Purchasers of Oregon Wagon Road Lauds Men of Action.

#### EXPERTS IN COLONIZATION

Former Newspaper Writer Tells What Minnesota and North Dakota Investors Have Done in Obtaining Homeseekers.

SALEM, Or., Aug. 17 .- (Special.) - That the sale of the Oregon Central Wagon Road lands to Minnesota and North Dato a fine to an increase and the settlement of Southeastern Oregon is the bellof of W. F. Duniap, of the State Frinting Office, who was formerly a newspaperman in North Dakota. He bases his opinion on his knowledge of the work these men have done in North Dakota in the

men have done in North Dakota in the way of colonizing large tracts of land purchased from the Northern Pacific Railroad in that state.

"Richard Syles is a colonizer," said Mr. Duniap today. "He came from Manchester. England, and understands how to reach the class of people most desirable as settlers in a new country. E. A. Johnson & Co. are steamship agents, and state men and immigration agents, and have been largely instrumental in pring-

#### All in Colonization Scheme.

"W. B. S. Trimble is well known in North Dakota as a dealer in lands in undeveloped sections of the state. Of the other men mentioned as connected with the purchase of the Oregon Central Wagon Road lands, I have no knowledge, but the fact that they are associated with the three men named assures me that they are also in the colonization work, and I have no hestiancy in expressing I have no hesitancy in expressing opinion that Oregon has not in many or acquired the assistance of more table investors than these who have ught the balf-million acres of land re-

"Of course, I do not know their plans, but if they operate as they did in North Dakota, they will bring about a wonderful change in the region in which they have invested. In North Dakota they bought cheap lands and then went through the Eastern States and Canada and to Norway, Sweden and Germany and found industrious, frugal families, such as make a success of home-building in a new country.

"They érought these people to North Dakota, gold them land on easy terms,

Dakota, gold them land on easy terms, helped them get a start and in a few years the unsettled lands were peopled by prosperous, contented, patriotic cla-

#### Are Not Land Sharks.

These men are not land sharks, grasping money-lenders or ordinary speculators. Of course they are buying the land with the expectation of selling it for more money, but when they sell it they will bring homeseekers to Oregon. They are not the kind of men who sell a man a farm on partial payments and foreclose on him whenever they can make a few dollars by doing so. They help the settlers get started and give them every chance to pay for the land from the crops produced upon it.

"Unless I miss my guess, you will see Southeastern Oregon get some effective advertising as a result of this purchase." These men know how to advertise a new country in order to attract those people who make desirable settlers and they are in a position to reach the peo-ple most likely to be interested in such a region as that in which the Oregon central lands are located.

## Will Advertise the State.

## BANQUET IN BUENOS AYRES granted by it.

Secretary Root Is Accorded Great ROOT EXPLAINS HIS SPEECH Ovation by Business Men.

BUENOS AYRES, Aug. 18.—Secretary Root and the members of his party vesterday visited the port and docks here. Besides smaller functions last night, a grand banquet was given at the opera house in honor of the American by a leading representative of banking and commerce. Speeches were made by Senor Drago and Secre-

The banquet was one of the most important functions since his arrival here. Senor Drago, former Minister of Foreign Affairs, in proposing the health of President Roosevelt, Secretary Root and the people of the United States, said the moment was propitious for drawing closer the bonds of amity uniting the two nations and adding to the material and moral solidarity of American integ-

mr. Root, when he rose to reply, was accorded a great ovation. Tracing the policy of the United States for over a century, he said the United States had never employed and never would employ her Army or Navy for the collection of debts contracted by governments or private individuals. Such measures, he said, lent themselves to speculation and were based on sordid subjects. He was an advocate of arbitration and mediation and all other elements that made for peace. These matters were in the hands of the people, who should be inculented with a spirit of humanity and just consideration for others, so that neither Government, Presidents, Congresses could enter upon a war policy which was destructive ment, Presidents, Congresses could enter upon a war policy which was destructive of all the higher qualities of mankind.

The Secretary spoke of the phenomenal progress of the Argentine Republic, adding that what he had seen during his brief stay here had rendered all his previous knowledge of the country, obtained from books, magazines and newspapers, of little value as indications of the present greatness of Argentina. Mr. Root concluded with an eloquent tribute to Buenos Ayres, its people, institutions, hospitality and splendor, and resumed his seat amid the greatest enthusiasm, flowers being showered on him from all parts of the house. The banquet will long be remembered by the Argentine people and may be considered to be the inauguration of a new era in the relations between the United States and Argentina. United States and Argentina.

The earthquake in Chile may alter the itinerary of Secretary Root.

AGREES ON DRAGO DOCTRINE

Rio de Janeiro Conference Committee Recommends It to The Hague.

RIO DE JANEIRO, Aug. 18,—The conference committee on the Drago doctrine yesterday decided to report in favor of a recommendation that individual governments participating in the conference consider the advisability of presenting the

pancy on or before September 15, 1996. The apartments contain 6 rooms each-parlor, dining-room, kitchen, bath and two bedrooms, all light and ventilated, dumb-waiters and elevator; will have all the very latest improvements known to mankind, including a fine roof garden, reached by elevator. The apartments are going fast. For further particulars apply to the agent.

doctrine to The Hague tribunal for deliberation, not only with regard to the forcible collection of public debts, but of all pecuniary claims. Argentina was routed on all points in the discus-

The committee on patents, trade-marks and copyrights concluded its work today with the adoption of a res-The committee on patents, trademarks and copyrights concluded its work today with the adoption of a resolution recommending the formation of every dollar of it effective. It was a fortunate day for Oregon when they decided to undertake a colonization enterprise in this state, for they have the experience, the money and the enterprise in this state. For they have the experience, the money and the enterprise in this state. For they have the experience, the money and the enterprise in this state. shall remit monthly to all other countries in the union all records of patents, trademarks and copyrights

Tells Argentine Press He Did Not Advocate Alliance With Brazil.

BUENOS AYRES, Aug. 18.—Secretary Root visited the naval library and arsenal and made a tour of the arsenal grounds today. He paid a visit to the naval school. Afterwards he called at the Government bank. Lunch was served at the Palmero Garden and the party then started for home. Forty motor cars were used to convey the party. Secretary Root will depart Sunday evening for Bahia Bianco, where he will meet the cruiser Charleswhere he will meet the cruiser Charles-

Secretary Root today emphatically contradicted the interpretation of the Argentine press made on his Brazilian speeches to the effect that he had advocated an alliance of Brazil and America. On account of the rivalry between Brazil and Argentine this in-terpretation of the speech caused much discussion and irritation.

STRIKERS STONE ROOT'S CAR

Members of Argentine Party With

Him Slightly Hurt. BUENOS AYRES, Aug. 18.—While Mr. Root and a party were returning Thursday from the Chascomus ranch, strikers stoned the train, breaking three windows in Mr. Root's car and wounding the Minister of Agriculture in the neck. Several others of the party were slightly injured. The police are making an investigation.

Chipmunks as Tree-Climbers.

HOOD RIVER, Or., Aug. 14 .- (To the Editor.)—In your leave of August 10 the question is asked, "Can a Chipmunk Climb a Tree?" We answer yes. This we know by personal experience. To settle the question, turn to Page 68, volume 1, of "The Quadrupeds of North America," by Audubon and Bachman. There is no better authority.

Cuts Joint Tendons.

L. Hammock was brought to Portland this week with the tendons and arteries of his right foot severed. It is a serious injury. The accident occurred while he was working with an adz at the Dubols Lumber Company's sawmill.

James McLachlan Renominated. LOS ANGELES, Aug. 18.—At the Republican convention of the Seventh Congressional District held here today, Congressman James McLachian was re-nom-

# HOME BUILDING

The necessary essentials in home-building are location, neighborhood, convenience and scenery. The building instinct is so highly developed in the average Portlander that the good points of a building site are readily and quickly appreciated. If you are satisfied and thoroughly contented with your present surroundings, then, "Where ignorance is bliss, 'tis folly to be wise"; but if you are awake or awakening to the fact that your surroundings can be improved, or that you should enjoy some of the largely increasing values that are occurring in Portland real estate, then put yourself in full possession of all of the facts about your home city, and when you have done this you will thoroughly agree with us when we state that the Buckman Subdivision, containing twelve full blocks on East Twelfth, Thirteenth, Fourteenth, Fifteenth and Sixteenth streets, between Davis and Glisan streets, combines in location and general environment every prerequisite for the ideal home. The scenery is surprisingly fine, and the improvements will be strictly modern and first-class. The elevation of these lots is 130 feet. They are only 15 minutes' walk from the business center.

The values of these lots are steadily increasing, and the history of all growing cities will be repeated in Portland, so that in a comparatively short space of time the residences in this locality will give place to business houses. It is pleasant to know and think that the value of your home is daily

These lots can be purchased for \$2000 per lot and upwards, including all improvements. Just stop and think for one moment. In what city of 150,000 population that you know of, or ever heard of, can lots 15 minutes, walk from the heart of the down-town district be bought for such prices?

These lots have a future, and a bright future. They are big

money-makers at this price. These are not cheap lots, but the price is arranged to allow the buyer the chance of making an immediate profit. Cheapness is regulated, not by what you pay, but what you get for what you pay. Do a little thinking for yourself. Do not take the advice of any man who has other lots for sale. We will help you in any way that we can. CALL AND SEE US

Fine Residences FOR SALE

HARTMAN & THOMPSON,
Chamber of Commerce.

Lodging-House, Baker City

us and have a long talk along business lines. We have splendid opportunities for the safe investment of your idle funds. WE DO NOT WANT TO BORROW your money. We stand between you and the borrower, thereby giving you a double security, a first-mortgage basis. You cannot overlook the security and safety we offer, and then when you stop to think you hold the security yourself, and that the interest rate is 6 per cent per annum, payable semi-annually, you will agree with several hundred of our local clients who have acted on their own judgment in making investments. You will find us progressive, and in every department you will meet courteous gentlemen to answer your questions. We give you FACTS. SECURITY and SIX PER CENT interest on your investments. We believe in OREGON and PORTLAND'S FUTURE, as the evidenced by our transactions. We hold in TRUST FIRST MORTGAGE LIENS of a DOLLAR for every DOLLAR invested. This means that every dollar of your savings is INSURED against loss, IT MEANS THAT WE CANNOT HYPOTHECATE OR DISCOUNT your security. If you believe in both PROGRESS and SAFE methods, call and get acquainted. We have constantly on hand a large line of securities which net the investor 6 per cent per annum, interest payable semi-annually.

Safe as any savings bank; interest nearly double.

The essentials of any good investment are two—security and adequate interest. Interest without security is speculation and security without interest is unprofitable. That is why our certificates are being sought after more and more. They cover the two cardinal points of investment. They are issued in sums of \$5 or more, bear interest at 6 per cent from date of issue until date of payment. They are secured by specific first-mortgage liens, held in trust, such securities themselves bearing \$5 per cent. These certificates can be exchanged in amounts of \$100 or more for any guaranteed securities or mortgages we have on hand, on demand. If the small investor of Chicago had innisted on this plan, today he could collect 100 cents on the dollar. The man who advises you against this kind of security has a motive. Advice is cheap. Security brings back your dellars. You can get any information regarding our methods for the asking. Do not take the say so of a wiscarre; come yourself and get acquainted.
