

## GETTING GOOD NEWS

Portlanders Wire Relatives of Their Safety.

### BRIEF MESSAGES OF CHEER

Relatives and Friends Hear From San Francisco and Oakland That Dear Ones Escaped From the Disaster.

While hundreds of Portlanders are still anxious about the safety of relatives and friends in San Francisco, a few telegrams continue to arrive announcing the safety of those who went through the terrible earthquake and fire experiences. The telegrams received are a study in themselves. The experiences of some can almost be read between the few short words which the messages contain, while in others, especially those from business men, can be seen the commercial spirit that would not down even during such a calamity.

Telegrams received yesterday by Portland citizens are: W. H. Marshall, of 242 Holladay avenue, received word last night from his sister, the Misses Margaret and Vida Marshall, that both were safe and would arrive in Portland this morning.

Harry Beck, of Mason, Ehrman & Co., reports that he is safe and is camped at the Presidio.

#### Words of Safety.

Mrs. J. P. Levy and son are reported safe. They are camped at the Presidio.

George F. Walker, Jr., telegraphed to George McGowan, 246 Montgomery street: "We are all right with Brinks in Oakland. Everything lost."

Miss May Van Alstine, daughter of Dr. E. E. Van Alstine, in the Marquam building, telegraphed: "Safe. Send money to 719 Thirteenth street, Oakland."

Herman Wellisch wired to Otto Rothschild, "All safe at home. Not hurt."

Frank Anyers, of the Wiley B. Allen Music Company, San Francisco, telegraphed Mrs. E. G. Kester, of this city, that all were well.

Mrs. Claus, wife of M. C. Claus, of the steamer Columbia, who was in San Francisco during the earthquake, received a message that her husband was safe in Oakland. The message also says that M. A. Burbee, first assistant officer of the Columbia, escaped injury.

G. W. Webber has received a telegram from his brother-in-law, R. L. Aldrich, informing him of the safety of himself and brother, W. L. Aldrich, and wife.

Mrs. Edward E. Courson, who has relatives in San Francisco, received this dispatch yesterday from a nephew in that city: "Family all safe at Hallock's residence."

Wilfred A. Jones, a student at the Cooper Medical College in San Francisco, has wired from Berkeley to his sister, Mrs. Clarence H. Gilbert, of this city, that he is safe and uninjured.

#### Mills College Uninjured.

The following was received from Mills College: "C. A. Dolph, 362 West Park street, Portland: Very little damage. Work going on as usual. Friends publish in Oregonian.—Mrs. C. T. Mills."

The following was received by Fred Munk, 82 1/2 Front street: "Lost all. Mama, Will and Ted all right. Town in ashes.—D. W. Paul."

Mr. R. E. Lafferty, the local representative of J. A. Folger & Co., coffee and spice merchants, of San Francisco, is in receipt of the following telegram from the San Francisco house: "People all uninjured. Will resume operations next week."

Berge-Carter Company, machinery and hardware dealers in San Francisco, wired the following to their representative, Mr. A. F. Nye, who is in Portland at present: "Earthquake fire razing San Francisco. Ready for business."

The following dispatch was received here by Francis W. Pettigrove, representative of the Folgers, today: "Oakland, Cal., April 19.—S. W. Pettigrove: All our people uninjured; building and stock safe; suspend business until notified, probably operating next week. Notify your men.—J. A. Folger & Co."

## BABES BORN IN OPEN AIR

### BERKELEY ESTABLISHES HOSPITAL FOR MOTHERS.

Capacity of Town Taxed by Refugees. Strict Quarantine and Compulsory Bathing.

BERKELEY, Cal., April 21.—A maternity hospital has been established under the direction of Professor Magee at the University of California, where unfortunate victims of the fire who are about to become mothers are being cared for. Last night three mothers were delivered of babies and all the infants are living. One child was born in the public square. The physician now have the work of relief so well in hand that such pathetic scenes as this will not be enacted again.

The refugees keep coming into Berkeley, though the town is now feeding and sheltering 8000 people in public buildings and at the university and 2000 more in private houses. The capacity of the town is taxed to the limit. Strict quarantine rules were put into effect this morning and every effort is being made to check disease.

The thousand individual shower bathrooms in the men's gymnasium and the like number in the women's gymnasium at the university have been thrown open to the refugees, and men, women and children alike are being compelled to take a bath and change all clothing.

An attempt will be made to open the public schools here Monday. The university will remain closed indefinitely.

### SHOT DEAD BY THE SOLDIERS

Several Men Killed for Not Working or for Stealing.

SAN FRANCISCO, April 21.—There appears to be considerable confusion and conflict of orders between the military and civil authorities today.

Many rumors that summary executions of men caught in the act of looting last night were afloat today, but with a single exception could not be verified.

The only case of shooting positively known this morning is that of a foreigner who was ordered to chop down some trees by a soldier. Not understanding English, the foreigner started

## Straight from the Shoulder

**SINCERE**—Same in reality, as in appearance; unfeigned; genuine; frank; honest; true; Webster's definition of the word "sincere" is equally applicable to **SINCERITY CLOTHES**.

Truth often averts;—but truth more often helps.

It is our intention to give you facts about clothes-making—**Straight from the Shoulder**.

Cloth can't be stamped out by machinery as metal is, because cloth is variable in texture.

Different Operators get different results with the same cloth;—so every garment ought to receive individual treatment.

Defects are bound to occur in the process of making, and the finished garments from the tailor's hands are often found very imperfect.

Now with about 50 per cent. of clothes-makers, the Hot Flat-Iron comes into play at this stage.

It is the ready **Cure-All** of the clothing business.

With the Flat-Iron, a slack seam is shrunk up or a **lightness** stretched out;—

This answers the purpose for the time being, but these defects are only **masked** by this method.

It is the cheapest way to "doctor" garments;—but it does not remove Faults—**permanently**.

For, after the garment is worn on a damp day, the "Flat-Iron" **stings** out, just like the work of the Curling-Iron.

That accounts for the multitude of shoulders that become humpy and sloping;—

—Collars that set away from the neck or bind too tightly;—

—Lapels that set away from the collar;—

—Sleeves that twist, and pinch up under the arms;—

—Coat fronts that wrinkle crosswise under the arms from slack seams.

One good test of a Sincerely made Coat is this:—

—Lay it out on a table, as shown in the picture, and you will see that the **outer edge** and **inner edge** will lie perfectly straight.

If the Flat-Iron has given shape to the collar, you will find these lines **curved** and **wavy**.

In making **SINCERITY CLOTHES** by **Hand-Revision**, there is no need of Flat-Iron "making," and you will find that a **SINCERITY Suit or Overcoat** requires little or no pressing during its life, because of this "Sincerity" in tailoring.

Now if this Shape-Retention and Style-Insurance seems worth investigation or worth having in your closet, Mr. Reader, it is also worth asking for. It's up to you.

The label of the **SINCERITY CLOTHES** Makers, reads as follows:—

**"SINCERITY CLOTHES"**

MADE AND GUARANTEED BY

KUN, NATHAN AND FISCHER CO.

CHICAGO

Send a 2 cent stamp for "The Test."

to walk away, and was shot through the body and dangerously wounded.

There are persistent reports of the hanging of two men in Jefferson Square last night, but not even the police could verify this, because no individual officer had made a regular report to the Chief this morning.

It is also reported that two Japanese were shot and killed by soldiers in the Western Addition, and that there was considerable thievery in the residence section last night.

It is probable that there will be an effort made to bring about complete co-operation between the military and civil authorities.

#### Will Not Postpone the Fair.

R. I. Damm, president of the Ad Men's League and chairman of the "Made in Oregon" exposition movement, declared that the holding of the industrial fair will not be delayed, but that a meeting will be called and an effort made to have the fair prove of some benefit to the California sufferers, as well as to exploit the resources of Oregon.

#### Milwaukee Country Club.

Los Angeles and Oakland races. Take railroads and Oregon City cars, first and last.

#### GUARANTEED LIQUOR CURE

No Detention From Work or Loss of Time. Desire for Drink Destroyed by Oritine.

When one of our most reliable druggists makes a positive statement that he will guarantee to cure the liquor habit if Oritine is used in accordance with directions or refund the money, it shows his great faith in the treatment. It is in this way that Oritine is sold by the leading druggist in nearly every city and town. In every box is a registered guarantee which entitles you to a refund of your money if Oritine fails to effect a cure.

No other cure for the liquor habit has been sold in this way and the remarkable guarantee shows how much superior Oritine is to the ordinary sanitarium or home treatment. There is no detention from work or loss of time when Oritine is used. It destroys the desire for liquor, so that the drink will not be missed, and also cures the deranged digestion, weakened nerves and other ill effects of excessive drinking, restoring the patient to perfect health.

Oritine is prepared by two forms. No. 1, the secret remedy, which can be used in food or drink without the knowledge of the patient. No. 2 for those who take the remedy of their own free will. Both forms are absolutely guaranteed to cure or they will cost nothing. Treatise on how to cure drunkenness free on request. Oritine Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one-tenth what is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained.

Oritine is for sale by Woodard, Clarke & Co., Druggists, Distributing Agents, Portland, Or.

## RESTFUL SUMMER FURNITURE

Of the many Summer requisites none are so desirable and essential to comfort and pleasure as restful Outdoor Furniture. Our display of the season's requisites is complete in its entirety, and especially do we say this of our showing of artistic Furniture Pieces for the porch, the lawn and the Summer cottage. More popular than ever are the rustic "Old Hickory" designs. This famous Furniture is most appropriate in appearance to its surroundings. It is constructed entirely of hickory, the bottoms and backs being of the inner growth hickory bark, plaited by hand. This bark is of far greater strength than any other seating material. The odd designs of the many different "Old Hickory" pieces have in no way detracted from its comfort. Aside from the "Old Hickory," we are showing many other artistic porch and lawn pieces in the red, dark green, light green, natural and weathered finishes, with seats and backs of woven glazied reed or plain wood. In this complete showing of Outdoor Furniture are the many pieces which are most appropriate—Settees, Arm Chairs, Morris Chairs, Rocking Settees, Tables, Tabourettes, Stools and Plant Stands. Also Children's Chairs and Rockers in the "Old Hickory."

## ZINC AND PORCELAIN LINED "GLACIER" REFRIGERATORS

Require less ice than any other Refrigerator; this because of their scientific construction. The walls of the "Glacier" Refrigerators consist of eight sections—two of wood, one of mineral wool, three of sheathing, one of zinc and one for free circulation of air. The arrangement of ice chamber and food compartments is most commodious and simple. To all intending purchasers of a modern Refrigerator we recommend the great "Glacier" line. In these we are showing this season over 20 different styles and sizes, ranging in price from \$8.00 to \$70.00. Special terms, \$1.00 down and \$1.00 per week.

## A SPLENDID ARRAY OF GO-CARTS FOLDING AND RECLINING

The prettiest patterns and the latest and most reliable gear construction. The variety of artistic body designs are excellent examples of the reedworkers' art. The reclining and folding mechanism is so simple as to require little or no exertion to open and fold. Upholstery work in the most reliable fabrics and appropriate colors. Parasols in dainty nets and colored effects. Our gathering of Go-Carts embraces no less than 50 different styles. We have some as low as \$3.50. Special terms, \$1.00 down and 50 cents per week.
