)—Fire today destroyed the Goodyear Tire & Rubber Company's wholesale warehouse at 82 Michigan avenue and the Becker-Ralston Company's automobile warehouse adjoining. The burned buildings were five stories in height. Loss $300,000.

**Hotel Donnelly, Tacoma, Washington.** European plan. Rates, 75 cents to $2.50 per day. Free 'bus.

# IN A CLASS ALL BY THEMSELVES.

**Whatever may be said or written for or against so-called patent medicines, there is this to be truthfully said of Dr. Pierce's medicines that applies to no other medicines put up for sale through druggists. They are entitled to a place all by themselves because they are neither patent nor secret medicines—all their ingredients being openly printed in plain English on their bottle wrappers. Then again they are entitled to a place all by themselves because they contain not a drop of alcohol in their composition, or make up.**

Send your address to Dr. R. V. Pierce, at Buffalo, N. Y., with a request for a *free* booklet, compiled by him from standard medical works and you will learn on reading it that the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

Eminent doctors also praise the ingredients entering into Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues, "In Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Of Black Cohosh, another ingredient of "Favorite Prescription," Prof. John King, M. D., author of the AMERICAN DISPENSATORY, says:

"In the painful conditions incident to imperfect menstruation, its remedial action is fully displayed. By its special affinity for the female reproductive organs, it is an efficient agent for the restoration of suppressed menses. In dysmenorrhœa (painful periods), *it is surpassed by no other drug,* being of greatest utility in irritative and congestive conditions of the uterus and appendages, characterized by tensive, dragging pains, resembling the pains of rheumatism. It is a good remedy for the reflex 'side-ache' of women. It should be remembered in rheumatism of the uterus, and in uterine leucorrhœa."

Blue Cohosh root, and Yellow Lady's Slipper root, the two remaining ingredients not mentioned above, have just as strong endorsements for their curative merits in diseases peculiar to women, but we have room for no more. "Favorite Prescription" is a happy and harmonious compound of the above mentioned ingredients and faithfully represents them in curative results.

The foregoing are only a few brief extracts taken from amongst the voluminous endorsements which the several ingredients entering into Dr. Pierce's Favorite Prescription have received from the most eminent medical writers of *all* the different *schools* of medicine. After reading them who can doubt that Dr. Pierce has selected and compounded his "Prescription" from the most valuable ingredients known to the medical profession for the cure of those chronic diseases of women for which he recommends it? A far more extensive endorsement will be mailed *free,* in form of a booklet of extracts, from standard medical works, to any one sending name and address to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

There is no pepper in Schilling's Best ginger; there's nothing wrong in Schilling's Best anything.
