

HEARST PLANS TO OFFER BRYAN

Alarmed Lest He Should Stump for Jerome if Nominated.

OFFERS REASONS AGAINST

District Attorney Has Rarely Supported Democratic Ticket Since 1892—McClellan's Prediction Cheering.

NEW YORK, Sept. 8.—(Special.)—Mayor McClellan came home today, and on Tuesday William Randolph Hearst will be nominated for Governor by the Independence League Convention, which is to be held in this city.

Jerome's Changing Allegiance.

1892—Voted for Cleveland for President. 1893—Helped to elect the Republican ticket (Governor, Governor-elect, Governor, who held over). Voted against Maynard (Democrat) for Judge of the Court of Appeals.

How Can Bryan Support Him.

"If" said the Hearst man who prepared this list, "true Democracy consists in opposing the regularly nominated candidates of the party, then Jerome is the true Democracy."

McClellan Will Galvanize Boom.

Mayor McClellan's arrival is expected to put fresh life into the Jerome boom, as Fire Commissioner John O'Brien, his former private secretary and present confidential adviser, has stated that the Mayor means to "fire" summarily every office-holder who does not renounce Murphy and come out into the open for Jerome.

Encouraging to Hearst.

A cabled interview with McClellan to the effect that the Tammany delegation would not vote as a unit has excited much interest here. The Murphy and Hearst men take it as an acknowledgment that the Mayor expects to be defeated, and plans to hold at least a minority of delegates from New York County against him.

"Referring to the candidacy of District Attorney Jerome for the gubernatorial nomination," he said: "I am interviewed from Paris I expressed the opinion that Jerome was not only one of the strongest candidates in the Democracy, but one of the most picturesque and strongest figures now before the people. Since I delivered that opinion I have been on the sea, so can form no opinion as to the present condition of affairs, but I have so far heard nothing that would alter that opinion."

On municipal ownership he had this to say: "I have been able to see Judge, municipal ownership as it applies to street locomotion is by no means a success in continental cities. In nearly all those public utilities by us in Germany and France the street tramway system was a failure, or nearly so."

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that much of the sickness that afflicts mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yet criminal, to condemn the poor, weak, over-worked housewife who stands under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of organs and other derangements peculiar to her sex.

Frequent bearing of children, with its attendant demands upon the system coupled with the care, worry and labor of rearing a large family, is often the cause of weakness, nervousness and debility which are aggravated by the many household cares.

Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of this class of malady is the fact that the poor, over-worked housewife can not get the needed rest and quiet.

Finally, just after daylight, as I was passing over a forest, I managed to drop a rope over the tree and consisted myself down, slept an hour and started for civilization."
