Railroad Rebuilt to Santiago and Worst Distress Ended-Shocks Destroyed 190 Towns and Villages in Chile.

SANTIAGO, Chile, Aug. 25.-Railroad communication between here and Valpa-raiso was established today. President Riesco, accompanied by the Minister of Justice, left here today for Valparaiso. He has appointed a general relief com-mittee which shall have charge of the distribution of all contributions received. The government has bought 50,000 sacks of flour to be distributed among the peo-pie who suffered in the catastrophe and several trains carrying fresh provisions left here today for Valparaiso.

The towns, villages and hamlets de-stroyed in Tremoto district number 190. President Riesco has appointed an as-conomical committee to study the re-ent seismid disturbances. According to the latest news, the earthquake shocks were felt in all the southern provinces of Chile, but they caused no damage. The authorities of Santiago have re-solved to put down pillage and robbery

with the same energy that has been em-ployed in Valparaiso. Up to the present time 3000 persons have arrived here from Valparalso.

Agents sent out by the government to report the effect of the carthquake in Colemuco have sent in a letter declaring that during the disturbance a certain hill was so shaken down as to lay hare a mass of concer ore.

CALLS FOR AID TO VALPARAISO

President Roosevelt Asks People to Give of Abundance.

OYSTER BAY, Aug. 25.—President Roosevelt today issued a proclamation for aid for earthquake-stricken Chile. The proclamation was issued after con-sultation with Acting Secretary of State Bacon, at Sagamore Hill today. The

proclamation reads:
"A dreadful calamity has befallen our alster republic of Chile in the destruction by earthquake of Valparaiso and other localities. We at this moment see the City of San Francisco struggling upwards from the rules in which a like catastrophe overwhelmed her last Spring. We keep keenly in mind that half of the appreciation we then felt for the way in which the recole of Furone Asia and appreciation we then felt for the way in which the people of Europe, Asia and both Americas came forward with generous offers of assistance. In this time of woe of our sister republic, I ask that our people ought of their abundance now strive to do to another as others last Spring did to us. The National Red those Association has already taken measures to collect any subscriptions that may be offered for this purpose, and I trust that there will be a general response. Street. SAN JUAN DE MARTINEZ, Aug. 35 .-A correspondent of the Associated Press who rode out from here today says that when Pino Guerrera left San Luis, he took from that town 40,000 rounds of ammunition he found there. He also secured 28,000 rounds in San Juan de Martinez, It is reported that Colonel Julian Betancourt, the Havana Liberal, who is second mand of Guerrera's force, was slightly wounded in the engagement near San Luis. Guerrera's Move to Lure Army From Pinar del Rio.

PINAR DEL RIO, Cuba, Aug. 26 .- (Specisi.)—All the forces of the government are now being collected in this city to re-sist an expected attack from the robel army under Colonel Pino Guerrera. Un-expected orders were received from Havana tonight directing that all available forces be concentrated here, and the de-tachments which have been occupying surrounding towns that were preparing to start for Guanes have been held in Pinar

del Rio.
Coincident with the sudden orders from Havana is the discovery that Guerrera's army is not at Guanes, as was thought. This is the reason for the change of programme at the War Office. It is now believed that Guerrera, in moving away from Pinar del Rio, was executing a feint. The government expects an attack here and wants all its forces on the spot to

Governor Sobrado arrived in the city yesterday from the Adirondacks, and salled for Havana today. He said:
"This outbreak is districtly political.

"This outbreak is distinctly political and it will not amount to a great deal. There is nothing in the movement to cause alarm to persons who have in-terests of Cuba at heart. There has been grumbling ever since the election among a certain class of people, who began to preach against the Palma administration, and the present uprising does not come as a great surprise. However, it will be quickly put down, President Palma having all the resources he wants and the support and sympathy of all the lead-ing Cubans of the island. Followers of

Such wholesome expedition is fairly bewilder-ing to the European mind, Aside from this aspect of the question, however, opin ions differ,

In the first place, the French see in the act the beginning of an attempt to sup-plant French by English as the diplo-matic language through the simplifica-tion of the features that have made English so formidable to foreigners. A glance at the published ingredients on each bottle wrapper, will show that it is made who'ly from native, American, medicinal roots, that it contains no polsonous or habit-forming drugs, no narcotics and no afcohol—pure, triple-refined glycerine, of proper strengsh being used instead of the commonly employed slochol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's pecular diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. San Francisco Employes Strike This Morning.

REFUSE TO GRANT DELAY

SAYS REBELS ARE DESERTING Demand Higher Wages and Eight Hours and Will Not Awalt Arrival of President, Suspecting Bad Faith.

> SAN FRANCISCO, Aug. 26.-A general strike was declared by the carmen on the United Railroads early this morning, to take effect at 5 o'clock this (Sunday) morning, and will probably result in a general fle-up of all the street-car lines in this city, with the exception of the Geary and California-street cable roads.

This action was taken at 2 o'clock this morning at a mass meeting of the car-men's union to enforce the demands for 3 a day and a workday of eight hours made upon the company last Sunday. Failing to get a definite reply within the specified time, the carmen, after a brief, but exciting meeting, voted, it is said, unanimously to strike.

The executive committee of the union at a meeting held in advance of the gen eral meeting, adopted a lengthy statement addressed to Thornwall Mulially, president of the United Railroads, refusing to grant a delay until Monday to await the arrival of President Calhoun, as asked for by Mulially, stating that the union could see no reason for waiting for Calhoun's arrival or for a directors' meeting, as the carmen knew by past experience that the directors reflected the sentiments of Pres-ident Calhoun.

The statement set forth the reasons for

the men going out at this time, and stated that the men had chosen Sunday to in-augurate use strike because it would inconvenience the public least on that day; that the men would be around the carbouses today, and, if the company decides to grant the demands, they would be ready to go to work at once.

This action of the carmen was taken in spite of the efforts of Mayor Schmitz

during the past two days to avert the

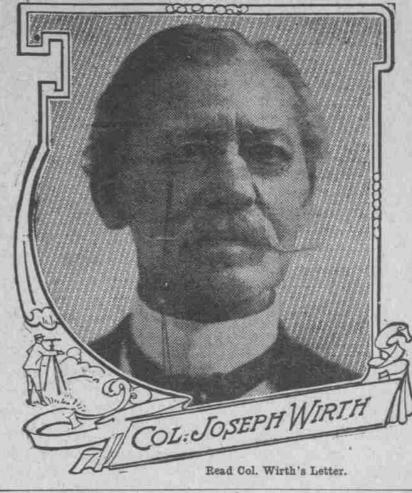

The Mayor added his entreaties to those of Mulisily to defer the strike vote until Monday, and yesterday sent a letter to the officials of the union, repeating his request and stating that he believed an amicable settlement would be arranged as soon as President Calhoun arrived. The carmen, however, apparently thought that the United Ralicoads was only sparring for time, and exports were circulated that the company was constructing barracks for strike-breakers This is the fourth strike on the United Railroads since the beginning of July when the electricians struck, to be fol-lowed by the engineers and firemen, and a few weeks later by the trackmen and construction workers. None of these strikes have been settled. The strike will affect about 2000 men.

When a medicine has once made a cure in a family, no persuasion or argument can overcome the confidence which such an experience inspires.

After a man or woman has tried many remedies, has consulted many doctors (and still the disease lingers), and then has turned to Peruna as a last resort and realized immediate benefit and finally a lasting cure—after such a thing has happened, a lasting faith in the virtue of the remedy is the result.

It ought to be so, too. The reputation of Peruna is built upon a solid foundation of public confidence.
