## H. M. CAKE ANNOUNCES PLATFORM

Candidate for Republican Nomination for United States Senator Declares for Tariff for Protection, Not Monopoly, Railroad Rate Regulation and Opposition to Trusts

publican nomination for United States Senstor in the primary elecon April 30, yesterday issued his platform, as follows:

To the Republican Voters and the Peo-ple of the State of Gregon: I am a can-didate for the Republican nomination at the primaries, April 20, for the office of United States Senator for the long term, beginning, March 4, 1907. Bealizing that it is a duty I owe to the people to make known my position on public questions, I respectfully submit the following plat-form, pledging myself to abide by its ev-ery declaration in the event of my elec-tion:

### Republican Principles Vital.

Republican Principles Vital.

The experience of our country has shown the enforcement of the principles of the Republican party to be necessary to the prosperity of our people and the maintenance of our institutions in their most satisfactory form. It has been during the times the Republican party was in power that the country has made its greatest strides along industrial and commercial lines and in respect to the better principles of public policy.

In maintaining this party in power and in enforcing his principles, it is in all respects consistent and proper that consideration be shown to those who have loyally adhered to the party and at all times worked for harmony and the stability of the organization. Discord, factions and unsettled allegiance to the party and its candidates for National office, especially when these involve the vital principles of the party, are to be deplored, for they strike at the very foundation of its organized existence and seek to place the reins of government in the hands of those whom it is least desirable to place in power.

### Development of Oregon.

At no time in the history of this state has the necessity of attention to its development been so urgent as now. We stand upon the threshold of an era of expansion along industrial and commercial lines without precedent in previous annuls. Much that is to be done in nivancing the interests of our common-wealth must come from the Federal Government, and careful and vigerous effort will be precessary to procure such aid in the nature of appropriations that will because the rapid and steady improvement of our natural highways of commerce and the uniting of our various interests for a greater state. greater state.

## Improvement of Harbors.

Improvement of Harbors.

The rivers and harbors of a country are of vital importance to its growth. The unimproved condition of the waserways and harbors of this state have greatly retarded its development. To overcome this, Federal assistance is necessary, and to procure it with all possible dispatch is one of the imperative needs of the hour. Appropriations for river and harbor improvement should be ample to carry the work to completion; and should be made under continuing contracts for permanent improvement, and not under the pressure of emergencies, to preserve the work already done.

If I am elected to the Senate I piedge myself to the people of this state to spare no effort to procure Federal appropriations for the completion of jetty construction at the mouth of the Columbia River; the opening of the Balles-Celio canal, as a means of increasing the facilities of commerce and regulating traffic rates for the great Inland Empire; the dredging of the Walamette River, one of the mortant in the state; the deepening of the harbors of Tillamook, Coop and Yaquina Bays and the Coquille River, to the end that our commerce and the vast resources of the coast country developed.

Vigorous Policy of Reclamation.

## Government Ownership Oregon City

Federal ownership of the locks at Oregon City has come to be one of the urgent needs of the state. The growing commerce of the Willamette Valley amply justifies such a course. Valuable franchises at strategic points should not be vested in the hands of private interests to the public detriment. The tolls levied by the owners of the Oregon City locks have long acted as an embargo on Willamette Valley taffic and served to keep up the rates on railroad lines. Such a condition Valley traffic and served to keep up the rates on railroad lines. Such a condition is obstructive of the development of one of the richest sections in Oregon, and I am unalterably in favor of its removat. Tariff for Protection, Not Monopoly.

I am in favor of a tariff for protection.

River: the opening of the Dallies-Ceimo canul, as a means of increasing the facilities of commerce and regulating traffic rates for the great Inland Empire: the dredging of the Walamette River, one of the most important in the state; the deepening of the harbors of Tillamoora, toon and Taquina Bays and the Coquille River, to the end that our commerce may be sumulated and the vast resources of the coast country developed.

Vigorous Policy of Reclamation.

The reclamation of arid lands is one of the important needs of Oregon and a condition to its full development. I favor a more vigorous policy on the part of the Federal Grovernment in the prosecution of the country corporations coming within the trust class should be dissolved and probabilited from engaging in business, and in the application of Oregon's share of the irrigation fond to the work and in the application of the cartual development of prigation projects, than has hereisfore characterized reclamation work in this state.

Opposed to Trusts.

Trusts and combinations of capital, organized for the purpose of monopolizing the purpose of monopolizing and possible dispatch.

The Rights of Labor.

I favor such legislation by the Federal Government as shall protect the American workingman in securing his rights, foot the colorsal aggregations of the labor of the stability of the Republic. The right of the workingman in the stability of the Republic. The right of the workingman in the stability of the Republic. The right of the profection of the country. Boy's False Alarm of Fire Breaks Up Easter Eve Services in Chicago - Floor Collapses Under Crowd.

CHICAGO, April 14.-During a panie which followed a false alarm of the fo-night widle 400 persons were participating in the Easter service in the St. Ludlimas Roman Catholic Church at Twenty-fourth street and Albany avenue, three children and one woman were killed and a score of others injured, several seriously. The majority of the worshipers were women and children, and in a few minutes all were to a tangled mass, lighting to es-cape from the supposed danger. Many persons jumped through the win-

dows, but the greater majority crowded to the center aisle. The extra weight proved too much for the floor and some of the beams supporting it broke. The cracking of the timbers increased

the fright of the now terrified women and children and every one in the place be-came panic-stricken, men, women an children fighting desperately with each other in an effort to reach the outside. women and children suffered most in the struggle, and when the church was finally empited three children were lying dead in the alsks and one weman was so hadly hurt that she died while being reoved to the hospital. Fully a score of other persons, principally children, were more or less injured, but none fatally. A bey's prant was responsible for the accident. While Rev. M. Parnik, paster of the church, was offering the evening prayer, one of a crowd of boys who had been loltering outside the church sud-denly pushed open the front door and shouted "fire." The boy fled and cannot

## Exclusion of Chinese Labor.

Experience has shown the present sys-tem of electing United States Senators to be unsatisfactory. The citizenship of this country demands a change, and I am in favor of an amendment to the Federal Constitution providing for the election of Senators by direct vote of the people. Un-der the present system the struggles, deals and deadlocks incident to the elec-tion of Senators has absorbed the time and attention and distracted the energy of legislatures to the detriment of needed legislation, and I indorse the direct-elec-tion plan as a means of removing this evil and as further tending to make Uni-ted States Senators more responsible to the people, and consequently more heed-ful of their interests.

Prospective Philippine Governor.

LONDON, April 14.-(Special.)-The LONDON, April 14.—(Special.)—The following details have been received of the mutify on Wednesday on board the Portuguese flagship Don Carlos at Lisbon. The discipline aboard the warship had been lax and new officers were recently put in command. The men resented this and when shore leave was refused them they seized a Lieutenant and carried him to the bulwarks, shouting. Throw him overboard.

Two warrant officers, by threatening to fire on the mutineers, saved the Lieutenant from taking an involuntary bath, but the men insisted that he be put ashore, which was done. Upon landing, he informed Admiral Sou. Upon landing, he informed to be the ship. The crew, however, refused to let the Lieutenant aboard. It told the Admiral that, unless the government promised pardon and gave an entirely new set of officers, it would sink the ship. The Admiral promised to comply with the men's demands if they would surrender.
