

## SELECTION OF A NEW BISHOP

Three Candidates to Take the Place made Vacant by Recent Death.

### LATE BISHOP'S SUCCESSOR

It is Thought the Choice Lies With Gimms, of Olympia, Scadding, of Illinois, or Clampett, of San Francisco.

The date of the convention for the election of a Bishop of Oregon, to succeed the late Right Rev. B. Wistar Morris, is set for June 1, and an early draw near the discussion of candidates grows warm, and many opinions are expressed about the merits and otherwise of the clergy-men spoken of for this important position. One of the three candidates first talked of has dropped entirely out of the field, or at least he is no longer discussed as a man for the place. This is Rev. A. L. Frazer, of Youngstown, O. To his place, E. W. Clampett, of Trinity Parish, San Francisco, is being talked of as a very desirable candidate. Archdeacon C. T. Grimes, of Olympia, and Rev. Charles Scadding, of La Grange, Ill., still have heavy followings, and, unless there is another change in the state, as is not at all im-probable, the selection of the next Bishop of Oregon will be made from among these three divines.

**Method of Election.**  
The election of a man to fill this office is conducted along rather peculiar lines, the candidate himself having nothing to say in the matter whatever. If he in any way makes it known that he wishes to have the office of bishop his prospects are from that moment nil. A clergyman has the privilege of declining the office of bishop, but never that of soliciting the honor. There are 25 clergymen in this diocese who will have the nominating power at the convention. Each parish is en-titled to three lay delegates, and each mission to one lay delegate. The clergy and laymen meet in separate bodies, and after the former have nominated and elected a candidate favorable to them, his name is submitted to the lay dele-gates. This is for confirmation, and if the laymen prove by their votes that they are not satisfied with the selection of the clergy, another election is conducted, and the second choice submitted for confirma-tion, and so on until the lay body con-firms the selection of the clergy. The lay-men are hopeful of electing a man of a choice of a candidate at the coming convention, so there will be no contest. Rev. Charles Scadding is regarded as a strong candidate for the place.

**Clampett Might Decline.**  
Rev. F. W. Clampett, of San Francisco, is considered a broad churchman, and has a good following here, but it is suggested by many that he would probably decline the position if elected to it. This statement is based on the fact that this clergy-man has a large family, and the salary connected with the Bishopric of Oregon is hardly more than half that he receives in the San Francisco Trinity Parish. This office carries a salary of only \$3500 per annum, with a residence, while that of the Trinity Church in the Bay City is fully \$6000. Rev. Mr. Clampett is a native of Iowa, and was at one time assistant at St. Bartholomew's Church, in New York City. It is claimed that he is a splendid preacher, but his following is not so large as that of either of the other candidates. Archdeacon Grimes is especially advo-cated because of his fine record as a mis-sionary worker. At one time he was con-sidered for the Bishopric of Colorado, and was voted on at the convention for that office. He is a middle-aged man, and was the choice of the late Bishop Morris for the place of coadjutor.

The wide experience of Mr. Scadding and his successful lectures in Eastern States and England are used as argu-ments in his behalf by those who favor him for the future bishop. Mr. Scadding is also a fine preacher. It is thought that the election of a bishop will be made the first order of busi-ness at the coming convention, after which routine work will be taken up. In-terest is usually at its height at this time of election draws near, and the different church factions are each watchful of the progress of their candidates. Archdeacon Grimes is a high churchman, Rev. Mr. Scadding a conservative, Mr. Clampett being favored by the broad churchmen.

### WORK FOR SUFFRAGE CAUSE

Statistics Are Produced at the Oregon Association Headquarters.  
Statistics were produced at yesterday's meeting of the Oregon Suffrage As-sociation in refutation of the statement made by the anti-suffrage forces that the effect of publicity at the public meet-ing to be held this afternoon at the Heilig theater, when Rev. Anna H. Slaw, Rev. R. Ford, president of the Ministerial Association, and George Spencer Clapham, of New Zealand, will speak. Mrs. C. C. Bradford, of Colorado, will be on the platform and answer questions relative to the effect of suffrage in her state, and all who wish to know anything of con-ditions there are asked to present queries. The Suffrage Association yesterday passed a vote of thanks for the resolu-tions adopted by the Federated Trades Council endorsing the equal suffrage amendment. There was an unusually large attendance, and good reports were given from outlying districts. Headquarters in the Stearns building now present a scene of great activity, a large force being em-ployed in the receipt of a letter from Lucy Anthony, requesting that the result of the June elec-tion be cable to that country as soon as known.

"The eyes of the entire world are on Oregon now," says Miss Anthony, "and it is our hope that we can have a good re-sult. I fear, but we expect that it will be settled fairly on election day, and that the working woman will have the protection of the ballot."  
**Improving O. R. & N. Shops.**  
Machinery for the new O. R. & N. shops at Albina is arriving daily and being rapidly installed. Within a short time the Albina shops will be a model of their kind, probably unsur-passed in the West for completeness. With the completion of the new shops, in view of the heavy investment that they represent, there is no doubt but that the Pacific shops in East Port-land will be consolidated with the Albina plant. Confirmation cannot be had of O. R. & N. officials of this pro-posed change, but there is every reason to believe that the repair shops of the allied lines will be consolidated.

## BOYS' 'HERCULES' SHOWER-PROOF SUITS

Did you ever notice where a boy first wears out his coat? We have. A boy's arms are constantly on the go; naturally the sleeve lining in the arm-pit and half way to the elbow receives hard wear.

In a "HERCULES" BOYS' SHOWER PROOF SUIT we have strengthened or reinforced all parts which receive hard wear; the sleeve lining has not been forgotten.

The illustration tells the story; two sleeve linings instead of one where the wear is most severe; both are made of strongest twilled Satin; both will wear the life of the suit. When the first lining wears out all you do is to rip it off; the new lining is in place ready for wear.

It is a little thing to talk about but it is one of the "little" things that help make one "HERCULES" give the service of two "ordinary" suits of the same price; in other words \$10 worth of clothes service for \$5.00.

Look for the "HERCULES" double reinforced sleeve lining ("Patent applied for"); no other boy's coat made has two sleeve linings.

Boys' "HERCULES" Suits are made from guaranteed all wool double and triple Cassimere. We will make you a present of a "HERCULES" suit if you find a thread of mercerized or plain every day cotton in "HERCULES" fabrics. The pants are full lined with Cold Shrink Irish Linen, Sanitary and Hygienic. The coat seams are all taped; "HERCULES" pants seam will never break.

For boys from 6 to 16; one price—\$5.00; will not only outwear any other two \$5.00 suits made but it is a suit no mother in the land would be ashamed to put on her boy.

As have already been the general offices of the two roads. An economy in repair work can be effected by the consolidation of the two plants that has by no means been overlooked by the local Harriman officials.

### CRUSADE AGAINST VICE

Notorious Characters Must Move North of the Dead Line.

A boast that Mayor Lane had been seen and that things had been "fixed," and that Deputy City Attorney Fitzgerald would not interfere in the removal of a certain notorious character from 127 Park street threw "Irish" Young, a gambler and dissolute character, into the hands of the police last evening. Young, who has not been molested for more than two years, although his habits have been well known, boasted publicly that Carmen Clark, a trafficker in vice, would not be compelled to move, although others of her class have been compelled to change their quarters to a district north of Burnside street.

### ELEVEN PROPOSED MEASURES

Voters of Oregon should not forget that they will be called upon in the election on June 4 to express an opinion for or against 11 measures which have been submitted to the people for their approval. One of these is an ap-propiation bill passed by the last Legislature, and referred to the people, five are constitu-tional amendments and five are initiatory laws. Since each meas-ure must receive a majority of all votes cast upon it in order to carry, failure to mark a ballot does not count as a vote against the measure. This should be borne in mind. The substance of these measures has already been published in The Oregonian and further explanation of them will be made from time to time. Copies of them may be secured from County Clerks. Briefly stated, the measures are:  
Appropriation bill of 1905.  
Woman suffrage amendment.  
Amendment changing method of amending the constitution.  
Home rule for cities amend-ment.  
State printer amendment.  
Amendment for Initiative and referendum on special laws.  
New local-option law.  
Purchase of Barlow road by the state for \$4,000.  
Anti-pass law.  
Gross earnings tax on sleep-ing, refrigerator and oil car companies.  
Gross earnings tax on express, telephone and telegraph com-panies.
