DEATH OF MISS ANNA DAVIDSON.—Miss Anna Davidson, who taught in the South Mount Tabor School for twenty years, died at the home of Gustaf Peterson, 30 South Mount Tabor, June 1, at the age of 29 years and 11 months. She has not taught for about two years. Miss Davidson was president of the Teachers' Progress Club last year, and at the meeting of the club yesterday appropriate resolutions to her memory were passed. MORE RURAL MAIL DELIVERY.—Free rural mail delivery, which has been established out from Springfield, Clackamas County, will start July 1. The new route runs to Logan, Viola and Highland and is about 23 miles long. Nearly 100 families will be accommodated by this route. The carrier will start from Springfield at 11 A. M. and cover the route by about 5 in the afternoon.

EXCURSION RATES EAST.—Special excursion rates have been named by the Northern Pacific to points east. All tickets will be good on the famous "North Coast Limited" either going or returning. It is the only electric-lighted up-to-date train from Portland to the East. Pullman first-class and Pullman tourist sleeping-cars. Dining-car night and day, always ready at meal time. This is the observation-car route. It is the train of luxuries—hot baths, barber's services, library, individual electric berth lights; private smoking compartments; clothes-pressing service; all the little things that add to the comfort of the journey. Its beautiful observation-car is a revelation. The dining-car service is superior; the menu varied and satisfying. From end to end it is pleasing, comfortable and beautiful; the train that makes friends and keeps them. This train leaves Portland daily, running via Tacoma and Seattle, over the Cascades, through the Takima Valley, thence to Spokane and along Lake Pend d'Oreille and over the Rocky Mountains to Butte, thence to Livingston, which is the diverging point to the Yellowstone National Park via Gardiner. The Government official entrance to the park, and the only direct route to the park. Call at 255 Morrison street, corner Third, for full particulars, or write A. D. Charlton, A. G. P. A., Portland, Or., and all information will be given you.

YELLOWSTONE NATIONAL PARK.—The Government official entrance is via the Northern Pacific, Livingston, Mont., and Gardiner gateway. It is the wonderland of the world—limits in recreation opportunities; offering the finest coaching trip in America and the study of Nature's most wonderful phenomena. It may be seen on a side trip en route to or from the East. Special excursion rates for the round trip will be made during the summer to points east, and Yellowstone Park should be included. Join the "See America First" Club and travel via the Northern Pacific. Particulars at ticket office, 255 Morrison street, corner Third.

DEFACING WAITING STATIONS.—Women of the Mount Tabor Home Training Circle are trying to devise a plan to keep the waiting stations on the Mount Tabor electric railway clean and decent. Time and again these stations have been cleaned and repainted, and notices posted on the walls, but without much effect. The walls continue to be defaced with indecent writing. It is thought that if an example in the way of a heavy fine could be imposed on the guilty ones it might have a deterring effect, but the difficulty is in detecting them in the act of defacing the public waiting stations.

WANT GRAND AVENUE IMPROVED.—Many of the property-owners on Grand avenue, between Sullivan's Gulch and Belmont street, exclusive of the big fill, are anxious that the improvement of that street should go forward. E. H. Virgil, a property-owner, said yesterday that at the present progress Grand avenue would not be paved this year. He said the property-owners signed for Warren's billi-ton pavement, but that the improvement is being held up by Councilmen Sharkey and Kellaher on the ground that they want competitive bids.

IN EXAMINER'S OFFICES.—The United Railways Company moved its offices yesterday to the Commonwealth building, where it is occupying a large part of the fourth floor. Temporary rental offices also have been established by the Commonwealth Bank & Trust Company, owners of the building, on the same floor. The remodeling of the building is now practically completed. Many of the offices are occupied.

WILL BUILD ON CONCRETE.—Joseph Paquet will erect a two-story brick on the northwest corner of East Morrison and Water street, on piles driven four feet below the surface. Concrete will be laid on these piles. Mr. Paquet, who is a practical builder, says that piles driven below the surface are indestructible and that it is not necessary to use concrete piles, as some have proposed for the low grounds.
