Story of Bankruptcy Answered by City Attorney With Convincing Facts and Figures-Revenue From Joints Small.

KANSAS CITY, Kans., Aug. 11 .-(Special.)-The people of this city are much exercised over stories which have been sent out to the newspapers of the country concerning the alleged bankruptcy of the city owing to the strict enforcement of the prohibitory law. City Attorney C. W. Trickett, who was instrumental in closing the who was instrumental in closing the saloons, has given out a lengthy in-terview in which he denies as a whole and in each and every particular the statements as printed.

"Instead of Kansas City being dam-

aged by the rigid enforcement of the prohibitory law, as charged, the oppo-site is true," says Mr. Trickett, "Kansage City today furnishes the unusual spectacle of a metropolitan city of \$3,000 people without a saloon, without a gambling den, without a brothel.

"There has been no reduction in the number of employes in either the police department, the fire department of ice department, the fire department of the street department, but an increase in the latter, since the campaign of law enforcement began.

Real Estate Has Advanced.

'Instead of depreciating property values, the prices on residence real es-tate have advanced since the closing of the joints and new people are com ing here right along, many of them because of the fact that the joints are closed. I have talked with many bus iness men and so far only have found two who claimed to have been injured in business by the closing of the joints. These two were an ice man and a cigar man. The majority of the people are satisfied with present conditions and many new people are com-ing to the city because of these condi-tions.

City Is Strong Financially.

"The last annual fiscal statement of this city for the year ending April 1, 1905, shows the total receipts and disburse-ments for the 12 months to have been \$222.803. There was cash on hand to the extent of \$22.005, and warrants and certificates outstanding to a total of \$55,261, thus leaving a floating debt of \$33,165, which is not a serious matter for 89,000

people to take care of.
"The revenue from the joints, which the correspondent seems to think are the only mancial salvation for the city, only amounted last year to \$48,197, and this in-cludes all 'fines' taken in by the Police Court, not all of which came from the

"Incidentally it may be mentioned that the new assessment made this year has been so equalized and made to cover property which has heretofore escaped its burden of taxes that there will be ample revenue for the city's needs.

Progress Under Prohibition.

"Twenty-five years ago, when the pro-hibitory law was passed, this city had a population of 15,000 or less; today 85,000. At that time it had no payed streats-now 60 miles of asphalt and brick paying. Then it was unknown as a manufacturing city-today it is the fifth largest manu-facturing city in the United States, being next to Chicago, the largest center of he packing industry in the world. Wants to Meet Committee and Lay Storm He Raised.

PHILADELPHIA, Aug. 11.-Seymour Eator, of this city, who a few days ago resigned as secretary of the international policy-holders' committee, has written a letter to ex-Judge Alton B. Parker, chairman of the policy-holders' executive committee, requesting that the committee be called together, so that he can be given an opportunity to give reasons for severing his con-nection with that body. Mr. Eaton's letter says in part:

There is absolutely nothing of truth in the unfavorable reflections made upon me per-sonally and upon my work. I have been loyal to the committee and so the cause which I engaged to serve. I did not intend tout my letter of resignation should cast re-flection upon a committee which met but once and whose members know practically nothing of the actual progress and possibl outcome of this policy-holders' movement. By my resignation I simply short-circuited the conditions and it is due to the distinguished and honorable men who constitute this committee as well as to the policy-holders who are innocently lending suppor-to the cause that my request as set forth in this letter be granted.

House of Lords Committee Reports

on Foreign Insurance Companies. LONDON, Aug. 11 .- "In view of the evidence they have heard, the committee does not consider that in the interest of British policy-holders it is desirable to compel foreign companies to deposit funds

in this country."

This is the finding of the select committee of the House of Lords to inquire into and report on what steps should be taken by the deposit of funds, or otherwise to provide adequate security to the British policy-holders in life insurance which have their chief of companies, which have their chief of-flees outside of the United Kingdom, but which carry on business in this country.

The committee found an almost unani-mous opinion among the leading British accurates and life insurance managers against compelling such measures on the art of foreign companies.

The report says that foreign companies

ahould be placed as far as posible in the same association as British companies. They should be made to comply with the requirements of the life insurance act of 1870.

The first two warrants charge con spiracy to cheat and defraud the Mil waukee-Avenue State Bank of its money, property and goods. Paul O. Stensland, Henry W. Assistant State's Attorney Olsen declined to confirm or deny this, but declared that he would be captured. More than 500 Polish residents of the ICAGO, Aug. 11. — (Special)—

Mob Raves Against Kowalski.

Crowds of hooting, yelling men, women and children today surrounded the house at 220 North Carpenter street, wherein lay the hody of Frank K. Maledictions in several languages were uttered against the dead. nen stormed the door and children away the modest wreath of flowers and the black crepe, trampling these sacred signs of death under foot.
