Ontario Pastor Released on Writ of Habeas Corpus.

AFFIDAVIT WAS FAULTY

Nothing to Show He Had Been Asked to Pay Board Bill or That He Left City of Ontario Surreptitiously.

Rev. E. H. Holman, who was arrested a week ago on a warrant issued in the Justice Court at Ontario, Or., for defrauding Charles Goddard and George Patterson, hotelkeepers, out of a \$30 board bill, was released by Judge Gantenbein yesterday on a writ of habeas corpus.

Rev. Mr. Holman was pastor of the Congregational Church at Ontario, and is at present agent of a life insurance company in Portland. The head office of the company is Des Moines, where Rev. Mr. Holman formerly lived.

The warrant for the arrest of the accused was based on an affidavit subscribed to by Charles Goddard, Judge Gantenbein, in issuing the writ of habeas corpus and releasing the petitioner, decided that there was nothing in the affidavit to show that Holman had not paid the bill, or that any demand had ever been made upon him for payment.

On the night of August 2, Taylor broke into Mr. York's store at 47 First street, and carried away a saxophone and six cornets. He pawned some of the instruments in Portland and then went to Tacoma. Taylor made a statement in court, saying that he delivered himself up to the Tacoma officers, and also surrendered the pawn tickets to the officers, and informed them where to obtain the rest of the property, which he had not disposed of. Taylor said he was a carpenter by trade, and recently followed the "Forepaugh & Sells Bros." Circus. The maximum penalty for the crime he committed is seven years.

Three Types of Fenders Offered.

Three candidates for supplying street-car fenders presented themselves before the special committee of the Council yesterday and each advanced strong argument why his particular design should be adopted. The committee, consisting of Councilmen Wills, Wallace and Rush-

light, set next Friday afternoon, at the Twenty-third and Washington street-car barn, as the time and place for holding the first actual tests. The fenders represented yesterday were the "Edipes," manufactured by the Consolidated Car Fender Company, of Providence, R. I.; the "Jordan automatic fender," the invention of H. C. Jordan, of Portland, and

the "controllable fender," also the design of a local man, M. L. Keizer, formerly of Baker, Or., being its originator.
