

# SWAMPERS IN RACES

## Runners and Jumpers Attract More Interest Than Knights of the Diamond.

### OREGON VS. CORVALLIS

#### Keen Rivalry Will Be Shown in Friday's Meet—Triangular and Interscholastic Contests Also in Prospect.

Outdoor athletics are in full swing in the colleges and schools of the Northwest, and the present season promises to be one of the best on record. Baseball is dividing honors with track athletics as nearly all the educational institutions, but interest seems to center upon the runners and jumpers rather than upon the knights of the diamond. Several preliminary meets have been held, and while no records have been broken, there has been some fine sport. At the recent indoor meet at Corvallis University the 200-yard race between Smithson, of the Oregon Agricultural College, and Kelly, of the University of Oregon, was one of the closest and fastest sprints ever seen in this city. Kelly won by a close margin, but he defeated a worthy foe. From the records made at the Columbia meet, it is evident that there will be some very close competition when Oregon and Corvallis meet at Eugene next Friday.

Although Oregon has not defeated the Agriculturalists in a straight outdoor meet since 1903, students of the state variety believe that the tables will be turned next Friday. Corvallis had a wonderfully strong team and the best 400-yard man in the men that made the 1906 aggregation invincible have left college. Dow Walker, the big hammer-thrower, is among the absent ones, however, and the champion discus-thrower. The most serious loss, however, is that of Floyd Williams, captain of last year's team, who is now in the West. Williams and Smithson made a great team for the sprints, but the fleet-footed Portland lad will have to go it alone this season. Eugene is the host for the Agricultural College, and the Agricultural College still has the nucleus of a strong team, and those who know "Dad" Trine say that he will take a lunch at Eugene, and that Hayward's lads will have to work like Trejans if they expect to win the meet. Despite his recent defeat by Kelly, Smithson is probably in more points in the sprints and hurdles than any man in the Northwest, and it is known that Greenhaw is a very fast man in the 400 and 800-yard runs, and that he is a corking good man in the mile run, while Swan is looking after the jumps and vault. In the weight events, where the Agriculturalists have hitherto been reported as weak, Dunlap and Tyler are showing up well, although they are hardly in the same class with Hug and McKinney, of the university team. At the Columbia meet, Corvallis team was well balanced and shows marked superiority over Eugene in the long runs.

#### Trainer Hayward's Men.

At the University of Oregon Trainer Hayward has a fine lot of men at work, and he is a very successful manager. It is said that the team is much stronger than it was at the Columbia meet. Dan Kelly is undoubtedly the best 400-yard man that ever wore the colors of the State University. He is good for almost 23 feet in the broad jump, and for 5 feet in the high jump. Hayward's men are this he is a crack sprinter and hurdler. Friesell is a good broad jumper, and is regarded as a point winner in several events. Friesell is another one of Hayward's reliable athletes, his specialties being the hurdle events. Moulton is regarded as a sure man in the 400 and 800-yard runs, and he promises to be an interesting Oregonian. His chief strength lies in the weight events, but the team was miserably weak in the distance runs at the Columbia meet. This season, however, the team is much improved. The Oregonian's chief strength lies in the weight events, but the team was miserably weak in the distance runs at the Columbia meet. This season, however, the team is much improved. The Oregonian's chief strength lies in the weight events, but the team was miserably weak in the distance runs at the Columbia meet. This season, however, the team is much improved.

#### Several Important Meets Besides that of Next Friday.

Several important meets besides that of next Friday will be held during the season. On the same day the Washington State College athletes will hold their annual meet with the University of Idaho. On June 2, the Corvallis aggregation will meet the Washington State College on Rogers field, at Pullman. The Oregonian's chief strength lies in the weight events, but the team was miserably weak in the distance runs at the Columbia meet. This season, however, the team is much improved. The Oregonian's chief strength lies in the weight events, but the team was miserably weak in the distance runs at the Columbia meet. This season, however, the team is much improved.

#### Triangular Meet in Seattle.

The most important athletic event scheduled for the coming season is the "triangular" league meet, in which the state universities of Oregon, Washington and Idaho will participate. This event will come off on June 2 at Seattle, and its outcome will be watched with interest throughout the entire Northwest. It is thought that Oregon is strong enough to defeat either Washington or Idaho by a good score in a dual meet, but what effect the three-cornered arrangement will have on the Eugene meet is hard to say. Washington has a stronger team than last season, and Captain Rex Smith and Coach "Win" Cutler hope to wipe out the memory of last season's defeat at the hands of Oregon. Smith is a great athlete, probably the best that ever represented Washington. He has done 22 feet 2 inches in the broad jump, 2 feet 10 inches in the high jump, 10 seconds in the 100-yard dash, 2:25 in the 200, and 5:2 in the 400. Upon his ability to defeat Kelly in a majority of the events depend Washington's chances of winning on June 2. Smith is not the only good man on the Washington team. Forster and Nelson, the new men, are showing up splendidly in the middle distances, while McCarty is

running the mile with his accustomed speed. In the weight events, Jarvis and Reaser are assisting McDonald, while Harrison is clearing 11 feet in the vault. Washington is strong on seconds and thirds, has a fast relay team, but is weak in the hurdles. Oregon's weakness in the long runs will not impair her chances of winning. For these points will undoubtedly go to Idaho, while the real contest of the day will be between Oregon and Washington.

#### Varsityes to Contest at Salem.

Following the Seattle contest comes the big intercollegiate meet at Salem. This promises to be more interesting than last season, for Oregon and Corvallis are close-matched, and the points that Pacific and Willamette will win may determine the outcome. The winner of next Friday's meet at Eugene may not be the victor at Salem, for conditions are likely to change materially in three weeks, and the athletes from Salem and Forest Grove may prove serious factors in determining the result. Peterson and Feltcher, the middle-distance men from Pacific, are regarded as sure point-winners, as is Forster of Willamette. Lounsbury, another Pacific athlete, is a splendid mile and half athlete. He can put the shot beyond the 30-foot mark and can clear the bar at 5 feet 9 inches in the high jump. In the 100-yard dash—Pearson (U. of W.) and Smithson (O. A. C.); time, 10 seconds. 200-yard dash—Pearson (U. of W.); time, 2:15 seconds. 400-yard run—Williams (O. A. C.); time, 50.5 seconds. 800-yard run—Edmanson (U. of I.); time, 2:00. 1500-yard run—Merritt (Whitman); time, 4:02. Two-mile run—Gates (Pacific); time, 12:30. 3-mile run—O. A. C.; time, 3:30-1:5. 100-yard hurdle—Heater (U. of O.); time, 18 seconds. 200-yard hurdle—Coates (Albany); time, 35.4 seconds. Pole-vault—Gilbert (Pacific); height, 11 feet 7 inches. Broad jump—Kelly (Columbia); distance, 22 feet 9 1/2 inches. High jump—Grant (U. of W.); height, 6 feet one-half inch. Shot put—McDonald (U. of W.); 43 feet 3/4 inches. Hammer-throw—McDonald (U. of W.); 143 feet 10 inches. Discus-throw—Gardner (U. of W.); 115 feet 1 inch.

#### Better Records than These Have Been Made at the Intercollegiate Meets at Salem, but They Have Not Counted as the Salem Track is Not a Regulation Track.

#### LEAGUES GIVE AID.

Baseball Clubs Contribute to the Relief Fund. It is extremely gratifying to report that, as usual, our baseball friends have risen grandly to a great emergency. As contributors to the San Francisco relief fund, the various baseball clubs and the two leagues have excelled in the number of benefit games played and amounts realized all other sporting benefits probably being included. It is safe to say that the various major league benefit games, including a National League \$1000 game, will exceed \$10,000 in cash; and the end is not yet.

#### When I discovered," said Mr. Peirce, "the McWade had unwisely had the tiger skin in question packed with my effects I did not know where to send it. Doubtless prudence should have suggested my packing the skin in a bag marked with his name on the outside, and storing it at the State Department for him, but I was greatly occupied with the preparation of my formal report, with which I was busy, and I did not have time to do so. My report shows for itself, however, whether or not I was influenced by this attempt to embarrass the performance of my duties."

#### McWade's Statement False.

"He accuses me of double-dealing, saying that I told him he was entirely overgenerous and that I dictated a telegram to Senator Penrose to that effect. This is unqualifiedly and absolutely false in every particular. Mr. Peirce then submitted some telegraphic correspondence which he had with the State Department immediately subsequent to his inspection of the Canton Consulate, written in cipher, in which he said: "Canton conditions are indescribable," and that the club was to be disbanded and discharged his clerk, Silva. Secretary Hay refused to grant such authority and cautioned Mr. Peirce to advise the State Department of the matter and that no publication referring to it should be made. Replying to this, Mr. Peirce said: "It is clear the Consul-General at Canton is guilty of corruption."

#### No Comfort From Penrose.

Computing further on Mr. McWade's charges that Mr. Penrose had a hearing for him, Mr. Peirce produced a copy of a letter from Mr. Penrose to the President, written September 8, 1904, in which he said: "Of course, remove McWade if he has been found incompetent or unworthy." Mr. McWade gave the committee during his hearing a letter which said that not one upright, reputable man could be found who did not speak in the highest terms of him. Answering this, Mr. Peirce submitted letters derogatory to Mr. McWade from Clifford Pinchot, chief of the Bureau of Forestry of the Department of Agriculture; Admiral R. D. Evans, Secretary of the Navy; and Commander W. S. Sims and Lieutenant R. E. Pope, of the United States Navy.

#### MAJORITY FAVORS SEA-LEVEL

#### Carmack's Return Will Decide Question of Canal Type.

WASHINGTON, May 12.—The Senate committee on inter-oceanic canals is in a deadlock on the question of the type of canal to be recommended. The question was taken up today and the vote showed a tie for sea-level canal and five for the lock type, recommended by the minority of the board of consulting engineers. There were two absentees, Senators Gorham and Carmack. The latter telegraphed from Tennessee, instructing the chairman to count his vote for the sea-level type, which would have made a majority against the lock canal desired by the Administration. After wrangling for an hour over the question of accepting the vote of Senator Carmack, the committee adjourned until Wednesday next. The vote was as follows: For sea level—Kittredge, Platt, Aiken, Morgan and Talliferro. For lock type—Millard, Hopkins, Drexler, Knox and Simmons. If Senator Carmack should return to Washington before the meeting Wednesday undoubtedly the decision of the committee will be in favor of a sea-level canal.

#### Upholds Law Against Women's Work

NEW YORK, May 12.—A brief upholding that section of the labor law which forbids the employment of women in factories after 9 P. M. or before 6 A. M. was filed in the Court of Special Sessions here yesterday by Attorney General Mayer. The brief was filed in reply to a demurrer alleging that the law is unconstitutional, which was put by counsel for an employing printer, who was arrested charged with violating the labor law.

# A REAL NECESSITY

Safe-Deposit Vaults have become a real necessity. They afford you protection against burglars, against fire and against flood. Our vaults are among the finest and strongest. Charges are very reasonable.

### GIFTS FOR THE AUTO MERRY HONK.

#### Peirce Explains About McWade's Tiger-Skin.

It is heard at all hours on Portland's Streets. The automobile season is on and the merry honk-honk of the Gabriel and small horn can be heard at all hours of the day or night, for the pilots of the silent steeds are carrying on a merry and pleasant game of not mope. In driving their vehicles after dusk as they do in the light of day. The weather has been ideal for the enjoyment of this sport, and the local enthusiasts have availed themselves of every opportunity of spinning on the roads adjacent to the city.

#### Investigator of Consuls Answers Attack of Canton Official—Senator Penrose Refused to Shield the Corruptionist.

WASHINGTON, May 12.—The Peirce-McWade controversy regarding charges and counter-charges regarding Robert McWade's administration as Consul-General at Canton, China, was the subject of a two hours' hearing today before the House committee on foreign affairs. Mr. Peirce was heard behind closed doors and the tiger skin, Mr. McWade asked him to accept a set of teakwood furniture, which he declined, saying: "You should understand, Mr. McWade, that I cannot accept anything from you."

#### Forget About Tiger-Skin.

"When I discovered," said Mr. Peirce, "the McWade had unwisely had the tiger skin in question packed with my effects I did not know where to send it. Doubtless prudence should have suggested my packing the skin in a bag marked with his name on the outside, and storing it at the State Department for him, but I was greatly occupied with the preparation of my formal report, with which I was busy, and I did not have time to do so. ## SULTAN GIVES UP

### Yields to British Demand in the Tabah Affair.

#### ACTS AT ELEVENTH HOUR

Decision is hastened by England's Naval Preparations—Fleet Will Remain Till Boundary Is Marked.

#### Surrender Not Conditional.

LONDON, May 12.—In a manner characteristic of Turkish diplomacy the Porte has made an 11th-hour surrender to the British demand concerning the Tabah affair. It has been believed in many quarters that the Sultan would not yield until actual force was displayed, but his decision probably was hastened by the knowledge that none of the powers supported his attitude and the combined fact that British naval preparations had kept pace with his diplomatic demand. Sir Nicholas B. O'Connor, the British Ambassador at Constantinople, in his earlier dispatches had prepared the British government for Turkey's compliance with its demand, and little attention need be paid to the reports of conditional surrender, that phrase probably being intended to satisfy the Turkish people.

#### Will Fortify the Frontier.

When the delimitation of the boundary is settled it is expected that the British government will take measures to render Egypt strategically secure against any similar aggression by drilling a strong Egyptian garrison and fortifying El Arish, and, if the water difficulty in the desert region can be solved, by placing Egyptian garrisons at points on the desert routes from Tabah and Gaza along which an invading army might threaten the Suez canal.

#### TURKEY ACCEPTS INEVITABLE

#### Will Evacuate Egyptian Territory and Grant All British Demands.

CAIRO, Egypt, May 12.—The Turkish government has agreed to evacuate Tabah and all other places in Egyptian territory which have been occupied by the Sultan's troops.

#### Police Chief Kills a Man.

TONOPAH, Colo., May 12.—Fred Anderson was shot and killed here today by Chief of Police McKenzie. Anderson, who was a recent arrival from Arizona, had caused trouble in a house in a questionable part of the city. When the officer showed his star Anderson drew a revolver and fired two shots, both of which missed their mark. McKenzie then fired at Anderson. A coroner's jury found McKenzie had fired in self-defense and exonerated him.

# A Man May Possess

All the qualities and characteristics of a gentleman, but if his appearance does not proclaim him as such, he will not be taken for one.

## In HART, SCHAFFNER & MARX clothes there is a certain character, style and elegance in material and fit that denote the gentleman.

Weshow here the straight front varsity suit. If you want to see how the front of it looks, come in any day and we will show you.

Three-Piece Suits \$12.50 to \$30.00  
Outing Suits \$10.00 to \$22.50

## Sam'l Rosenblatt & Co.

COR. THIRD AND MORRISON STS.

#### His Dog Saved Him.

While working on his farm at Marion, Ind., Philip Shaffer, 56 years old, was kicked by a horse and his right leg broken in two places. Shaffer lay on the ground in a helpless condition. His faithful dog licked his hands and face and seemed to know that something serious had happened. The animal left Shaffer went to his home, and by his actions notified the members of the family of the serious condition of his master, and then led the way to the place in the woods where Shaffer was sitting in the snow, suffering and unable to move. He was numb with cold.

# SKIN DISEASES

## FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pus-tules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off with the skin is left raw and bleeding. Rash or eruption which in spite of all efforts to cure continued to get worse. The itching expected at night is simply terrible. I had tried many highly recommended preparations, but they did not give me relief. I determined to give it a fair trial, and was inexplicably delighted when a few bottles cured me entirely. L. MARNO, Escuintla, Cal.

## S.S.S.

### PURELY VEGETABLE.

It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired, will be furnished without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

## DISEASES OF MEN
