QUARTETTE GIVES

Henry McGinn, Word Himself, E. J. McAllister Speak, and Dr. Wise Writes His Commendation of the Candidate.

Seventh street, between the Marquam building and the general offices of the Portland General Electric Company, last night, Henry McGinn and other Word campaign speakers spoke effectively for the Democratic candidate for Sheriff. The speeches were carefully listened to and

frequently interrupted by applause.

The Tom Word Quartet enlivened the occasion with songs between speeches and the Oregon State Band did good work in attracting a crowd. The parade about town that preceded the speechmaking was headed by the band, behind which came a file of traveling men and other Word supporters. The speakers spoke from a carriage, around whom the crowd

Henry McGinn Speaks.

Henry McGinn made the leading address and was in good form. After referring briefly to the referm work of William Jerome in New York, Mr. Mc-Ginn said in part:

Ginn said in part:

"We have a Jerome in our city, one who has done for Multnomah County what Jerome did in New York City. He drove the gamble; out of Multnomah County, and he is the only man who has been courageous enough to do it. I say God bless Tom Word!

"We had hoped Dr. Stephen S. Wise would have been here tonight to speak to us, but when we falled to secure the

lieu of a speech, he issued the following statement to the press:

I will not speak against Robert Stevens, whom I barely know; nor will I speak for Tom Word, whom I know and whom I trust, I will speak on behalf of the interests of the people of Portland and Multhomah, which are nearer to me than the interests of either candidate. I am a Republican sometimes; I am an American all the time, I am an Oregonian first, then a Republican, A greater, finer Portland is more to be desired than a partisan victory, Republican or Democratic.

I conceive this to be not a political meeting, but a rally of that portion of Portland's citizenship which believes in good government. I have never spoken at a partisan political meeting and I never will but when a question of civic cleanness and political decency faces the people of Portland, I have no right to be silent. I am not opposed, I repeat, to the Republican candidate for the office of Sheriff of Multnomah County, but I am opposed to Tom Word. If at this election my own brother were a candidate for Sheriff on any ticket, I would still vote and work for Tom Word. In the first place, because of his record in office; in the next place, because of the enemies ic has made; and, lastly, because his candi-

dacy represents two vital issues in american life, the enforcement of law und nonpartisanship in nunicipal politics. His record no man has impugned life has been a faithful, efficient public servant, conducting the affairs of his office with ability and integrity. It cannot be said of him, "he is straight but incompetent, honest but inefficient," for Tom Word has been incorruptibly honest and splendidly efficient. The enemies he has made do him honor, for he is opposed in part by blind and misguided partisans, by nungry office-seekers, and principally by an army of lawbreakers, whom his stern and inflexible enforcement of law has offended and whom only a pitable and purchasable Sheriff could hope to please.

This leads me to the discussion of the principle which Tom Word's candidacy represents, a principle far more important than any office, and of greater consequence than the success or defeat of any man. He has stood and he stands for enforcement of law. Lawlessness is one of the most perincipus and wideapread tendencies in the land. Lawlessness is one of the most perincipus and wideapread tendencies in the land. Lawlessness is one of the most perincipus and wideapread tendencies in the scale and John D. Rockefeller at the other, alike demand exemption from obcellence to law. Tom Word could not be bought or builled into giving immunity from the consequences of law-breaking to the one, nor can Theodore Roosevelt be moved to allow immunity from the one and can be completed and heavy perincipus anarching in turn goes unwhipped by bribe-taking rulers. We are being called upon more and more to choose between the American way and the Russian way, the American way which grants to no man, even though he be a gambler, the privilege of law violation. Tom Word stands for the American way which scales had been and heaven being called upon more and more to choose between the American way and the Russian way, the American way and the Russian way, the American way and the Russian way, the privilege of law violation. COL. ROBERT A. MILLER, DEMOCRATIC CANDIDATE FOR ATTORNEY-GENERAL Is of the pioneer stock of Oregon; is a graduate of the Willamette University and was admitted to the bar in 1887 and to the Supreme Court of the United States in 1892. He was twice elected to the Legislature from Jackson County; was a candidate for Congress in 1890; on the electoral ticket in 1902 and was appointed Register of the Oregon City Land Office in 1893, serving four years. Colonel Miller has lived in the Counties of Jackson, Klamath, Marion, Clackamas and Multnomah. He was one of the pioneer workers for a greater Oregon and is one of the popular representative men of

tion then taken I still hold.

As to the proposed amendment now be-fore the people, permit me to say that I hold nothing in common with it, either

suffrage states. If woman suffrage will purify politics and assist the cause of temperance, why has it not done so in those four states?

In all the suffragist agitation, I notice they very carefully abstain from any explanation as to why, after years of woman voting, political conditions are worse than ever.

The respectable woman, the woman whom we would naturally look to to purify the political atmosphere by her vots, her influence and her example, will not enter into the filthy-political mess of modern politics; her whole nature shrinks from it, and she will not use her right to vote. But at the time the ballot was given to her it was given to her less fortunate sisters, the ignorant, the foreign women and the women of the brothels. This class will vote, some early and often, and as the same class of men constitute the existing bad element in politics, so would these women only add to their ranks and give the unscrupulous politician greater strength. This is how woman suffrage has worked out in the four suffrage states, and has proved itself to be a delusion and a snare. It has given such additional strength to the worst political element that the decent element, or those who would vote for pure government, are snowed under at each election, and so it goes on from bad to worse.

St. Paul said: "Let your women keep ellence in the churches; for it is not permitted unto them to speak; but they are commanded to be under obedience, as also saith the law." (I Corinthians, xy.34.) Which means today that women should not vote.

And from the experience of the suffrage states I believe he was right.
